rotunda. Mr. Cowan was finally declared nominated by a unanimous vote. The caucus then proceeded to nominate a candidate for State Treasurer, to be elected on Monday next, when Hon. Henry D. Moore, of Philadelphia, was placed in nomination by a unanimous

The Democratic members also met in caucus and to nominated a candidate for United States Senator. The first ballot stood as follows: Richard Brodhead, 7; H. D. Foster, 17; W. II. Witte, 8; H. S. Magraw, 1. On the third ballot Henry D. Foster was nominated by a unanimous vote.

"Union Meeting in Philadelphia: A large meeting of the citizens of Philadelphia, irrespective of party, was held en Saturday evening last, at National Hall. The audience was very large, not one half being able to gain admittance to the room. At least five thousand Jersey. persons were present. Colonel Wm. D. Lewis presided, assisted by Commodore Stewart, Major General Robert Patterson and others. Resolutions were adopted heartily approving of the conduct of Majer Anderson, calling on the Presirequires for the defence of his position, declaring that all persons, who wage war against the United States, and all who aid, counsel and sanction them, are public enemies, and declaring that the American flag shall be protected to the last

LINCOLN'S CABINET.-The New York Tribune of Saturday builds up a Cabinet for Mr. Lincoln, as follows:

State-WILLIAM H. SEWARD, of N. Y. Treasury-Salmon P. Chase, of Obio. Att'y General-EDWARD BATES, of Mo. War-Simon Cameron, of Penna. Navy-Robert E. Scott, of Va.

Interior-WILLIAM A. GRAHAM, of N. C. P. M. General-Gideon Wells, of Conn.

The Tribune says that both Mr. Seward and Mr. Bates have accepted the positions which have been offered them. With regard to the other gentlemen named, it is not aware that either of them has received a positive appointment, or how far negotiations have proceeded with Messrs. Scott and Graham. Of these gentlemen, the first is a liberal Whig of Virginia, and a thorough going Union man; the second was Secretary of the Interior in the Cabinet of Mr. Fillmore, and was the Whig candidate for the Vice Presidency in 1852, on the same ticket with Gen. Scott.

The Tribune believes that the appoint ment of Mr. Cameron to the Treasury is a mistake, and the recent denial to the same effect, by Col. McClure would seem to confirm this opinion.

As to Mr. Chase, the Tribune believes there can be no question that his appointment to the Treasury would be hailapproval. He is not only one of the very ablest, but one of the purest statesmen of the Union, and in extricating the State of Ohio from the financial complications consequent upon the collapse of 1857, he exhibited precisely the talents and qualities which are now needed at the head of the Treasury Department. It is possible that Charles F. Adams, of Mass., may be appointed Postmaster General instead of Mr. Wells.

THE BASIS OF A COMPROMISE: The committee on the part of the border States, Senator Crittenden, chairman, held a second meeting on Saturday night, in Washington, and at 12 o'clock adopt ed the following propositions:

Recommending the repeal of the personal liberty bills.

An efficient amendment to the fugitive slave law, preventing kidnapping, equalizing the commissioners' fee, etc.

That the Constitution be so amended as to prohibit any interference with slavery in any of the States.

That Congress shall not abolish slave ry in any of the States.

That Congress shall not abolish slavery in the dockyards, etc. or in the District of Columbia, without the consent of Maryland, and the consent of the inhabtante of the District, nor Without com-

That Congress shall not interfere with the inter-State slave trade.

That there shall be a perpetual pro

ibition of the African slave trade. That the line of thirty-six deg. thirty min. shall be run through all the existing territory of the United States, and in all north of that line slavery shall be prohibited, and south of that line neither Congress nor the Territorial Legislature shall hereafter pass any law abolishing, prohibiting, or in any manner interfering with the African slavery; and when any Territory containing a sufficient population for one member of Congress in any area-of 60,000 square miles shall apply for admission as a State, it shall be admitted with or without slavery as its

Constitution may determine. The committee represented at its meeting the States of Maryland, Virginia, Missouri, North Carolina, Texas, Kentucky, Delaware, Arkansas, Ohio, Indi ana, Illinois, Pennsylvania, and New

The Crittenden Compromise seems to be gaining friends, who entertain the opinion that if it were fairly presented to the people it would be accepted by them as a basis of settlement. The main difficulty; however, in the way is that dent to provide him with all the force he some parties are. at present indisposed to offer it without assurances that others will receive it in a mutual spirit of accommodation, both south and north.

