THE LANCASTER MASS MEETING: The meeting on the 19th instant, says the Lancaster Examiner, promises to be, should the day be fine, one of the largest ever held in Lancaster. There will be delegations from all the principal towns within one hundred miles of Lancaster. Philadelphia will send several thousand great preparations are being made there. York, Harrisburg, Lebanon, Reading, and the smaller neighboring towns will be out in full force.

THE WIDE AWAKE PARADE in the evening will be a magnificent affair, and will be participated in by all the Wide Awake Clubs in the county and from abroad. From the preparations making in the different districts in the county, a fine day will witness such a display of the Spies of the Old Guard as will stir the blood of the Veterans of 1840 and '44.

The speakers announced embrace the best talent in the Republican ranks. The following among others will positively be present: Col. Andrew G. CURTIN. CARL SCHURZ, of Wisconsin. CALVIN A. GROW, of Bradford. MARSHALL MCMICHAEL, of Philadelphia. Thomas Corwin, John Sherman, John Hickman, and others, are confidently expected, and will be here if it is possible for the State Committee to secure their presence. Nothing, but previous positive engagements, will keep them away. It remains but for us to give them a reception worthy of the cause and our candidates.

INDEPENDENT TICKET AGAIN: The "second edition" of the caucus or "Independent" ticket, was issued "fresh from the press" on Monday, and for the present stands as follows: State Senators—Solomon Diller, Earl twp.; O. J. Hunsecker, Manheim. Assembly—Samuel A. Worth, Coleraine; D. H. Leach, Leacock; Samuel Lindsay, Marietta; John C. Walton, City.

Several days since a conductor on the Memphis and Little Rock Railroad, forcibly ejected an Irishman who refused to leave the cars, and shortly afterward the man was found near the track with his neck broken and quite dead. Should the conductor be hanged for murder?

Gov. Moore, of Alabama has given a new direction to gallantry, and manifested his deference to the female sex in a novel way. It is reported that, finding the penitentiary at Wetumpka too full, he has discharged the female convicts to make room for the males.

Massachusetts has had twenty governors since the adoption of the State Constitution; eight of whom are still living, viz: Messrs. Lincoln, Everett Briggs, Boutwell, Clifford, Washburn, Gardener and Banks.

Complete census returns show that the present population of Detroit, Mich., numbers 46,834. Those who fancied that the figures would be 75,000 are much disappointed.

A company has recently struck a small lead of oil, near Cuba, Allegheny county, New York, which yields two barrels of pure oil per day. They intend to bore deeper.

Horrible Funeral Pyre.—Accounts from Africa state that the King of Dahomey is about to make an immense sacrifice of human life to the memory of his late father. A great pit has been dug, and in this pit two thousand persons will be sacrificed. He has sent out an expedition to capture prisoners, the younger portion of whom will be sold on the coast to slavers, while the old will be thrown in.

A WELL DESERVED COMPLIMENT.—We copy the following well-deserved compliment to our townsman, says the Harrisburg Telegraph, Lieutenant Alexander N. Shipley, from the York Press. Lieut. S. is well known in this city, and the compliment here bestowed is only an honor to him as a soldier and a gentleman:

We had the pleasure of meeting our old friend, Lieut. Alexander N. Shipley, 3d Infantry, U. S. Army, who acted as Adjutant of the battalion during the Encampment. We know the gallant Lieut. and we must say that we have seldom met with a gentleman more worthy of esteem, or with one better qualified to perform the duties of the capacity in which he acted during the past week, and we would be willing in any emergency of a warlike character, however trying, to trust our fate to the discretion and the military knowledge and discipline of Lieut. Shipley. As an officer and soldier, he has seen years of active service upon the frontiers of Texas and upon the plains of Utah and New Mexico. With us, and among the troops present at the Encampment, there was but one opinion in regard to the military ability and qualifications of this gallant and courteous officer, and none who witnessed the drills and parades during the week, can fail to remember the soldier-like bearing and the military skill and precision with which he performed his duties. With both the soldiers and the citizens he was decidedly a favorite. We understand that Lieut. Shipley, is soon to join his regiment stationed upon the wild frontier of our western country. He has, as a parting salutation, our best wishes for the future and a safe return to his friends and family.

A "RESPECTABLE FAMILY." The family of Caleb and Ellice Benedict, of Fairfield county, Conn., consists of 15 children, 94 grandchildren, and 26 great-grandchildren—in all 135 persons, 119 of whom are living. The combined ages of Mrs. Benedict and her 14 children, who are still living, is 797 years. Mrs. Benedict is 77 yrs. of age, enjoys the best of health, is likely to live a number of years, and to see the fifth generation, as her oldest great-grandchild is now a girl of 16 years old.

