Impartial—but not Neutral.

The gold snuff-box presented by Queen Victoria to Com. Joshua Sands, as a testimonial for his services in assisting to lay the Atlantic cable, has been deposited in a bank at Bridgeport, Conn., for safe keeping—Congress having voted him permission to receive the gift.

La Mountain, the ardent, has gone to Saratoga for the purpose of arranging for a series of topical ascensions during the summer. The Troy Patent Rope Co., are making him manilla rope, 6,000 feet long, to be used on these occasions.

We are glad to learn through the Harrisburg Telegraph, that our old friend and office companion during the session of 1855, Mr. David Barnes, of Fayette county, has had the appointment of a clerkship in the Auditor General's office.

Dan Rice, the well known jester of the circus ring, has very generously handed over to the young ladies of the Presbyterian Church at Girard, Erie County, Pa., a donation of \$1000 for the purchase of a library for the Church.

our candidates as shall promote and tend to secure their election. And to the friends of our cause, the People's party, do we specially appeal, we hope not in vain, to afford to 'THE WEEKLY MARIETTIAN' that support and accord to it that encouragement so essential, nay indispensable to our success, both as a local newspaper and as a political organ.

They will no doubt reciprocate and do unto us as we shall do unto them, but this will be no valid reason why our opponents should not continue to be the friends and patrons of our paper, as they, in the past six years, have been, when we promise that our political course shall not be that of a violent political hackney-coach, but a high toned advocate of such principles as we believe to be right, and of such candidates as we shall deem worthy and deserving; and with our motto: "Impartial—but not Neutral," we hope to glide along the stream of "newspaperdom" smoothly and placidly to a haven "dear to be wished for."

"Do not understand us that we mean to close our shutters and never stir out from our chimney corners. No, we mean, one-and-a-while, to look out at the great World and see what it is doing and tell it what we are doing."

"But while we are far from expecting merit equal to the first class papers of the country, or to rival them in size or literary merit, we wish to make our paper a welcome visitor to every fireside. We hope to fill it with interesting matter and send it forth to please and instruct."

"We shall be thankful for subscriptions from abroad, and will try to make the paper at least worth the dollar, and to the citizens of Marietta and vicinity, we are sure it is only necessary to say it is your paper to secure for it a generous encouragement."

Godey for August, as usual, is early on our table. The engraving, "Blowing Bubbles" is a very choice one, whilst the four figured, colored, fashion plate with seventy or eighty other engravings descriptive of articles of dress, &c., make Godey, as it long has been, the indispensable of every well-informed lady. By the way, our "better half" acknowledges the receipt of L. A. G.'s card containing the fac-similia of what she pronounces a very intellectual and good natured face.

The gold snuff-box presented by Queen Victoria to Com. Joshua Sands, as a testimonial for his services in assisting to lay the Atlantic cable, has been deposited in a bank at Bridgeport, Conn., for safe keeping—Congress having voted him permission to receive the gift.

La Mountain, the ardent, has gone to Saratoga for the purpose of arranging for a series of topical ascensions during the summer. The Troy Patent Rope Co., are making him manilla rope, 6,000 feet long, to be used on these occasions.

We are glad to learn through the Harrisburg Telegraph, that our old friend and office companion during the session of 1855, Mr. David Barnes, of Fayette county, has had the appointment of a clerkship in the Auditor General's office.

THE RETURN OF HEENAN.—John C. Heenan, the cherished child of America, the defender of her honor, the darling of the Musclemen, and the Patron-saint of Yankee glory and prowess for all time to come, arrived at Staten Island on Saturday, accompanied by his trusty henchman, trainer, and second, Jack Macdonald. The conquering hero reposed himself on the Island for a day to get ready for a grand reception. We regret to say that The Belt did not arrive—some mercenary London tradesman detaining it on the paltry plea that it was not paid for!

