Swiss Bridal Custom.—A correspondent traveling in Switzerland, writes that the custom of making gifts to the bride prevails there, as everywhere, but he thinks it is better regulated. The bride makes out a written list of things she will require in beginning to keep house, especially those that are over and above what would naturally be furnished by her friends; and one of them says, "I will give her this," and marks that, as provided for; another will give something else, and sometimes two or three will combine and furnish a more expensive present than one would give alone.

A boy of fifteen named Stanley Marshall, living in Fort Wayne, Ind., lost his speech and hearing in consequence of an attack of lung fever, about a year ago. A few days since, a man named George Lloyd conceived a plan of restoring the lost powers by the administration of a violent shock. The boy was made drunk and then muffed and rolled. Finally something gave way in Marshall's throat with a report like the popping of a champagne cork, and he called Lloyd a fool, the first time he had spoken for a year. He soon began to talk more freely, his speech coming back in broken accents like that of a child. He went to bed quite sick that night, and woke up next morning quite stiff and sore from the harsh treatment the day before, but able to hear and talk nearly as well as ever.

What lady would wear false hair or curls, when, by an outlay of one dollar, she can procure an article that will cause her hair to curl in wavy ringlets, or heavy, massive curls? Berger, Shutt & Co., Chemists, of Troy, N. Y., are agents for the same. See their card in another column.

Consumption curable by Dr. Schenck's Medicines. To cure Consumption, the system must be prepared so that the lungs will heal. To accomplish this, the liver and stomach must first be cleansed and an appetite created for good wholesome food, which, by these medicines, will be digested properly, and good healthy blood made; thus building up the constitution. Schenck's Mandrake Pills cleanse the stomach of all bilious or mucous accumulations; and, by using the Sea Weed Tonic in connection, the appetite is restored. Schenck's Pulmonic Syrup is nutritious as well as medicinal, and, by using the three remedies, all impurities are expelled from the system, and good, wholesome blood made, which will repel all disease. If patients will take these medicines according to directions, Consumption very frequently in its last stages yields readily to their action. Take the pills frequently, to cleanse the liver and stomach. It does not follow that because the bowels are not costive they are not required, for sometimes in diarrheas they are necessary. The stomach must be kept healthy, and an appetite created to allow the Pulmonic Syrup to act on the respiratory organs properly and allay any irritation. Then all that is required to perform a permanent cure is, to prevent taking cold; exercise about the rooms as much as possible, eat all the richest food—fat meat, game, and, in fact, anything the appetite craves; but be particular and masticate well.

A YOUNG LADY returning to her country home, after a sojourn of a few months in the city, was hardly recognized by her friends. In place of a coarse, rustic, flushed face, she had a soft ruby complexion of almost marble smoothness, and instead of twenty-three she really appeared but eighteen. Upon inquiry as to the cause of so great a change, she plainly told them that she used the CIRCASSIAN BALM; and considered it an invaluable acquisition to any Lady's toilet. By its use any Lady or Gentleman can improve their personal appearance an hundred fold. It is simple, yet unsurpassed in its efficacy in drawing impurities from, also healing, cleansing and beautifying the skin and complexion. By its direct action on the cuticle it draws from it all its impurities, kindly healing the same, and leaving the surface as Nature intended it should be, clear, soft, smooth and beautiful.
