"Our Carrier" desires us to say that he will present his compliments on "New Year's Day," to our Borough subscribers. He is a faithful, deserving boy and we hope to hear of his success in a | the Pioneer Engine, for they could not pecuniary way.

There will be a protracted meeting in Rev. Martin Peck's church, commencing on Saturday evening, January 5th. Revs. Bridox and Swartz are expected to be present and participate.

Rev. Dr. Timlow will lecture before the Marietta Literary Society, in the High School room on Monday even. ing next. Subject: "Every day wonders."

Lewis P. Brady, of Mountjoy, has procured Letters Patent for an improved Self Raker for reaping machines; and Jacob R. Byler for a Raking attachment to Reapers and Mowers.

The Board of Directors of the Poor on Monday, elected Mr. Samuel Spielman, of the borough of Strasburg, Steward of the Poor and House of Employment.

Rev. P. J. Timiow will preach a sermon to the children, in the Presbyterian church on Sunday morning (to-morrow) at ten o'clock.

The Poultry thieves are still at work in our neighborhood. Mr. Shultz's premises, adjoining town, was relieved of four turkeys; and Mr. Fulks, butcher, on Market street, had a fine turkey, already cleaned, stuffed, &c., just in readiness to place in the stove, stolen.

The meeting of the Marietta Literary Society on Monday evening last, was of a truly interesting character. Dr. Grove explained how Climate affects the character of a people, deducing well digested argument-showing that the Temperate Zones are best adapted to physi cal and intellectual developement, and that extremes of heat and cold are detrimental to the vigorous growth of mind or body. The subject was discussed by Messrs. Spangler, Geist, Allen, Sawyer and others. "Ought there be a property qualification for suffrage" was then discussed. Capt. J. J. Libhart occupied the chair, and decided in favor of the Negative. The committee on Lectures announced Dr. Timlow as lecturer for Monday evening next. Subject-Every Day Wonders The public is respectfully invited to attend. REPORTER.

On Monday night, between 11 and 12 o'clock, the large barn belonging to Mr. Detweiler, on the Columbia turnpike, a quarter of a mile west of Mountville, was turned to the ground, and seven cows, seven head of fat cattle, two calves, two hundred bushels of wheat, and a large quantity of hay and straw was consumed in the flames. Four horses, two steers and two wagons, was all that could be rescued. The barn of Mr. Friday, about a hundred yards off, also caught fire from the falling sparks, but the timely arrival of neighbors prevented the flames from getting any headway.-The fire is supposed to have been the work of an incendiary. Mr. Detweiler's loss is heavy, but there is an insurance on the barn and stock to the amount of last Donegal township.

PIONEER FIRE Co. HALL,

Saturday Evening, Dec. 22, 1860. On motion, Resolved, that the minutes on record in regard to the late Fire be published in "The Mariettian."

Sabbath Evening, Dec. 16, 1860. The alarm of fire was given about 8 o'clock, P. M. when the Company repaired to the Engine House and proceeded with the apparatus to the scene, which proved to be the House on the lower ead of Wm. Singer's lot and occupied by John W. Walker. The building was burnt to the ground and four children perished in the flames. The Companies succeeded in saving the adjacent properties with but little damage to the properties. The fire is supposed to have originated from placing wood upon the stove to dry for kindling next morning, and the parents going to church, leaving the children in bed. The citizens generally lent but little aid to the Firemen; some few acted nobly; the Company returned the Engine, &c., to the house, when the roll was called and absentees WM. CHILD, JR., Sec'y.

Two convicts made their escape from the county prison on Sunday last One of them a german named Swartz; the other a mulatto named John Shultz. Both were clad in the striped "Unifom" of the prison. A reward of \$50 is offered for their apprehension.

Dr. Swentzel will be in town on Wednesday, January 2nd, to remain only a few days.

MR. EDITOR:—In the communication I IST OF LETTERS remaining in the post in regard to the late fire, much fault is December 30, 1860. Persons inquiring for letters at the late of the late attached to some of the officers of the ters will please mention they are advertised. Pioneer Fire Co. for not performing Allen James their duty; now the company numbers 58 members within bounds of the Stewards and on the night of the fire 49 answered to their names when the roll was called. The officers are a President and five Directors who have a duty to perform in case of fire; the duties of the Directors are allotted as follows: Hoseman, Ladderman, Axman, Hookman and Rankman. On the night of the fire every director performed his duty as allotted, but the Rankman, who was indisposed and unable to attend to his duty. The director of Hooks carried one of the large fire-hooks alone to the fire and the President used every possible exertion to Grub C. B. induce the citizens to furnish water for use their suction. He called upon the Chief Burgess and others to assist in forming a line to supply the engine with water. I would ask what more could be done with 49 men than was done? What

saved the adjoining frame stables, tobacco sheds, &c., when in flames but the Hose of the P. F. Co. with their exertions, and some few citizens who rendered all the aid in their power; the flames could not have been reached without the hose. There were two females who took their places in the rank and assisted in supplying the Pioneer with water who really deserve a special notice, Mrs. Philip Ropp and a german woman who resides in Mr. Bailie's house. However, there is always some censure upon the Fire Co. after a fire; that they do not perform their duty as fireman, as though 50 firemen could work the engine, take charge of the Hooks, Ladders Axes &c.; form a line a square or two in length, if required, (when water can not be had an additional inducement to persons who desir with the suction) -all without the aid of to keep themselves posted up in the political with the suction)—all without the aid of the citizens; yet in every instance of a fire they have been enabled, with the assistance of a few noble hearted citizens, to allay the flames with as little damage as would have been done in larger places, where they have fire plugs and plenty of the citizens posted up in the political and general news of the day, and the doings of the State Legislature. Full and accurate reports of the proceedings and debates of the Legislature will be given, (special reporters having been employed for the purpose at great expense.) in connection with the doings of Congress, which will be of unusual interest the coming winter.

