

## The Local Mariettian.

Saturday Morning, June 8, 1867.

The Morning Passenger train for Lancaster and Philadelphia will leave the upper station at 12 minutes after 8 o'clock. The Mail train going westward will pass upper station at 7 minutes after 12 o'clock, noon. The Harrisburg accommodation train eastward will pass at 28 minutes after 5 o'clock, in the afternoon and returning arrive here at 43 minutes after 6 o'clock in the evening.

The meeting of the "Open Temperance Society," on Monday evening last, was well attended. The discussion was spirited, considerable interest having been awakened on the question brought before the society. A meeting will be held in the "Irish town" school house on Sunday, June 16th, under the auspices of the Good Templars of this place, at 4 o'clock. We understand it is the intention to carry on a vigorous campaign during the summer.

There was a "free blow" in "Irish town" on Monday night last. A large platform was erected in the rear of a dwelling house, and two immense night-banks put up, and there, to the "tune of the fiddle," dancing was kept up pretty much all night. To judge from the description of those who attended it, it must have been a "grand affair."

P. T. Barnum's (patent) Elastic Strap and Buckles for pants, vests and drawers is a little invention which will commend itself to every gentleman who desires good fitting clothes without feeling restrained in his movements, and to persons who tear the straps and buckles from their garments it will be worth double the cost. These straps are very durable, neat, and of a variety of styles, colors and prices, to suit all. An agent for the sale of them here would be very profitable. See advertisement.

The following notice of the Normal School of Curwensville, with which Prof. Geist of this Borough is connected, we clip from the *Raftsmen Journal* of June 5th:—"The Normal School, at Curwensville, is a success—beyond the anticipations of its projectors. The number of scholars now in attendance is one hundred. That this institution will be the means of establishing a higher grade of teachers in the county, there is no doubt, and it should be encouraged by every friend of education."

The Susquehanna is falling rapidly and the river business is completely wound up. Business in our Borough is coming to a "stand-still" and there is every prospect of a dull summer. Few improvements have been made. Dr. J. H. Grove has given his house a new coat of paint inside and out, which adds very much to its appearance. The work on the Watts furnace at the lower end of town is being pushed forward rapidly.

We notice that many of our exchanges are urging upon their Borough officials the necessity of muzzling dogs during the hot weather. Thus far our officials have taken no action in the matter. Why this is we are not able to say, but suppose it goes upon the same principle as that of fixing the sidewalks—wait until some one gets hurt. There are about two hundred worthless curs running about our streets, which could be very easily dispensed with.

"Demorest" for July is on our table. This Magazine has been truly styled "The Queen of the Monthlies." It is full of good stories, fine illustrations, household hints, and seasonable fashions. Price \$3.00 per year. Address, W. Jennings Demorest, 437 Broadway, N. Y.

Our readers are referred to the advertisement of the Philadelphia Press in another column. Col. Forney is now in Europe and is furnishing a series of very interesting letters for his paper. The Press stands in the front-rank of American dailies and every intelligent Republican should be a reader of it.

The second track which is being laid through our Borough by the P. R. R. Co. is almost completed. All the sewers have been remodeled, the willows in front of Houseal's cut away, and before long we suppose trains will be running upon it.

The "Band of Hope" under the superintendence of Rev. G. W. Clawges, is increasing its membership very fast. Meetings are held every Saturday evening at 5½ o'clock, in Temperance Hall.

A horse blanket was found on the pike between Marietta and Columbia. The owner can have it by calling at this office, proving property and paying for this notice.

Between two and three hundred had been captured at the Haines' quarry during the past week, besides any quantity of smaller fish.

Don't forget that Dr. Landis' Art. fountain is now in "full blast." Delicious drinks can now be had there for half a dime.

Messrs. Bowers & Steacy have just received another lot of goods. Call and examine their stock.

We understand there was a "free blow" in "Irish town" on Friday evening

The 11th semi-annual exhibition, of the Farmers' and Fruit growers society of East Donegal will be held in Temperance Hall, on Monday, June 17th. All who have flowers, fruits, vegetables, or other domestic productions of interest are cordially invited to present the same for exhibition. All articles placed on exhibition will be at the disposal of the owners at the close of the exhibition. The Hall will be opened at 10 o'clock A. M. Committee of arrangements: George W. Mohaffy, Joseph Windolph, Michael Ramblér, Hiram Eagle, Barr Spangler, Secretary; J. J. Libhart, President.

## Special Notices.

THE LAWS OF HEALTH.—It is useless for State Legislatures to pass laws for the preservation of the public health, if the great law of self-preservation, which depends for its enforcement upon the will of the individual, is suffered to remain a dead letter.

There is scarcely an adult member of the community, of either sex, in this country, who has not seen the testimony in favor of HOSKETT'S STOMACH BITTERS, furnished over their own signatures by persons of acknowledged eminence in science, literature, art, commerce and every department of business and professional life. These witnesses have declared in the most explicit terms that the preparation is a safeguard against epidemics, a sovereign remedy for dyspepsia, a valuable anti-bilious medicine, a promoter of appetite, a genial and harmless stimulant, a good acclimating medicine, a strengthener of the nerves, a general invigorant, a protection against the deleterious effects of malaria and impure water, and that it imparts a degree of vigor and activity to the vital forces which is not communicated by any other of the tonics and stomachics in use. Under these circumstances the self-preservation law of nature should teach every rational person who, either by reason of inherent debility or in consequence of exposure to unwholesome influences, is in peril of losing the greatest of all temporal blessings, HEALTH, the importance of using the Bitters as a defensive medicine. Dyspepsia, which neglect to give it a trial are simply their own enemies. It is guaranteed to cure indigestion in all its forms, and the bilious and nervous will find nothing in the whole range of official and proprietary medicines which will afford them the same relief.

