Marietta, Ta. SATURDAY, MAY 4, 1861.

TA number of articles have in consequence of our inability to issue last week, been laid over, and some are now too:late for publication.

G. H. O. P. F.-A correspondent from Lancaster writes a scathing letter to the Philadelphia Sunday Atlas, from which we glean the following extracts :

It is doubtless true that the G. H. O. P. F. intends sailing for England very shortly, and many suppose with important confidential communications from the Southern Confederacy to the British and French Government.

When Minister to England, under Mr. Pierce, the O. P. F. went to Ostend, and there conspired with Soule of Louisiana, Mason of Virginia, and other Southern secessionists to rob the Spanish Government of her lawful possessions. Having failed, and being chosen President of the then happy United States, he re-opened his negotiations with thesame base conspirators, and placed the entire power of the Federal Government in the hands of the Southern fire-eaters, that they might destroy the Union. To carry out their vile projects he sells his home in the bosom of this State, and becomes to European courts the envoy a very good thing for the Country of rebels and traitors, to procure for them recognition, arms, aid and comfort.

I have also ascertained that he has sent in advance of his departure \$40,000 of the \$20 gold pieces that he kept in his house, which with the \$6,000 he paid for a mortgage on the farm at Middletown, makes at present under his bed but \$34,000. This he keeps with the view of purchasing his peace should he be molested by the populace before he gets out of the country.

. Mr. Buchanan is said to be worth at least \$350,000, a large portion of which he has invested in foreign securities, in anticipation of his departure.

The G. H. O. P. F. has sent word to the Doctor that if he will resign his position in the navy, and do what he can to embarrass Mr. Lincoln's Administration, he will pay the \$1,000 for curing the nose and saving his life, and say nothing about the operation for strasbismus. The doctor refuses, but goes for the stars and stripes, and G. Π .

🎲 Thomas A. Scott, of Pennsylvania rail-road, has brought the immense resources of that stupendous enterprise to bear in this emergency, and is using them with great influence in facilitating the execution of the orders of Gov. Curtin. To Mr. Scott, individually, the government here is under many obligations for the prompt manner in which he has engaged in its service, and we would be doing injustice to the Governor, as well as the people if we did not thus publicly acknowledge these labors, and express the embassy, has been called to Yeddo by high estimation in which they are held by the state administation. As the head of the Pennsylvania Railroad, Mr. Scott has left at the disposal of Gov. Curtin all the machinery and men of the

cess to the tranquility of the country, and which can alone depend for future usefulness and power on the peace and prosperity of the Union.

The Germantown Telegraph, published by our old friend Major P. R. Freas, recently entered on its 32 year. It was a good paper from the start, and is now one of the very best literary, agriculture and news papers in the Commonwealth. What is better, it is one of the best paying establishments in the state, and nets from five to ten thousand

dollars annually to its indefatigable Editor, who labors just as hard and just as assiduously as he did thirty odd years ago. Best of all, the Major is one of those genial, whole-souled men, whose liberality increases with their income. He has done more, we verily belive, for the advancement of agriculture and the general diffusion of wholesome intelli gence among the people than any other man in the state.

Gen. Cameron is regarded by the Philadelphia Evening Journal as the ablest Secretary that has filled the war Department for many years. It says it is that this true, unflinching, self-possessed and brave patriot is the Secretary of War at this present crisis. In very

many of the movements which have been attended with such good results, we have noticed the suggestions of his masterly mind. He is not only giving all the energies of his fine mind to the cause of our country, but, in his individual capacity, he exhibits himself almost in the relationship of a father towards the brave soldiers.

Toung men who are anxious to obtain positions in the army and navy through appointment, to fill vacancies created by the resignation of southern secessionists, have a fine opportunity of doing so by placing themselves in the ranks in response to the appeals of Governor Curtin and President Lincoln. In this hour of trial, those who offer themselves as soldiers to serve in any position, will be remembered when the hour of promotion arrives. Those who desire honor and position have the op-

NEWS IN BRIEF.

The buildings and grounds (nearly 300 acres) of the Roman Catholic College of St-Thomas, Villanova, Delaware county, belonging to the "Augustinian Order," have been placed at the disposal of the State and accepted as the general rendezvous for the volunteers of Delaware county and vicinity.

The Pennsylvania Railroad company has stationed armed men every three hundred yards over the dangerous part | dist-met in a village on a Sabbath, of the road, with rifles and signals, to prevent interference by traitors.

The N. Y. Times learns that orders have been despatched to England by the | The interest upon the subject was so government for twenty Armstrong guns, which may be expected to arrive here at an early day.

The young ladies of Rochester, fired with the patriotism of the revolution, are drilling a company of children into music, in order to give concerts, the proceeds of which will be devoted to the Volunteer Family Fund.

An Old Mexican Soldier, L. A. Pratt of Rochester, has offered a stand of colors to the first regular military company from that city, accepted by the Governor and mustered into service.

Joslyn's breech loading oarbine factory at Worcester is engaged night and the rebels. day in filling orders. A large quantity of these rifles has been ordered by the States of New York and Pennsylvania.

A Boston paper announces to its exchanges, that if they need any war poetry they can receive any quantity, "some of it very good," as it is overstocked with the article.

A flag of the secession stripe was displayed across the street in Liverpool, Unondaga co., N. Y., on Thursday. A crowd quickly collected and took it down, when it was torn into fragments unmentionable.

