THE LAST OF THE LANCASTER BANK :-On Friday the remaining assets of the Lancaster Bank were sold at public sale in this city. They consisted of various notes judgments and stocks-amounting to about \$240,000, without the accrued interest, and on which only about \$30, 000 was realized. In addition to these some property belonging to the Bank, in Philadelphia, sold for \$14,000, increasing the amount to \$44,000. As these assets were paid for in the notes of the defunct bank, the result of the sale is merely the redemption of \$44,000 werth of its outstanding circulation .-The notes of the bank still outstanding are worthless, as this sale disposed of the last of the assets of this broken institution. - Lancaster Express.

Another says he obtained an extra yield of 11 bushels of com per acre on a 15-acre field, and with no extra cost for culture, by applying one hint from the Agriculturist. Another, (a villager,) says he got \$431 worth extra of good garden vegetables, which he attributes wholly to the timely hints in the Agriculturist, which told him from time to time what to do, how to do it, and when to do it,-Thousands of others have derived similar advantages. You are invited to try the paper a year, at a cost of only \$1. If you desire, you can have, free of charge, four or five parcels of choice seeds, which the Publisher will distribute among his subscribers the present winter.

I tried one bottle, and found to my great satisfaction that it was producing the desired effect. Since that time, I have used seven dollars? worth of your Restorative, and as a result, have a rich coat of very soft black hair, which no money can buy. As a mark of my gratitude for your labor and skill in the production of so wonderful an article, I have recommended its use to many of my friends and acquaintances, who, I am hapmy friends and acquaintances, who, I am happy to inform you, are using it with like effect.

Chalybeate Restorative Pills of Iron.

DR. MOTT'S

A N aperient and Stomachic preparation of Iron purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their

actice. The experience of thousands daily proves

that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions, indicate its necessity in almost

complexions, indicate its necessity in almost every conceivable case.

Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In Pebility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhea, Dysentery, Incipient Consumption, Scrofulous Tuburculosis, Salt Rheum, Mismenstruation, Chlorosis,

Whites, Live Complaints,

Chronic Headaches,

Rheumatism, In-Rheumatism, Intermittent Fc-vers, Pim-ples on the

face, &c.

In cases of General Devility, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would renddescription nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female Sufferers, emaciated victims of apparent marasmus, sance appeared of the supplementary critical charges, and guineous exhaustion, critical changes, and that complication of nervous and dyspepti-aversion to air and exercise for which the phy-

sician has no name.

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigo-rously tonic, without being exciting and over-heating; and gently, regularly aperient, even in the most obstinate cases of costiveness without ever being a gastric purgative, or inflicting

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

also appears to exert a distinct and specing action, by dispersing the local tendency which forms them.

In Dispersia, in numerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendent Costiveness.

In unchecked Diarrhæa, even when advanced to Dysentary, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remitten, hectic, which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Scrafulous Tuberculosis, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well known liabitities.

The attention of females cannot be too con-fidently invited to this remedy and restorative, in the cases peculiarly affecting them.
In Rheumatism, both chronic and inflamma In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.
