and silky in its texture and causing it to correctedly.

The great celebrity and the increasing demand for this unequalled preparation, convince the proprietor that one trial is only necessary to satisfy a discerning public of its superior qualities over another preparation at present in use. It cleanses the head and scalp from dandruff and other cutaneous diseases. Causes the hair to grow luxuriantly, and gives it a rich, soft. glossy and flexible appearance, and also

soft, glossy and flexible appearance, and also where the hair is loosening and thinning, it will give strength and vigor to the roots, and restore the growth to those parts which have become bald, causing it to yield a fresh covering of hair. There are hundreds of ladies and gentlemen in New York who have had their hair restored by the use of this Invigorator, when all other preparations had failed. L. M. has in his pos-session letters innumerable testifying to the session letters innumerable testifying to the above facts, from persons of the highest respectibility. It will effectually prevent the hair from turning gray until the latest period of life and in cases where the hair has already changed its color, the use of the Invigorator will with certainty restore to its original hue, giving it a dark, glossy appearance. As a perfume toilet and a Hair Restorative it is particularly recommended, having an agreeable fragrance; and the great facilities it affords in dressing the hair, which, when moist with the Invigorator can be dressed in any required form so as to preserve its place. DR. MOTT'S CHALYBEATE RESTORATIVE

PILLS OF IRON.

An Aperient and Stomachic preparation o Iron purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their

practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions, indicate its necessity in almost every conceivable case.

cach of the following complaints, viz: In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipution, Diarrhæa, Dys-

entery, Incipiend Consumption, Scrofu-lous Tuburculosis, Salt Rheum, Mismenstruction, Chlorosis, Whites, Live Complaints, Chronic Headaches, Rheumatism, In-

termittent Fevers, Pim-ples on the face, &c.
In cases of General Debility, whether the 1esult of acute disease, or of the continued dim-

inution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighbor-boods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female Sufferers, emaciated victims of apparent marasmus, sanc guineous exhaustion, crittical changes, and that complication of nervous and dyspeptiaversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and for

reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary; for, unlike the old oxides, it is vigorously tonic, without being exciting and over-heating; and gently, regularly aperient, even in the most obstinate cases of costiveness withand Curries of all kinds, Potted

la Di spepsia, innumerable as are its causes. a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendent Costiveness. In unchecked Diarrhaa, even when advanced to Dysentary, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strangth

and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remitten, hectic, which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several year gratificial and process of these disposed to encourage the beautiful art. physicians, in several very gratifying and interesting instances.

In Scrofulous Tuberculosis, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.
In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In Intermittent Fevers it must necessarily be

a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and use fulness.

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects.— Good appetite, complete digestion, rapid acqui-

sition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use. COMMENDATIONS:
From Hon. Lewis D. Campbell, M. C., Ohio.
My family and friends all concur in the opinion that the (Newell) Picture is more life-like than anything they ever saw. My likeness has been repeatedly taken by artists in various ways, but I have never yet had one which presents so true to nature, all the features and expressions of countenance as this.

From Hon. E. Joy Morris, late Minister to Italy.

The exquisite finish, beauty and softness of your portraits, conjoined with their durability of color and faithfulness as likenesses, cannot fail to commend them to the attention and parameters of all who congregate true art.
