DR. MOTT'S CHALYBEATE Restorative Pills of Iron!!

An Aperient and Stomachie preparation of Iron purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their

practice.

The experience of thousands daily proves The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions, indicate its necessity in almost every conceivable case.

Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz: In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipution, Diarrhea, Dysentery, Incipient Consumption, Scrafulous Tuburculosis, Sall Rheum, Mismenstruation, Chlorosis, Whites, Live Complaints, Chrunic Headuches, Rheumatism, Intermittent Fe-

face, &c.
In cases of General Debility, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no has proved successful to an extent which no description nor written attestation would rendescription nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the bugy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female Sufferers, emaciated victims of apparent marasmus, sanc guineous exhaustion, crittical changes and guineous exhaustion, critical changes, and that complication of nervous and dyspepti-aversion to air and exercise for which the phy-

sician has no name. In Nervous Affections' of all kinds, and for In Nervous Affections' of all kinus, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vicorously tonic, without being exciting and dyarheating; and gently, tegularly aperient, even in the most obstinate cases of costiveness without other bains a destric mitreastype or inflicting out ever being a gastric purgative, or inflicting

detion, by dispersing the local tendency which forms them.

In Dispersia, in numerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendent Costiveness.

In unchecked Districta, even when advanced to Districta, even when advanced to Districta, ending and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating equiph, and remitten, hectic, which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and in-

physicians, in several very gratifying and inphysicians, in several very gratifying and in-teresting instances.

In Scrofulous Tuberculosis, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of todine, without any of their well known lia-

bilities. The attention of females cannot be too con-

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In Internation tevers it must necessarily be a great remedy and energotic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

A continual course of suffer-ing through life having reduced me to a state of dependence, I have not been able to obtain dependence, I have not been able to obtain stuff for caps, neither have I been able to do them up, in consequence of which my head has suffered extremely from cold. This induced me to pay Briggs & Hodges almost the last cent I had on earth for a two dollar bottle of thy Hair Restorative about the first of August last. I have faithfully followed the directions and the bald spot is now covered with hair thick and black, though short, it is also coming in all and black, though short, it is also coming in all over my head. Feeling confident that another large bottle would restore it entirely and permanently, I feel anxious to persevere in its use, and being destitute of means to purchase any more, I would ask thee if thee wouldst not be willing to send re an order on thine agents for a bottle, and receive to thyself the scripture declaration—"the reward is to those who are kind to the whow and the fatherless."

COMMENDATIONS:

From Hon. Lewis D. Campbell, M. C., Ohio.

My family and friends all concur in the opinion that the, (Newell) Picture is more life-like than anything they ever saw. My likeness has been repeatedly taken by artists in various ways, but I have never yet had one which presents so true to nature, all the features and expressions of countenance as this.

From Hon. E. Joy Morris, late Minister to Italy.

The exquisite finish, beauty and softness of your portraits, conjoined, with their durability of color and faithfulness as likenesses, cannot fail to commend them to the altention and patronage of all who appreciate true art.

fail to commend them to the altention and patronage of all who appreciate true art.

From Col. James Page.

Having occasion for a portrait, I procured one from Mr. Robert Newell, of the city of Philadelphia, a miniature in Oil Colors, under the new process distovered by him, and take great pleasure in expressing the satisfaction given me, not only by the accuracy of the likeness, but its artistic finish in all respects, and recommend him to the patronage of these disposed to encourage the beautiful art.