EVERETT'S LAST ORATION.—A Boston correspondent says of Mr. Everett at the Boston Music Hall on the 4th:—"Edward Everett had spoken hundreds of times here, but he was, probably, never received with so much enthusiasm, the great assembly rising up and giving him cheer upon cheer." The argument of the oration was, that the experiment of the American Republic, far from being a failure, as has been held by Lord Grey, and as is frequently alleged by the doubtful and despairing among ourselves, has in reality proved successful.

BRUTAL OUTRAGE.—On Thursday last, an Irishman, named Hugh Field, was committed to jail at Clearfield, charged with attempting to commit a rape on Rebecca Sinkabine, a girl of 13 or 14 years. Field caught the girl on the plank road, and forced her into the bushes, bordering it, when her cries attracted the attention of her mother, who hastened to her rescue, and caused Field to seek safety in flight. A warrant, however, was issued, and the officer fortunately succeeded in arresting and lodging him in prison.

IGNORANCE AND FANATICISM.—One day last week a certain bigoted Irish Catholic School Director of Hazle township, got drunk and entered the school kept by Miss Jennie Torbett, an estimable and excellent lady who devotes herself to the education of the young, and grossly insulting her, snatched up the Bible, tearing it to pieces, and then tramping it beneath his feet, he swore that book should not be used in a public school there. He was arrested and taken before F. A. Whitaker, Esq., who held him to bail to appear at next Court.—Wilkesbarre Times.

IN A QUANDARY.—A gentleman who left New York for Europe just before the meeting of the Baltimore Convention, gave one of our most eminent portrait painters a commission to paint a portrait of the Democratic candidate for the Presidency, let him be who he might; but the puzzled artist is now in a quandary, as he does not know which of the candidates to paint, whether Douglas or Breckinridge.

Albert W. Hicks, the oyster sloop murderer was hung at New York on Friday last, on Bedloe's Island, in full view of the battery and the bay. A carriage took the prisoner, marshals and officers to the steamer Red Jacket.—There was a large crowd on the boat. Hicks asked to see the Great Eastern. His request was granted. During the trip to Bedloe's Island he showed no signs of fear or remorse. The bay was filled with vessels of every size, with vessels of every size, with thousands of excursionists on board. Over 70,000 persons were out to see the hanging, it is estimated.

Among the visitors to this country, recently arrived from Europe, is the Baron De Gavers, Minister from Holland to the Russian government. Baron De G., who is on leave of absence for a year, is accompanied by his wife and two children. The Baroness is a daughter of ex-Senator Wright of New Jersey, at whose residence the family are at present stopping. Mr. Wright has taken a cottage at Newport, where they intend passing the summer, and then will travel over the country.

Hollidaysburg, Pa., shows strong symptoms of a revival of business. A rolling mill is in process of erection for the manufacture of plate and boiler iron, and another for the manufacture of wire billets. Both these works are in the immediate vicinity of two furnaces.

The Pemberton mill at Lawrence will soon be completed. It is to be one story higher than before. It will manufacture cotton and woolen goods, and employ one thousand hands. We trust that the awful lesson taught by the late disaster will not be lost upon the present builders.

The last and latest "card of thank" is one signed by a party of prisoners before leaving the jail at Wheeling, Va., to take up their residence in the State Penitentiary at Richmond, on "taking their departure" returned thanks to the warden and his lady.

CLIPPINGS FROM OUR EXCHANGES. The Boston Pilot estimates the number of Catholics in this country at 3,500,000. A Paris letter states that a pistol ball was found in one of Prince Jerome Bonaparte's lungs after death, which had been lodged there more than 50 years ago in a duel with a brother of Marshal Davoust.

Dr. Thos. Butts of Southampton, Va. who died last week, has directed in his will that all his slaves, 105 in number, shall be freed. A Texan friend writing to the editor of the Augusta (Ga) Chronicle and Advertiser, informs him that Gov. Houston has declared his preference for Bell and Everett as being the only national ticket before the people.

It is said that the recent circular of the Douglas National Executive Committee, in opposition to a union with the Breckinridge faction, was agreed on after a full conference with Judge Douglass, and his friends. The N. Y. Dispatch says that two of the Japanese ambassadors are members of the Masonic order, and that Masonry exists to a considerable extent in the Japanese empire.

