NEWS IN BRIEF.

A movement is on foot in Washington, to remove all the office-holders in the several departments of the government there who belong to seceding States, and all others in favor of secession who do not declare positively, either by oath or affirmation, that they are for sustaining the Union and the execution of the laws...

Lieut. Gen. Scott is still engaged in making preparations to guard against any possible breach of the peace in Washington, consequent on the present political agitation. Effective military forces are to be posted in several parts of the city. It is not probable, however, that any but the regular troops and militia will be employed for this purpose.

Senator Wigfall writes to a friend in Galveston that the North will not yield an inch, and that the opponents of separate State secession in the South are only endeavoring to get up a discussion which shall divide the South, and pave the way for submission. He denounces Boteler, of Va., and Powell, of Ky., as "Union-savers of the most unmitigated sort."

Secession is spreading in Florida after the fashion in which Mayor Wood proposes to inaugurate in New York. The people of West Florida are talking of seceding from the rest of the State, and annexing to Alabama all the region lying west of the Apalachicola river.

Gov. Pickens' account as Minister to Russia was settled at the Treasury at Washington, and a draft was sent him on the Sub-Treasury at Charleston. It is said, not jocosely, that the Governor will have hard "pickens" to get his pay, as it is reported that the Sub-Treasury at Charleston has been seized.

While Mr. Thomas was Secretary of the Treasury, two hundred thousand dollars were removed from the vault of the Treasury in Washington to the Sub-Treasury in New Orleans, and for what purpose it is difficult to ascertain.

Should Henry Winter Davis not agree to accept a position in Mr. Lincoln's Cabinet, it is confidently believed that a tender of a place will be made to the Hon. Montgomery Blair, now also a resident of Maryland, the son of Hon. Francis P. Blair, and brother of Hon. Frank Blair, the member elect to the next Congress from the St. Louis, Mo., district.

Reverdy Johnson says that Seward's speech will save Maryland from joining the secession faction. The Star, formerly an Administration journal, but now devoted to the incoming Administration, publishes and approves of the speech. It says it will defeat the schemes of the traitors in Virginia and Maryland.

PRETENCE OF THE UNION: The Louisville Courier says the only question for Kentucky to decide is, whether she will go with the Slave States or with the Free States, to which Pretence says:

No! this is not "the only question for Kentucky to decide." It is not the question.

The great question for Kentucky to decide is whether she will stand proudly where she is and draw the Free States and the Slave States or the majority of both to her side, keying the Arch of the Union anew, or whether she will drop ignobly from the crown of that glorious Arch, leaving the whole magnificent structure to fall and bury her in the common ruin. The question is the question of self-preservation involving the preservation of the Union.

This is the question for Kentucky to decide, and we do not doubt how she will decide it. The wisdom, the patriotism, the courage of her sons leave no room for doubt.

GRAY'S FERRY ARSENAL:—This arsenal, near Philadelphia, contains equipments for eight or ten thousand men, besides a large quantity of camp equipage and quartermaster's stores. There have not been shipments to the South or anywhere else recently, except to supply the ordinary requirements of the army. In the arsenal at Bridesburg, Pa., there are 20 brass field-pieces, 6 twelve and twenty-four pounders, 21 heavy sea-coast guns, but no Columbiads, which are being cast at Pittsburg. There are also 10,000 muskets, and about 1,500 musketoons, rifles, pistols and carbines, and a lot of artillery equipments; also, 41,000 pounds of musket and rifle powder, and 9,400 pounds of cannon powder on storage. The muskets comprise a large number of rifled pieces. There are also 150,000 musket balls, and 2,000,000 pounds of nitre for the manufacture of powder; also, 460,000 pounds of sulphur for the same purpose.

TOOMBS AND WIGFALL: There is some satisfaction in knowing that Mr. Buchanan seriously meditates the arrest and trial of Toombs and Wigfall as traitors. That they are such in spirit and purpose, is beyond doubt. That they have actually been guilty of treason by complicity with the Secession rebels in seizing Government forts and other property, can probably be proved. If so, let them be tried, convicted, and, for a salutary example such as is very much needed at this juncture, executed as was John Brown, whose crimes they have emulated.