An amateur wire-walker, named Theodore Price, on the 4th instant, performed the ordinary feats of Blondin (wheelbarrow, cooking, and man on his back excepted) with success, on a wire rope stretched diagonally across one of the streets of Indianapolis, a distance of two hundred feet, and at a height of fifty feet.

Hon. John Young Brown, the young member of Congress from Kentucky, was married, on the 3d inst., to Miss Rebecca, daughter of Hon. Archibald Dixon, ex-Governor, ex-United States Senator of Kentucky. The young lady is heiress to wealth, and is said to be beautiful and accomplished.

Sir James Clark, physician to Queen Victoria, in a letter to Dr. Jackson, of Boston, dated May 26th, 1860, says: "As a physician advances in age, he generally, I think, places less confidence in the ordinary medical treatment than he did, not only during his early, but even in his middle period of life."

Inspired, we presume, by the reported resuscitation of Hicks, the pirate, "Mountain Farmer" writes to the Greenfield Courier expressing doubt that Andre was ever executed. The soldier who guarded him on the night when he was to have been hung has told a friend of "Mountain Farmer" in his early days that he was hung with an "iron life preserver" about his neck.

The Philadelphia Press says, the present colored population of the city is from twenty to twenty-five thousand.—They own property to the amount of nearly three millions of dollars, and have churches and schools valued at four hundred thousand to five hundred thousand dollars.

Several days since a conductor on the Memphis and Little Rock Railroad, forcibly ejected an Irishman who refused to leave the cars, and shortly afterward the man was found near the track with his neck broken and quite dead. Should the conductor be hanged for murder?

Gov. Moore, of Alabama has given a new direction to gallantry, and manifested his deference to the female sex in a novel way. It is reported that, finding the penitentiary at Wetumpka too full, he has discharged the female convicts to make room for the males.

Massachusetts has had twenty governors since the adoption of the State Constitution; eight of whom are still living, viz: Messrs. Lincoln, Everett Briggs, Boutwell, Clifford, Washburn, Gardener and Banks.

Complete census returns show that the present population of Detroit, Mich., numbers 46,834. Those who fancied that the figures would be 75,000 are much disappointed.

A company has recently struck a small lead of oil, near Cuba, Allegheny county, New York, which yields two barrels of pure oil per day. They intend to bore deeper.

This startling announcement appears in the New York Times. "Gen. Lane, the Breckinridge candidate for Vice President, who has been stopping in this city for several days past, leaves for Washington, whence he will proceed immediately to Indiana, and commence stumping the State. He intends to follow up Douglas from the time he emerges from the slave States, and out-stump him wherever he goes, while his colleague, Breckinridge, is to take the stump South, and endeavor to repair the mischief done by the Little Giant in that region."

To which Forney adds: We recommend the General to the kind consideration of the Indiana schoolmasters. He will do more damage to grammar than Democracy.

In going through Baltimore in taking the census some of the marshals found numbers of old persons who have lived far beyond the term allotted to man. In Stockton alley, near Baltimore street, Mr. Andrew C. Gregg found in one house three colored women, the youngest of whom was ninety years of age. The oldest is Mary Johnson, who stated she was one hundred and five years old; the next Mary Jennings, who is one hundred, and last, Letitia Martin, ninety years old. Immediately on the opposite side of the alley is one who stated her age to be one hundred and eight years. The eldest of these was twenty-eight years of age when the independence of the Colonies was declared.

Young America will read this from Wilkes' Spirit of the Times with great interest: "A great number of inquiries, which come from all parts of the country, are continually made of us for our opinions as to whether Heenan and Morrissey are likely to fight again. All we have to say in answer is, that as both men are brave, able, and well, and that, as there still exists an irrepressible conflict between them and their friends, the likelihood is that they will 'come together' again.—When that will be no one can say.—Heenan is still engaged in his sparring tour. Morrissey is now in this city."

At a late meeting of the stockholders of the Harrisburg & Lancaster Railroad Company, the following persons were elected directors of said road for the ensuing year: Michael V. Baker, William Ford, Algernon S. Roberts, John Holmes, M. D., James Magee, Robert V. Massey, William W. Longstreth, James Mehaffey, (Marietta), John H. Towne, Joshua B. Lippincott, James Young, (Middletown), Edward F. Gay, Thomas Spidlet.

The great difficulty of getting horses from a stable, where surrounding buildings are in a state of conflagration, is well known. Wilkes' Spirit of the Times says a gentleman whose horses had been in great peril from such a cause, having in vain tried to save them, hit upon the experiment of having them harnessed, when, to his astonishment they were led from the stable without difficulty.

Wm. E. Dodge, Esq., of New York, one of the most esteemed and honorable merchants of that city, of the well known house of Phelps, Dodge & Co., and who was one of the Vice Presidents at the Bell-Everett Ratification Meeting held, in New York on the 8th of June last, repudiates the Syracuse juggle, and has declared for Lincoln and Hamlin.