The correspondence between the South Carolina Commissioners and President Buchanan appears in the Charleston papers of Saturday last, having been submitted to the Convention in secret session the evening previous. It conident, in which they demand, as a preeights miles to Fort Johnson, and two liminary to all negotiations, a disap-Maj. Anderson acted without express orders, he yet refuses to repudiate the act: and the third, dated Jan. 1, in which the Commissioners attempt to refute the allegations of the President's letter in which he justifies Maj. Anderson's conduct. This last letter the President returned to the Commissioners with the following indorsement on its back: "This paper just presented to the President is of such a character that he declines to receive it."

It is understood in Washington that the Sub-Treasurer of Charleston has there.

EXPULSION OF PAUPERS FROM RICH-MOND.—Authority has been conferred upon the Mayor of Richmond, Va., by the Councils of that city, to expel all paupers arriving there from other cities, or to put them to work in the chain-gang. The Dispatch approvingly says of the measure: "We have poor enough of our own to provide for, without importing others, and no additions should be made

at this season of the year. The Governor of Maryland has issued another address to the people of that State, which is highly commended here by the friends of the Union. The parties closed as they fired, and after the cessation of the shooting attacked each other desperately with the long steel augurs which each carried for the purpose of sampling sugar, receiving mutual gashes-Marot upon the forehead, and Lathers upon the thumb. The contest was only terminated by death of the former, who sank into his giving his first concert, he was called the arms of a bystander, with the exclashortly afterward. Mr. Lathers surrendered himself to the authorities, but was that he had acted in self defence. The deceased was a gentleman of family, and Mr. Lathers a widower.

RESIGNATION OF SECRETARY THOMPSON Mr. Thompson has resigned to the President his commission as Secretary of the Interior, on the ground that after the order to reinforce Major Anderson was countermanded on the 31st December, there was a distinct understanding, that West Point, and distinguished himself no troops should be ordered south without the subject being considered and decided in the Cabinet. At the Cabinet meeting on the 2d instant, the matter was debated, but not determined. Notwithstanding these facts, the Secretary of War, without the knowledge of Secretary Thompson, sent 250 men in the Star of the West, to reinforce Major Anderson. Not learning of this till Wednesday morning last, he resigned forthwith.

> The City of Charleston is nightly patrolled by military. It is said that Major Anderson was alarmed on the night of his evacuation of Fort Moultrie signal for attack. This, however, is not generally credited, but he certainly left Fort Moultrie in great haste, which is evidenced by the many things he left behind in the officers' quarters. Hats, books, coats, etc., were scattered about, the piano was open with the music on the floor and the stool overturned. It is proposed to starve out the troops in Fort Sumpter, and then attack them on rafts with the aid of the batteries already erected. A battery of earth-work with logs and sand has been constructed on he end of Sullivan's Island, and another an Morris Island. The expectation was entertained that the United States cutter Lane would arrive on the night of the 31st, and there was a determination to fire upon and sink her if she attempted to enter. As yet there has been no the new regime. The first vessel that arrives from Liverpool will create a rumof York, Pa., in his stead.

Private letters from the best sources in Charleston, dated on Saturday, and received in Washington, express the gravest distrust as to events, and fear that blood may flow at any moment.-Many of the families are removing from the city, under these apprehensions --The most sagacious leaders have lost their power, and are at the mercy of an excited and exacting populace.