Consumption curable by Dr. Schenck's Medicines. To cure Consumption, the system must be prepared so that the lungs will heal. To accomplish this, the liver and stomach must first be cleansed and an appetite created for good wholesome food, which, by these medicines, will be digested properly, and good healthy blood made; thus building up the constitution. Schenck's Mandrake Pills cleanse the stomach of all bilious or mucous accumulations; and, by using the Sea Weed Tonic in connection, the appetite is restored.

Schenck's Pulmonic Syrup is nutritious, well as medicinal, and, by using the three remedies, all impurities are expelled from the system, and good, wholesome blood made, which will repel all disease. If patients will take these medicines according to directions, Consumption very frequently in its latest stages yields readily to their action. Take the pills frequently, to cleanse the liver and stomach. It does not follow that because the bowels are not costive they are not required, for sometimes in diarrhea they are necessary. The stomach must be kept healthy, and an appetite created to allow the Pulmonic Syrup to act on the respiratory organs properly and allay any irritation. Then all that is required to perform a permanent cure is, to prevent taking cold; exercise about the rooms as much as possible, eat all the richest food—fat meat, game, and, in fact, anything the appetite craves; but be particular and masticate well.

A YOUNG LADY returning to her country home, after a sojourn of a few months in the city, was hardly recognized by her friends. In place of a coarse, rustic, flushed face, she had a soft, rosy complexion of almost marble smoothness, and instead of twenty-three she really appeared but eighteen. Upon inquiry as to the cause of so great a change, she plainly told them that she used the CASCARAN BATH, and considered it an invaluable acquisition to any Lady's toilet. By its use any Lady or Gentleman can improve their personal appearance an hundred fold. It is simple in its combination, as Nature herself is simple, yet unsurpassed in its efficacy in drawing impurities from, also healing, cleansing and beautifying the skin and complexion. By its direct action on the cuticle it draws from it all its impurities, kindly healing the same, and leaving the surface as Nature intended it should be, clear, soft, smooth and beautiful. Price \$1, sent by mail or express, on receipt of an order, by W. L. CLARK & Co., Chemists.

No. 3 West Fayette St., Syracuse, N. Y. The only American Agents for the sale of the same.

The Union Pacific Railroad Co., Are now constructing a railroad from OMAHA, NEBRASKA,

westward towards the Pacific Ocean, making with its connections an unbroken line across the continent.

The Company now offer a limited amount of their

FIRST MORTGAGE BONDS

having thirty years to run, and bearing annual interest, payable on the first day of January and July, in the city of New York, at the rate of SIX PER CENT. IN GOLD,

AND NINETY CENTS ON THE DOLLAR.

This road was completed from Omaha 305 miles west on the 1st of January, 1867, and is fully equipped, and trains are regularly running over it. The Company has now on hand sufficient iron, ties, etc., to finish the remaining portion to the eastern base of the Rocky Mountains, 215 miles, which is under contract to be done September 1st. of this year, and it is expected that the entire road will be in running order from Omaha to its western connection with the Central Pacific, now being rapidly completed eastward from Sacramento, Cal., during 1867.

Means of the Company.

Estimating the distance to be built by the Union Pacific to be 1,565 miles, the United States Government issues its Six per cent. Thirty-Year Bonds to the Company as the road is finished at the average rate of about \$25,250 per mile, amounting to \$44,308,000. The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which by special act of Congress are made a first mortgage on the entire line, the bonds of the United States being subordinate to them.

The Government makes a donation of 12,500 acres of land, to the mile, amounting to 20,032,000, estimated to be worth \$30,000,000 making the total resources, exclusive of the capital, \$118,416,000; but the full value of the lands cannot now be realized.

The authorized capital stock of the Company is one hundred million dollars of which five millions have already been paid in, and of which it is not supposed that more than twenty-five millions at most will be required. The cost of the road is estimated by competent engineers to be about one hundred million dollars, exclusive of equipment.

Prospects for business.

The railroad connection between Omaha and the East is now complete, and the earnings of the Union Pacific on the sections already finished for the first two weeks in May were \$100,000. These sectional earnings as the road progresses will much more than pay the interest on the Company's bonds, and the through business over the only line of railroad between the Atlantic and Pacific must be immense.

Value and Security of the Bonds.

The Company respectfully submit, that the above statement of facts fully demonstrates the security of their Bonds, and as additional proof they would suggest that the Bonds now offered are less than ten million dollars on 517 miles of road, and on which over twenty million dollars have already been expended;—on 330 miles of this road the cars are now running, and the remaining 187 miles are nearly completed.

At the present rate of premium on gold these bonds pay an annual interest on the present cost of

Nine Per Cent.

and it is believed that on the completion of the road, like the Government Bonds, they will go above par. The Company intend to sell but a limited amount at the present low rates and retain the right to advance the price at their option.
