M HE PHILADELPHIA UNIVERSITY!

The Philadelphia University of Medicine and Surgery was organized in 1848. Charter-ed by the Legislature, February 26, 1853 Name changed by a legislative enactment to the Eclectic Medical College of Philadelphia, in 1860. In 1863 it purchased the Pennsylva-nia Medical College, established in 1842, and the Philadelphia Medical College, which had the Philadelphia Medical College, which had previously been merged into the Pennsylvania Medical College. In 1864 it purchased the Penn Medical University. The Trustees of the separate schools united, petitioned, and obtained a special act of the Legislature, consolidating these institutions and changing their names to that of the Philadelphia University of Medicine and Surgery, March 15, 1865. All these various acts are published in the statues of Pennsylvania. The cost of the building and museum was over one hundred thousand dollars. It will be observed that the University, as now organized, is the legal representative or the four medical colleges that at has absorbed. It is a liberal school of medicine, confined to no dogma, nor attached to any medical clique; but embraces in its teach-

any medical clique; but embraces in its teachings everything of value to the profession.

SESSIONS.—It has two full sessions each year, commencing on the 1st. of October, and continuing until the 1st. of January as its first session, and from the 1st. of January to the tat. of Aprils as its second. the two constitutes 1st. of April as its second; the two constituting one full course of lectures. It has also a summer sossion, commencing the lat. of April and continuing until Asgust, for the preparatory branches, such as Latin, Greek, Mathematics, Botany, Zoology, Chemistry, Anatomy

Physiology, etc.
Tickers.—Tickets to the full course of lec-TICKETS.—Tickets to the full course of lectures \$120, or \$60 for each session. For the summer or preparatory course \$25. Graduating fee \$30. To aid young men of moderate means, the University has issued five hundred scholarships, which are sold to first-course students, for \$75, and to second-course students and clergymen for \$50, each constituting the holder a life member, with the perpetual privileges of the lectures, and all the teachings of the school. The only additional fees are a yearly dissecting and matriculating ticket, each of which is \$5.

The Advantages of Scholarships.—

THE ADVANTAGES OF SCHOLARSHIPS.— The student holding a scholarship can enter the College at any time during the year, at-

the college at any time during the year, attend as long as he chooses, and re-enter the institution as frequently as desired.

It requires no previous reading or study to enter the University on scholarships, hence, all private tuition fees are saved.

Students, by holding scholarships, can prosecute other business a part of the time.

The candidate for graduation can present himself at any time, and receive his degree as soon as qualified.

In case a student should hold a scholarship and not be able to attend lectures, it can be transferred to another, thus preventing any

Parents, guardians, or friends of students Parents, guardians, or intends of students wishing to purchase scholarships for them a year or more before their attendance at the University, can secure them by advancing one-half the price, and paying the balance when the student enters. Physicians and benevolent men can bestow great benefit upon poor young men, by presenting them a scholarship, and thus enabling them to obtain an honorble profession. ble profession.

The Faculty embraces seventeen eminent physicians and surgeons. The University has associated with it a large hospital clinic, where every form of medical and surdical disease is operated on and treated in the presence of the

COLLEGE BUILDING .- The College building located in Ninth street, south of Walnut, is the finest in the city. Its front is collegiate gothic, and is adorned with embattlements and embrasures, presenting a novel, bold, and beautiful appearance. The facade is of brown embrasures, presenting a novel, bold, and beautiful appearance. The facade is of brown stone, ornamented by two towers, rising to the elevation of eighty feet, and crowned with an embattled parapet. The building contains between fifty and sixty rooms, all supplied with water, gas, and every other convenience, that modern improvement can contribute to facilitate medical instruction. Only five hundred scholarships will be issued, and as two hundred and fifty are now sold, those who wish to secure one should do so at once. Money can be remitted by express, or a draft or a check sent on any National bank in the United States, when the scholarship will be returned by mail, signed by the President of the Board of Trustees, Jos. S. Fisher, Esq., and the Dean of the Faculty, W. Paine, M. D. All orders for scholarships or other business of the University, should be addressed to Professor W. Paine, M. D. Philadelphia, Pa.

ASTROLOGY!

THE WORLD ASTONISHED. AT THE WONDERFUL REVELATIONS MADE BY THE GREAT ASTROLOGIST.

Madame H. A. Perrigo.

She reveals secrets no mortal ever knew. She restores to happiness those who, from doleful events, catastrophes, crosses in love, loss of relations and friends, loss of money, &c., have become despondent. She brings together those long separated, gives information concerning absent friends or lovers, restores concerning absent mends or lovers, restores lost or stolen property, tells you the business you are best qualified to pursue and in what you will be most successful, causes speedy marriages and tells you the very day you will marry, gives you the name, likeness and characteristics of the person She reads your very thoughts, and by her almost supernatural powers unveils the dark and hidden mysteries of the feture. ers unveils the dark and finder mysteries of the future. From the stars we see in the firm-ament—the malefic stars that overcome or predominate in the configuration—from the aspects and positions of the planets and the fixed stars in the heavens at the time of birth, she deduces the future destiny of man. Fail not to consult the greatest Astrologist on earth, the costs von but a tiffe, and you may never not to consult the greatest Astrologist on earth. It costs you but a tiffe, and you may never again have so favorable an opportunity. Consultation fee, with likeness and all desired information, \$1. REPARATOR CAPILI. REPARATOR CAPILL.