Hon: Cave Johnson, of Tennessee. has written a very strong letter, denouncing in the most emphatic terms the whole secession movement-declaring it to be nothing but rebellion, and proclaiming the duty of the Federal Executive, in case of the capture of any of the forts of the United States, to "retake them, without regard to the blood or treasure that may be expended."

Several prominent members and Senators, who have been in consultation with Thurlow Weed, while in Washington, now say that they have canvassed the entire ground, and see no chance of a compromise which the South will accept, not disgraceful to the Republicans and the Free States.

> Gen. Scott is visited every day by a large number of Union men and personal friends. The old hero greets them all cordially, and warmly denounces the "rebellion" of the South, as he calls it, with an emphasis, and says Anderson must be sustained, the Union preserved and laws executed at all hazards. He will exert all his influence and power to that end.

HOLLOWAY'S PILLS AND OINTHENT .- Let facts speak for themselves .- Practice vs. Theory. To mystify the nature and treatment of disease is the unswerving maxim of the medical profession. To familiarize all classes with its cause and effect, and enable them to subdue it by two essential remedies-Pills and Oint ment-has been the unceasing effort of Holloway: now mark the result—the public mind is daily losing confidence in the pretensions of the faculty, on account of its late theoretical dissentions; while, on the other hand, Holloway's Pills and Ointment have found " a local habitation and a name " in every nation of by three rockets let off from the end of the earth. In rheumatism and all its phases, Sullivan's Island, which he supposed was in neuralgia, glandular swellings, scalds, burns, chilblains, frostbites, &c., the effect of the Ointment is truely marvellous; while in coughs, colds. sore-throats, asthma, bronchitis and consumtion the cures by the united action of the Pills and Ointment are unquestionable.

HOLLOWAY'S OINTMENT. Bad Legs, Bad Breasts, Sores and Ulvers.

All description of sores are remediable by the An description of sores are remediable by the proper and diligent use of this inestimable preparation. To attempt to cure bad legs by plastering the edges of the wound together is a folly; for should the skin unite, a boggy diseased condition remains underneath to break out with tenfold fury in a few days. The only rational and successful treatment, as indicated rational and successful treatment, as indicated by nature, is to reduce the inflammation in any about the wound and to soothe the neighboring parts by rubbing in plenty of the Ointment as salt is forced into meat.

Diptheria, Ulcerated Sore Throat, and Scarlet and other Fevers.

Any of the above diseases may be cured by well rubbing the Ointment three times a day into the chest, throat and neck of the patient; it will soon penetrate, and give immediate relief. Medicine taken by the mouth must operate upon the whole system ere its influence can be felt in our least part whereas the Ointernate upon the whole system ere its influence can be felt in our least part. be felt in any local part, whereas the Oint-ment will do its work at once. Whoever tries the unguent in the above manner for the diseases named, or any similar disorders affecting the chest and throat, will find themselves relieved as by a charm.

Piles, Fistulas, Strictures.

The above class of complaints will be removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in the Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smean the Ointment on the affected parts, but it must be well rubbed in for some considerable time two or three times a day, that it may be taken into the system, whence it will remove any bidden sore or wound as effectually as though palpable to the eye. There again bread and water poultices, after the rubbing in of the Ointment, will do great service. This is the only sure treatment for female cases of cancer in the stomach, or where there may be a gen

eral bearing down.
Indiscretions of Youth; Sores and Ulcers. Blotches, as also swellings, can, with certainty, be radically cared if the Ointment be used freely, and the Pills be taken night and morning as recommended in the printed instructions. When treated in any other way they only dry up in one place to break out in another; whereas this Ointment will remove the humour from the system, and leave the patient a vigorous and healthy being. It will require time with the use of the Pills to ensure a lasting cure.

Dropsical Swellings, Paralysis and Stiff Joints.

Although the above complaints differ widely in their origin and nature, yet they all require local treatment. Many of the worst cases, of such diseases, will yield in a comparatively short space of time when this Ointment is dill gently rubbed into the parts affected, even after every other means have failed. In all serious maladies the Pills should be taken according to the printed directions accompanying each