Mr. Jeremiah Hann, for a great many years one of the proprietors of the Bridgeton and Philadelphia mail stage line, met with a serious if not fatal accident, on Wednesday. When about leaving Pittstown, he dropped one of the lines, and reaching over to pick it up, fell out of the stage, and was run over, the wheel passing across his breast.—The stage had in it eight passengers at the time.

A Pennsylvania acrobat has made to the citizens of Cleveland, Ohio, a series of handsome offers. He will go up in his balloon alone for \$200; with a horse and buggy for \$400; with two horses and a lady on one of them for \$500. He will descend from a height of one mile by a parachute, or will send a lady in his place for \$500.

A correspondent of the Troy Arena says that among the visitors at Saratoga Springs is a runaway nun. Sick and tired of confined life, she ran away from the cloister, and is now here with her friends, recuperating her health—a contrast which must be sensibly felt. Her face is really beautiful, and she attracts no little attention by her modest, unassuming behavior.

Mr. Breckinridge in imitation of Douglas, has signified his intention to stump the country, "in order," as is said, "to arouse it to a sense of danger of Lincoln's election."

Of the one hundred and seventy-three deaths that occurred in St. Louis last week, one hundred and twenty-five were those of children under five years of age.

Millard P. Fillmore, son of ex-President Fillmore, is president of the Buffalo Bell and Everett National Union Club.

CLIPPINGS FROM OUR EXCHANGES.

Hon. S. S. Cox, of Ohio, has received his death-blow from the Bulletin, of Columbus, O., which states that he was the author of the Washington correspondence of the Ohio Statesman which told how "the youthful orator" demolished Sherman and Corwin.

The Moravians of Bethlehem, Pennsylvania, intend to vote during the next election for Lincoln and Hamlin. In 1856 the borough brought in a majority for Buchanan, but this year it is expected that its polls will record as complete a Republican triumph as they formerly did for the Whigs.

Seven miles within the hour has been about the greatest speed in walking, but a Mr. Hall, in a match with Mountjoy, the pedestrian, accomplished the following: One mile in seven minutes thirteen seconds; two miles, fifteen minutes twenty seconds; and four miles in thirty-two minutes exactly. This latter is the highest point of speed on record.

The Home Journal publishes a rumor that Estelle Anna Lewis, the author of "Records of the Heart" and the foreign correspondent of the Journal, is soon to be married to a celebrated Parisian Count. A reference to the New American Cyclopaedia shows that the lady referred to was born "about" the year 1825.

The contestants in the Broderick will case were asking permission to send a commission to New York to examine J. C. McKibbin, John B. Haskin, John W. Forney, and others, in order to sustain their allegations relative to the forged testament. There is no other news of importance.

The New York correspondence of the Boston Journal says that "the really finest mansions in all this region, and one well suited to a Prince, is that on Washington Heights, owned and occupied by James Gordon Bennett."

A Universalist writes to the Christian Freeman: If my orthodox brethren will send me \$10,000, to pay the expenses of a trip to Japan, I will engage to introduce Christianity into that empire, or return the money at the end of three years with compound interest.

Kansas is said to be suffering greatly for the necessities of life. The crop is estimated at less than the wants of the inhabitants, and a plan is on foot for Eastern assistance, to enable the people to live through the coming winter.

W. Railey notified J. Hooks in Twigg county, Georgia, that he would whip him "on sight," and accordingly attacked him a few days ago; whereupon Hooks shot him dead. Hooks was examined, and discharged on the ground that he acted in self defence.

A Boston jeweller, a short time since, borrowed money of all his most intimate friends, and as a token of gratitude for their kindness, took their watches for gratuitous cleaning and repair, and then ran off with both their time and money.

An Illinois paper states that the peach crop in the lower sections of that State is so heavy that a district twenty miles long by five to seven miles wide, will this year yield not less than a million bushels. Some of them will be distilled.

The Williamsport Press says "that there is on foot a prospect to erect a new county, out of Lycoming, to be called Crane County, and the county seat of which is to be Jersey Shore."

The birth-day of the Duchess of Kent, the Queen's mother, was celebrated August 17, with the usual honors. The Duchess is 74 years old.

Two unsuccessful attempts to kidnap colored men have been made at Chicago recently.

Francis Joseph, Emperor of Austria, has just completed his 30th year.