It is reported from Washington that immense sums of money are spent in telegraphing to the different States for information in regard to office-holders who manifest any sympathy for the Douglas cause.

New Breckinridge papers are about being started at St. Paul, Min., and new dailies of the same stamp at Milwaukee and Cincinnati. A negro woman on the plantation of a gentleman near Columbus, Ga., has in the last twenty months given birth to five full-sized and healthy children—two at one, and three at another birth—all alive and doing well.

Macready, the actor, now in his sixty-eighth year, has just married a Miss Cecilia L. F. Spencer, who is only in her twenty-third year.

Mrs. Julia B. Lewis, of Mobile, died last week, her death having been produced by a decayed tooth getting into her windpipe, five and a half months ago, through the carelessness of the dentist. The ever-lasting Burdell case is up again in the New York Courts. The heirs are now quarrelling among themselves as to the division of the murdered dentist's property.

Harry Copland, a well known actor of New Orleans, was accidentally shot in the leg, last week, and as gangrene had set in, it was necessary to amputate it to save his life.

L. J. Levy & Co., the largest retail dry goods house in Philadelphia, who suspended in '57, a few weeks since paid \$50,000—the last instalment on their extended paper. The whole amount of their indebtedness was over 2 million of dollars.

A Texas paper says of General Sam Houston that he looks in feeble health and the wreck of what was but a few years ago vigor and strength. He now goes upon a crutch, because of lameness in one of his ankles—the effect of a wound received at San Jacinto.

When the tornado struck Camanche, Ia., four men were engaged in playing cards in one of the buildings totally destroyed. All four men were killed with the cards in their hands. What became of the stakes is not stated.

Postmaster Fowler seems to be ubiquitous. Now at Pike's Peak, anon at Washoe, and again reported at Havana. His locality seems as difficult to fix as that of the Flying Dutchman. At last accounts he is said to be studying Spanish in the interior of Cuba. He was always a man of letters.

The muster-roll of the citizen soldiers who served in the defence of the city of New Orleans in 1815, shows that there are only 42 of them now living, viz:—1 commissioned officer, 6 non-commissioned officers, 3 musicians, 32 privates—total 42.

The Lafayette (Ind.) Journal says the sheriff of that county recently took a young fellow to the lunatic asylum from that place, who is remarkably handsome, and whose insanity is believed to have been produced by a morbid development of his self-conceit.

The Niagara Herald says the rumor prevails that Blondin seriously contemplates diving from the centre of his cable in a life-boat made for the special purpose, into the roaring flood-tides and foam-wreathed rapids of the river below! He is to undertake this dangerous experiment, not only from a desire of demonstrating whether such a thing as navigating the rapids is possible, but from the mere love of unheard of adventure.

A girl aged 14 years, of Bohemian parents, living in the town of Kossuth, Wis., had become displeased with the hard work she was subjected to on the farm, and had often requested of her parents to grant her more liberty and had as often been refused, and she became depressed in spirits; she left the house, and was not heard from for a week, when she was discovered by some neighbors suspended by a rope from a limb of tree, a corpse.

MILITARY ENCAMPMENT.—A military encampment will be held in York, commencing on the 3d and ending on the 6th of September next. It will be termed "Camp Patterson." The following is the proclamation: ADJUTANT GENERAL'S OFFICE, Harrisburg, June 22, 1860. General Encampment. To the Uniformed Volunteers of Pennsylvania.

At the solicitation of large numbers of our volunteers in the eastern part of the State, and as, after consultation and deliberation with many general officers, it is deemed for the interests of the uniformed militia of the State that a general encampment for instruction, drill and discipline ought to be held, this year, at some point in the Commonwealth, and the military of York county having signified their desire of having said encampment in their brigade, and inasmuch as that point is easy of access from all directions by railroad, and the people of said county having generously offered and distinctly agreed to pay all the general and incidental expenses of whatever kind, attending said encampment.