The Louisville Journal publishes a list of appointments for Crittenden .--He has entered the field for his country, and says the Union must be preserved. Mr. Dupont, of Wilmington, Del., who owns the largest powder mill in the

United States, has refused to sell his powder to the secessionists. A diver of Kingston, Jamaica, recent-

The attendance soon became so large that they adjourned to the woods, and continued the meeting for a week. And this is the origin of the modern camp meeting.

The Yard Arms of our men of war are to be ornamented with the bodies of every captain sailing under the rebel flag with letters of marque from Jeff. Davis, empowering them to rove the sea as pirates. This is true policy. Let it be understood that those who seek the lives of our fellow-citizens are to be treated as pirates, and the navy department will not be annoyed with the piracy of

Tt is an historical fact that every four years Charleston is visited with the yellow fever in its most malignant type, and, as if the Lord wished to punish the traitors of that city, this is the year Yellow Jack makes his appearance. Between the avenging hand of the Lord and the just punishment they will meet at the hands of their countrymen, their condi-

tion is truly deplorable

There was a wholesale execution of river pirates at Canton, China, lately; not less than two hundred being decapitated on the bridge where such executions occur. The whole business took but half an hour. The executioners, of whom there were several, vied to see who could do the largest amount of work; one succeeding in cutting off 63 heads for which he would receive what he would consider a nice douceur, as 500 cash is bat. given for each caput.

THE SPIRIT UP .- How deeply the national heart has been moved may be inferred from several facts which have just been made public. Col. Rufus King, recently appointed United States Minister to Rome, has asked leave of absence from his post, in order to lead his regiment in the approaching war .-- Hop. Cassius M. Clay, the newly appointed Minister to St. Petersburg, went to the war Depatment and offered to serve either as an officer or as a private in the new army .--- In fact, many men have been taken from almost every position, high and low. The chief Clerk of the Philadelphia Common Council has raised a brigade. . Senator Lane of Kansas, has command of a company. General Ney, the new Governor of Nevada, is in command of another corps.

A "BIG THING" IN THE DIVORCE LINE -Miss Selby, a Twenty-second street (New York) belle, who was "fraudulently married" by a circus rider, has succeeded in getting a divorce. The nice young man took her heart away, and succeeded, somehow or another, in misrepresenting his profession, and gaining such favor from Mary that the wedding was easily accomplished. O. P. F. waxes very angry and says-"then he shall have no money of mine."

The O. P. F. is making great parade on account of his having asked one of his nephews to enlist, but no one here gives him credit, since it is pretty generally believed his object in sending away his relativ was to avoid further expenditure on his account. It is the same one whom he had appointed to West Point, in utter disregard of the long established practice of the President to appoint no one to that institution but the decendants of destinguished officers in the army or navy.

The Old Public Functionary is becoming very much alarmed at the publications in your paper, and fears some one will commit personal violence on him; but he need not be alarmed, as no one here considers him worth attacking, though he may have about him large amounts of money, which would be worth retreat by a sham subscription of \$5,000 to the widow's fund, and by hanging out a flag-but straws show which way the wind blows, and if we had not in the history of his corrupt and proscriptive administration the most conclusive evidence of his treasonable designs upon the Government, we are furnished with the proof of his sympathy with the Southers Confederacy by the fact that in his parlor at Wheatland the only portrait to be seen (except it is those of the royal family of England) is a magnificent painting of the notorious Ben McMullough, who is at this moment raising troops in Virginia to invade Washington City.

It was the O. P. F. who first attempted to degrade the noble General Harney for his able defence of San Juan island, Washington Territory, and many persons now suppose that it is through his instrumentality that Ben McMullough has been induced to arrest the General at Harper's Ferry. Whether this be true or not, it has been well ascertained, that the Texas ranger was at Wheatland | Sumpter on Henry Clay's birthday. The ^{but a short time since, making arrange-} ments to secure the success of Jeff. Davis, and at that time it was agreed that he had better subscribe the \$5,000, in order to avoid suspicion, and he did so on the assurance that the Southern Confederacy would advance the money. portunity to earn them now. The promptitude, and efficiency of

the Pennsylvania Bailroad campany in this emergency in transporting troops for the government, free of charge, cannot be too warmly commended. MR Scorr, the energetic Vice President, has given his whole time to giving efficiency to the object, and the company will thus return a sum far exceeding what the of an election. tonnage tax would have amounted to for many years. All honor to the Pennsylyania Railroad company.

The Baltimore Sun is beginning to forms us that both Companies from this regard war as too horrible a thing for a place were sworn into the service of the civilized nation to resort to. It was glorious euough for the Palmetto rebels to fire upon Fort Sumpter, or for the Baltimore mob to assail the unarmed Pennsylvania troops, but the prospect of a mighty nation in arms to chastise those who have defied its authority, and insulted and wronged in every possible manner its loyal citizens, is by no means agreeable.

A negro insurrection was discovered in San Antonio, Northern Mississippi, on the 14th. The ringleader was hung, and on the scaffold told his executors that "they thought the niggers didn't know what was going on, but they all did, and that his death would be revenged."

The Navy Yards of New York and Brooklyn are turning out vessels as fast as possible to assist in blockading Southern ports. The activity in these yards never was so great. In a few weeks the traitors will be as well confin-

ed as if they were under lock and key. For the atrocious crime of sheltering two wounded Pennsylvanian soldiers and procuring a surgeon for them, a Frenchman was driven from his home with two little children on Wednesday, near Havre de Grace.