A large amount of Miscellaneous and Literary reading will also be given in the columns water. All the Pioneer and the other fire company would ask at a fire, is, for the citizens to aid them in supplying them with plenty of water for the engines and occasionally relieve those working the engine, and we are certain the "Pioneer" will accomplish as much as any other company of her number .-

A FIREMAN. Prof. James E. Giffin, President and proprietor of the Coatesville Academy, was arrested last week on a charge of procuring money by false representations. The money alleged to have been fraudulently obtained was drawn at the Inland Deposit Company, and of Reed, Henderson & Co. Mr. Giffin denies the charge of false pretences and says the hole was a fair business transaction .-As the case will probably come up at the January Sessions we forbear any comment upon it.

I would ask where was the committee of

Chief Burgess to take charge at the time

of Fire. Echo answers "where," or has

THE DAILY TELEGRAPH.

The Daily Telegraph was established in 1856, and has now been over four years in existence. Many of our friends considered the establishment of a daily Republican newspaper at the Capital of the State as a hazardous undertakcapital of the state as a nazardous undertak-ing, but we have succeeded, after expending a large sum of money, in placing the same on a permanent basis, and the public may rely on its prompt and regular publication.

LEGISLATIVE REPORTS. The Telegraph is the only establishment that employs a corps of regular stenographic reporters during the session of the Legislature, and those desiring correct reports of the proceedings of the Legislature can look in the Telegraph for them.

TELEGRAPHIC DISPATCHES.
The Telegraph is the only paper in the city of Harrisburg that receives the regular Associated Press reports by Telegraph. The dispatches appear therefore much earlier than they arrive here in the Philadelphia and New York morning papers. Full Congressional Reports will appear daily, together with all the latest foreign and Domestic News.

TERMS OF THE DAILY. The Daily will be furnished during the Session of the Legislature for \$1. Yearly subscribers who receive their papers by mail will be charged \$4, payable in advance. Address GEO. BERGNER, & CO.

readily.

The great celebrity and the increasing demand for this unequalled preparation, convince the proprietor that one trial is only necessary to satisfy a discerning public of its superior qualities over another preparation at present in use. It cleanses the head and scalp from dandruff and other cutaneous diseases. Causes the hear to grow hyperiantly, and gives it a rich ruff and other cutaneous diseases. Causes the hair to grow luxuriantly, and gives it a rich, soft, glossy and flexible appearance, and also where the hair is loosening and thinning, it will give strength and vigor to the foots, and restore the growth to those parts which have become bald, causing it to yield a fresh covering of hair. There are hundreds of ladies and gentlemen in New York who have had their hair restored by the use of this Invigorator, when all other preparations had failed. L. HOLLOWAY'S OINTMENT. Bad Legs, Bad Breasts, Sores and Ulcers.

All description of sores are remediable by the proper and diligent use of this inestimable preparation. To attempt to cure bad legs by plastering the edges of the wound together is a folly; for should the skin unite, a boggy discased condition remains underneath to break out with tenfold fury in a few days. The only rational and successful freatment, as indicated by nature, is to reduce the inflammation in and about the wound and to soothe the neighboring parts by rubbing in plenty of the Cintinent as salt is forced into meat.

Diptheria, Ulcerated Sore Throat, and Scarlet and other Fevers.

Any of the above diseases may be cured by well rubbing the Ointment three times a day into the chest, throat and neck of the patient; into the enest, throat and neck of the patient; it will scon penetrate, and give immediate relief. Medicine taken by the mouth must operate upon the whole system ere its influence can be felt in any local part, whereas the Ointment will do its work at once. Whoever tries the unguent in the above manner for the discusses paned, or any similar disorders affecting eases named, or any similar disorders affecting at, will find themselves relieved as by a charm.

Piles, Fistulas, Strictures. The above class of complaints will be removed by nightly fomenting the parts with warm water, and then by most effectually subbing in water, and then by most electually dubulg in the Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be under-stood that it is not sufficient merely to smear the Ointment on the affected parts, but it must be well rubbed in for some considerable time type of these times a fay, that it may be taken we well runows in for some considerable time two of three times a day, that it may be taken into the system, whence it will remove any hidden sore or wound as effectually as though palpable to the eye. There again bread and water poultices, after the rubbing in of the Ointment, will do great service. This is the only sure treatment for female cases of cancer in the stometh, or where there may be a conin the stomach, or where there may be a gen-

eral bearing down. Indiscretions of Youth; Sores and Ulcers. Blotches, as also swellings, can, with certainty, be radically cured if the Ointment be used freely, and the Pills be taken night and morning as recommended in the printed in-structions. When treated in any other way structions. When treated in any other way they only dry up in one place to break out in another; whereas this Ointment will remove the humour from the system, and leave the pattent a vigorous and healthy being. It will require time with the use of the Palls to ensure a lasting cure.
