as Shad fishing ceased on Monday by operation of law. Acts of the Legislatures of the States of Pennsylvania and New Jersey protect the fish by prohibiting their capture after the 10th of June. All that the fishermen spared can now spawn without molestation. For some days they have been scarce fit for food. "As thin as June shad" is in some parts of the country a proverbial comparison. What the shad have to contend with is the sturgeon, the gar fish and other joint occupants of the river that fatten upon their spaws. The late rains, rendering the river turbid, have been favorable to the fish and the reverse to the fishermen, and the chances for a large multiplication of the species is larger than for many a long year be-

THE HORTICULTURAL EXHIBITION.—The exhibition of the Farmers' and Gardeners' Society of East Donegal, in Temperance Hall, on Monday last, was a completé success. A lady having enjoyed the pleasure, comfort and great convenience of wearing the Duplex Elliptic steel spring skirt for a single day, will never afterwards willingly dispense with their use. For children, misses, and young ladies

they are superior to all others.

The Company has now on hand sufficient iron, ties, etc., to finish the remaining portion to the eastern base of the Rocky Mountains, 212 miles, which is under contract to be done September 1st. of this year, and it is expected that the entire road will be in running order from Omes to its wastern connect. niles west on the 1st of January, 1867, and is ning order from Omaha to its western connection with the Central Pacific, now being rap idly built eastward from Sacramento, Cal. during 1867.

Means of the Company. Estimating the distance to be built by the Union Pacific to be 1,565 miles, the United States Government issues its Six per cent. Thirty-Year Bonds to the Company as the road is finished at the average rate of about \$28,250 per mile, amounting to \$44,208,000.
The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which by spe-cial act of Congress are made a first mortgage on the entire line, the bonds of the United States being subordinate to them.

The Government makes a donation of 12,800 acres of land, to the mile, amounting to 20,-032,000, estimated to be worth \$30,000,000 making the total resources, exclusive of the capital, \$118,416,000; but the full value of the lands cannot now be realized.