I, therefore, designate the town of York as a suitable place for the holding of said encampment, and earnestly urge upon all volunteer companies which can conveniently do so, to give their attendance at the same. The said encampment will be known as "CAMP PATTERSON" and will be held at York, in the first brigade, fourth division, commencing on Monday, the 3d day of September, A. D. 1860, and ending on Saturday, the 8th day of the same month.

Major General William H. Keim, of the 5th division, comprising the counties of Berks, Lebanon and Dauphin, will be the commanding officer of said encampment. EDWIN C. WILSON, Adjutant General.

THE USE OF RIPE FRUIT.—Instead of standing in any fear of a generous consumption of ripe fruits, we regard them as positively conducive to health. The very maladies commonly assumed to have their origin in a free use of apples, peaches, cherries, melons and wild berries, have been quite as prevalent, if not equally destructive, in seasons of scarcity. There are so many erroneous notions entertained of the bad effects of fruit, that it is quite time that a counteracting impression should be promulgated, having its foundation in common sense, and based upon the common observation of the intelligent. We have no patience in reading rules to be observed in this particular department of physical comfort. No one, we imagine, ever lived longer, or freer from the paroxysms of disease, by discarding the delicious fruits of the land in which he finds a home. On the contrary, they are necessary to the preservation of health, and are therefore caused to make their appearance at the very time when the condition of the body, operated upon by deteriorating causes not always understood, require their renovating influences.

QUITE TALL.—The tallest man in France has just expired near Roien, at the age of 71, being M. Charles Gruel d'Indreville of Nesle, Normandy, who founded, and for many years carried on some extensive glass works at that place. His stature was nearly 7 feet 6 inches English, and his body was stout in proportion. In early life he entered the Imperial army as a private soldier, but soon gained the rank of sub-lieutenant. He was present in the battles of Wagram and Moscow. At one time he was a prisoner of war, and having fallen ill, was sent to the hospital of Konigsburg. This hospital was sacked by the Russians, and M. Gruel was thrown out into the street, and he passed a whole night in the snow with scarcely any covering. He however, recovered and returned to France.

FOOLHARDY.—A young man at the West, for a trifling wager, coiled himself between the ties of a railroad track, and allowed the train to pass over him. He escaped with a trifling burn from a coal which dropped from the locomotive. The tender passed over him tenderly, and even the cow-catcher would not condescend to catch a calf.

WORTH TRYING.—It is stated in a late foreign paper that bathing has been found to be a certain cure for pleuropneumonia, and that a gentleman in Ireland, who tried the experiment on eight cattle who were infected, saved seven of them by driving them into a bath. The cure is being performed in this manner in different parts of Ireland. It is to be tried in Connecticut.

MAN KILLED.—A boatman named Leathers was killed near Liberty, Clinton county, recently. He was going up with an empty boat, and was lying on the deck, when as the boat was passing under a bridge the tiller struck one of the timbers and it fell, striking the unfortunate man as he lay and killing him instantly.

SENSITIVE.—A Mrs. Samuel Scrippize, of Milford, Mass., drowned herself, on hearing that her husband had been detected in robbing a money drawer, in the railroad depot. The man fled, but will probably be... THE BARON RENFREW we hope will be treated like a gentleman. The Springfield (Mass.) Republican observes of the Baron: no public demonstration can be made in his honor without a breach of the courtesies of private life, and the shameful stultification of those who engage in it. We are a people who do not believe in kings, but if any embryo king desires to see our country, let him see it; and above all let him find in it a people who have self respect enough to mind their own business and to allow him to attend to his.

The city of Harrisburg, according to the United States census just taken, has 14,862 inhabitants. The Patriot says this is an increase of 6,866.

We are authorized to announce that PETER MARTIN will be a candidate for the office of Prothonotary, before the People's County Convention.

We are authorized to announce that JOHN A. HIRSTAND of Lancaster city, will be a candidate before the People's County Convention for State Senator.