MR. HAMLIN'S SUCCESSOR: The Republican members of the Maine Legislature have made an excellent choice of a United States Senator to succeed Mr. Hamlin. Hon. Lot M. Morrill left the Democratic party about the same time with Mr. Hamlin, and has since been an unwavering and influential Republican. He has been Governor of Maine three years, and one of her best Governors. He is in the prime of active manhood, an able debater, a courteous gentleman, and an honest man.

POST CHARGES IN A YOUNG REPUBLIC. A letter sent from Arkansas, Texas, and forwarded thence to Brazoria, Texas, in the year 1841, during the existence of the Lone Star Republic, has the following moderate post charges, viz., 56 cents to the first point and \$1 for forwarding. One dollar and fifty-six cents postage upon a single letter we should think would prove a sudorific for the secession fever.

ABOLITIONIST MOBBED.—The Springfield Republican says that Charles C. Burleigh, a rabid abolitionist, delivered a political address at a school house in West Farms, Westfield, Thursday evening, and uttered sentiments so offensive that a mob gathered and broke up the meeting, and celebrated their triumph by making a bonfire of the school house and its contents.

DOGS PERSONAL PROPERTY.—Dogs are made personal property by law when certain requirements are complied with. The owners are required to furnish to the Clerk of the Quarter Sessions a description of the animals, giving name, age, color, height, &c., which the Clerk is directed to enter at full upon his docket, and to furnish the owner a certified copy of it. Then, and not till then, are dogs personal property, and the theft of one punishable.

AN UNFORTUNATE PRINTER.—William Phillips, who formerly worked side by side, in a printing office, with Chief Justice Lewis and Gov. Packer, of Penn., went to a police station, in Philadelphia, the other night to beg lodging.

The Secretary of the American Colonization Society, in the report read at the annual meeting said that the statement that the Africans taken from the slave Echo had been sold into slavery was false. They were now in Liberia, and doing well.

On the 8th inst., the house of Judge Thorne, at Vincennes, Indiana, was destroyed by fire, and the Judge perished in the flames, in the effort to save some valuable papers.

The citizens of Taunton, Mass., have started a subscription for the purchase of a sword, to be presented to Major Anderson, the hero of Fort Moultrie.

TABLES TURNED: Some Tennesseeans appear to have turned the tables of Lynch law. As thus: "The Knoxville (Tenn.) Whig says that a fellow recently passed through Roane county, talking disunion talk, and cutting up considerably, as we have been told. The Union men laid hold of him, and hung him with a grape vine, and so choked him that he had not to have recovered. They made him take an oath to support the Constitution and fight for General Government, as well as to talk in future on the side of the Union."

The "last scene" in the Dr. Burdell tragedy was enacted a few days since. Ever since the murder the property of the defunct has been in litigation, and "injected" to an extent unsurpassed in the annals of N. York courts. On Saturday, however, the court gave a final decision in the case, ordering the property to be sold at auction on the 15th. Mrs. Cunningham is counted out. That fascinating female is now in California.

It is understood that the Hon. Edgar Cowan, the new United States Senator elect from Pennsylvania, visited Springfield, Illinois, to see Mr. Lincoln for the purpose of insisting upon the appointment of General Cameron to the Cabinet.

It is stated and believed that Mr. Seward has written a decided letter to Mr. Lincoln, urging him to appoint Gen. Cameron a member of the Cabinet. Mr. Seward's late speech will give him a strong hold upon the confidence of the President elect.

HOLLOWAY'S PILLS AND OINTMENT.—Let facts speak for themselves.—Practice vs. Theory. To mystify the nature and treatment of disease is the unwavering maxim of the medical profession. To familiarize all classes with its cause and effect, and enable them to subdue it by two essential remedies—Pills and Ointment—has been the unceasing effort of Holloway; now mark the result—the public mind is daily losing confidence in the pretensions of the faculty, on account of its late theoretical disquisitions; while, on the other hand, Holloway's Pills and Ointment have found "a local habitation and a name" in every nation of the earth. In rheumatism and all its phases, in neuralgia, glandular swellings, scalds, burns, chilblains, frostbites, &c., the effect of the Ointment is truly marvellous; while in coughs, colds, sore-throats, asthma, bronchitis and consumption the cures by the united action of the Pills and Ointment are unquestionable.