For restoring hair upon bald heads (from whatever cause it may have fallen out) and forcing a growth of hair upon the face, it has no equal. It will force the beard to grow upon the smoothest face in from five to eight weeks, or hair upon bald heads in from two to three months. A few ignorant practitioners have asserted that there is nothing that will force or hasten the growth of the hair or beard. Their assertions are false, as thousandgof living witnesses (from their own experience) ing witnesses (from their own experience) can bear witness. But many will say, how are we to distinguish the genuine from the spurious? It certainly is difficult as nine-tenths of the different Preparations advertised for the control of the different preparations. for the hair and beard are entirely worthless, and you may have already thrown away large amounts in their purchase. To such we would say try the Reparator Capili; it will cost you nothing unless it fully comes up to our representations. If your druggist does not keep it, send us one dollar and we will forward it, postpaid, together with a receipt for the money, which will be returned you on application, providing entire satisfaction is 1 of given. The Union Pacific Railroad Co. Are now constructing a railroad from OMAHA, NEBRASKA,

westward towards the Pacific Ocean, making with its connections an unbroken line ACROSS THE CONTINENT. The Company now offer a limited amount

FIRST MORTGAGE BONDS having thirty years to run, and bearing annual interest, payable on the first day of January and July, in the city of New York, at the

SIX PER CENT. IN GOLD.

NINETY CENTS ON THE DOLLAR. AINETY CENTS ON THE DOLLAR.

This road was completed from Omaha 305 miles west on the lat of January, 1867, and is fully equipped, ind trains are regularly running over it. The Company has now on hand sufficient iron, ties, etc., to finish the remaining portion to the éastern base of the Rocky Mountains, 212 miles, which is under contract to be done September 1st. of this year, and it is expected that the entire road will be in running order from Omaha to its western connection with the Central Pacific, now being rapidly built eastward from Sacramento, Cal., during 1867.

Means of the Company.

Means of the Company.

Estimating the distance to be built by the Union Pacific to be 1,565 miles, the United States Government issues its Six per cent. Thirty-Year Bonds to the Company as the road is finished at the average rate of about \$28,250 per mile, amounting to \$44,203,000.

The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which by special act of Congress are made a first mortgage on the entire line, the bonds of the United States being subordinate to them.

The Government makes a donation of 12,800 acres of land, to the mile, amounting to 20,-632 000 estimated to he worth the states and the same times to 20,-632 000 estimated to he worth the same times to 20,-632 000 estimated to he worth the same times to 20,-632 000 estimated to he worth the same times to 20,-632 000 estimated to he worth the same times to 20,-632 000 estimated to he worth the same times to 20,-632 000 estimated to he worth the same times to 20,-632 000 estimated to he worth the same times to 20,-632 000 estimated to he worth the same times to 20,-632 000 estimated to he worth the same times to 20,-632 000 estimated to be worth the same times the same times the same times times the same times the same times the same times the same times times the same times times times the same times the same times time

The Government makes a donation of 12,800 acres of land, to the mule, amounting to 20,-032,000, estimated to be worth \$30,000,000 making the total resources, exclusive of the capital, \$118,416,000; but the full value of the lands cannot now be realized.

The authorized capital Stock of the Company is one hundred million dollars of which the manufacture of the company is one hundred million dollars of which the manufacture of the company is one hundred million dollars of which the manufacture of the company is one hundred million dollars of which the company is one hundred million dol pany is one munured minimum unities of which five millions have already been paid in, and of which it is not supposed that more than twenty-five millions at most will be required. The cost of the road is estimated by competent engineers to be about one hundred ml-lion dollars, exclusive of equipment.

Prospects for business,

The railroad connection between Omaha and the East is now complete, and the earnings of the Union Pacific on the sections apready finished for the first two weeks in May were \$113,000. These sectional earnings as the road progresses will much more than pay the interest on the Company's bonds, and the through business over the only line of railroad between the Atlantic and Pacific must be immense. Value and Security of the Bonds.

The Company respectfully submit, that the above statement of facts fully demonstrates the security of their Bonds, and as additional proof they would suggest that the Bonds now offered are less than ten million dollars on 517 miles of road, on which over twenty million dollars have already been expended;—on 330 miles of this road the cars are now running. miles of this road the cars are now running, and the remaining 187 miles are nearly com-

pleted. At the present rate of premium ongold these bonds pay an annual laterest on the present cost of

Nine Per Cent. and it is believed that on the completion of the road, like the Government ponds, they will go above par. The Company intend to sell but a limited amount at the presence and retain the right to advance to their option.