INDEPENDENCE OF HUNGARY.—A letter from Paris says: Kossuth's prolonged stay in Paris has not been without meaning. The certain grant of a liberal constitution and a separate government to Hungary has been the talk of the Bourse recently. A deeply-laid and most extensive conspiracy, beginning in the old palace of Buda, has just been discovered, and was to have burst on the occasion of St. Stephen's Hungarian celebration, towards the close of August. The Emperor of Austria, acting under the advice of the Regent of Prussia, has made known his intention of according Hungarian independence on the 18th, his natal day. This wise conduct will not only save fire, bullet, rope and sword, but Hungary itself (for a little while longer) to the Hapsburgs.

TAPLING WITH FIREARMS.—At Jacksonville, Fla., on the evening of the 22d ult., G. Parrett, while sitting with his wife at the tea table, was handling a loaded pistol, when it went off, the ball passing through her throat, causing her death in a short time.

HOLLOWAY'S PILLS AND OINTMENT.—Health and Beauty—how to secure them.—Female Irregularities.—Beauty is as indispensable to the happiness of woman as is health to her existence the loss of charms being regarded as a greater affliction than death itself. Holloway's Pills and Ointment have done more towards preserving it and relieving the various disorders incidental to the sex than all other advertised medicines united. Thousands of lovely females have had their constitutions ruined and beauty blighted by drastic agents, pernicious stimulants and poisonous lotions. The mild, soothing, and restorative influence of Holloway's great internal and external remedies in all complaints of woman are now generally admitted whether in the Spring time of womanhood or in the Autumn or turn of life.

AGE & DEBILITY.—As old age comes creeping on, it brings with it many attendant infirmities. Loss of appetite and weakness impair the health, and want of activity makes the mind discontented and unhappy; in cases where old age adds its influence, it is almost impossible to add vigor and health, and although many remedies have been tried, all have failed, until *Barbère's Holland Bitters* were known and used. In every case where they have been employed, they have invariably given strength and restored the appetite. They have become an agent for this purpose, and are used by many people who are suffering from loss of appetite and general debility. In cases of long standing chronic diseases, they act as a charm, invigorating the system, thus giving nature another opportunity to repair physical injuries. See advertisement in another column.

Mark These Facts!

The Testimony of the whole World!

Holloway's Ointment.

Bad Legs, Bad Breasts, Sores and Ulcers. All description of sores are remediable by the proper and diligent use of this inestimable preparation. To attempt to cure bad legs by plastering the edges of the wound together is a folly; for should the skin under a boggy disease condition remains underneath to break out with tenfold fury in a few days.—The only rational and successful treatment, as indicated by nature, is to reduce the inflammation in and about the wound and to soothe the neighboring parts by rubbing in plenty of the Ointment as salt is forced into meat.

Diphtheria, Ulcerated Sore Throat, and Scarlet and other Fevers. Any of the above diseases may be cured by well rubbing the Ointment three times a day into the chest, throat and neck; the patient; it will soon penetrate, and give immediate relief. Medicine taken by the mouth must operate upon the whole system ere its influence can be felt in any local part, whereas the Ointment will do its work at once. Whenever the unguent in the above manner for the diseases named, or any similar disorders affecting the chest and throat, will find themselves relieved as by a charm.

Piles, Fistulas, Strictures. The above class of complaints will be removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in the Ointment. These sufferings from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the Ointment on the affected parts, but it must be well rubbed in for some considerable time two or three times a day, that it may be taken into the system, whence it will remove any hidden sore or wound as effectually as though palpable to the eye. There again bread and water poultices, after the rubbing in of the Ointment, will do great service. This is the only sure treatment for female cases of cancer in the stomach, or where there may be a general bearing down.

Indications of Youth; Sores and Ulcers. Blisters, as also swellings, can, with certainty, be radically cured if the Ointment be used freely, and the Pills be taken night and morning as recommended in the printed instructions. When treated in any other way they only dry up one place to break out in another; whereas this Ointment will remove the humor from the system, and leave the patient a vigorous and healthy being. It will require time with the use of the Pills to ensure a lasting cure.

Dropsical Swellings, Paralysis and Stiff Joints. Although the above complaints differ widely in their origin and nature, yet they all require local treatment. Many of the worst cases of such diseases, will yield in a comparatively short space of time when this Ointment is diligently rubbed into the parts affected, even after every other means have failed. In all serious maladies the Pills should be taken according to the printed directions accompanying each box.

Both the Ointment and Pills should be used in the following cases: Bad Legs, Chilblains, Gout, Burns, Chapped Hands, Glandular Corns (Soft), Swellings, Blisters, Contracted and Limped Feet, Sore Throat, Stiff Joints, Rheumatism, Cancers, Lumbago, Ulcers, Hemorrhoids, Sand-Flies, Stiff Joints, Rheumatism, Coco bay, Elephantiasis, Scalds, Skin Diseases, Scurvy, Sore Nipples, Tumors, Ulcers, Sore throats, Wounds, Yaws, Sore-heads.