TO CONSUMPTIVES: The advertiser having been restored to health in a few weeks, by a very simple remedy, after having suffered several years with a severe Lung affection, and that dread disease, Consumption, is anxious to make known to his fellow sufferers the means of cure. To all who desire it he will send a copy of the prescription used, [free of charge] with directions for preparing and using the same, which they will find a sure cure for Consumption, Bronchitis, &c. The only object of advertiser in sending the prescription is to benefit the afflicted, and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing. Parties wishing the prescription will please address Rev. EDWARD A. WILSON, Williamsburg, Oct. 13-3m] Kings co., N. Y.

HEALTH AND ITS PLEASURES! OR, DISEASE AND ITS AGONIES! CHOOSE BETWEEN THEM.

HOLLOWAY'S PILLS. NERVOUS DISORDERS.

What is more fearful than the breaking down of the nervous system? To be excitable or nervous in a small degree is most distressing, for where can a remedy be found?—There is one—drink but little wine, beer, or spirits, or far better, none; take a coffee-weak tea being preferable; get all the fresh air you can; take three or four Pills every night; eat plenty of solids, avoiding the use of slops; and if these golden rules are followed, you will be happy in mind and strong in body, and regret you have any nerves.

MOTHERS AND DAUGHTERS. If there is one thing more than another for which these Pills are so famous it is their purifying properties, especially their power of cleansing the blood from all impurities, and removing dangerous and suspended secretions. Universally adopted as the one grand remedy for female complaints, they never fail, never weaken the system, and always bring about what is required.

SICK HEADACHES AND WIND OF AP-PETITE. These feelings which so sadden us, most frequently arise from annoyances or trouble, from obstructed perspiration, or from eating and drinking what is unfit for us, thus disordering the liver and stomach. These organs must be regulated if you wish to be well. The Pills, if taken according to the printed instructions, will quickly restore a healthy action to both liver and stomach, whence follow as a natural consequence, a good appetite and a clear head. In the East and West Indies scarcely any other medicine is ever used for the disorders.

DISORDERS OF THE KIDNEYS. In all diseases affecting these organs, whether they secrete too much or too little water; or whether they be afflicted with stones, or with aches and pains settled in the loins over the regions of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bed time. This treatment will give almost immediate relief when all other means have failed.

FOR STOMACHS OUT OF ORDER. No medicine will so effectually improve the tone of the stomach as these Pills: they remove all acidity, occasioned either by intemperance or improper diet. They teach the liver and stomach to reduce it to a healthy action; they are wonderfully efficacious in curing all disorders of the liver and Stomach.

Holloway's Pills are the best remedy known in the world for the following diseases. Ague, Dropsy, Inflammation, Asthma, Dysentery, Jaundice, Bilious Complaints, Erysipelas, Liver Complaints, Female Irregularities, Pleurisy, Skin, Scalds, Rheumatism, Bowel Complaints, Fevers of all kinds, Colic, Kindred, Rheumatism, Constipation of the Fills, Retention of the Urine, Gout, Head-ache, Scrofula, Debility, Indigestion, King's Evil, Stone and Gravel, Tumors, Venereal Affections, Secondary Symp-toms, Venereal Affections, Worms of all kinds, Weakness, &c. The Doctoureaux, kinds, Weakness, &c. CAUTION.—None are genuine unless the words "Holloway's Pills, New York and London," are discernible in a Water-mark upon every leaf of the book of directions around each pot or box; the same may be plainly seen by holding the leaf to the light. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

Sold at the Manufactory of Professor Holloway, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine, throughout the civilized world, in boxes at 25 cents, 62 cents and \$1 each.
