

"Impartial—but not Neutral."

Marietta, Pa.

SATURDAY, MAY 25, 1861.

CLEANSING GUN BARRELS.—We see in the Scientific American and other papers recipes for cleansing gun barrels. They are all open to the objection that they involve the use of water, thus requiring time to dry the barrels and incurring danger of rust. We give a method used by scientific sportsmen in England with success: Get a quantity of quicksilver which can be kept in a strong pill box, and when the barrel is foul place the thumb on the nipple, pour the quicksilver at the mouth, and then run it up and down for a few minutes. Turn it back into the box and the barrel will be perfectly clean. The mercury forms an amalgam with the lead and removes it. The lead can be taken from the mercury by straining.

Gen. Joseph Markle, of Westmoreland county, Pa., now over 80 years old, is commander of the Home Guard organized at West Newton. The brave old General is eager and anxious to take an active part in fighting the Southern traitors: He is hale and vigorous, notwithstanding his advanced age, and full of patriotic ardor as ever. He was the Whig candidate for Governor in 1844.

The attempt to burn Willard's Hotel, in Washington City, was doubtless the work of secessionists, that being the Union headquarters. The adjoining building was set on fire in four different places, and the engine-houses were closed. The New York firemen among the Volunteers smashed open the engine-houses, and by their energy and intrepidity astonished the Washingtonians and saved the buildings.

Frances Scott Key, the author of the Star Spangled Banner, was born in Maryland in August, 1779. His father was an officer in the American army during the Revolutionary War. Mr. Key was educated at St. John's College, Annapolis, became a lawyer, and was District Attorney at Washington, when he died there, in January 1843. Chief Justice Taney is his brother-in-law.

People need not give themselves much trouble about General Scott's health. Last Sunday week he dined with Secretary Seward and a gentleman from this State, and drank not less than a good honest bottle of wine, as became a man of large frame and high military position.

Robert Tyler for many years Prothonotary of the Supreme Court of Pennsylvania has resigned his office.—The Supreme Court has appointed J. Ross Snowden to fill the vacancy. Mr. Tyler left immediately for his congenial quarters. Alas! poor Bob. He is the son of John Tyler, ex-President of the United States.

Hon. Henry Winter Davis was nominated on the evening of the 17th. instant as the Union candidate for Congress. His most prominent competitors were John P. Kennedy, William H. Collins and William Price. Mr. Davis received 42 votes out of 60, and the nomination was then made unanimous.

The merchants of Cleveland, N. Y., have agreed to close their stores at half-past seven o'clock in the evening, to give their clerks an opportunity to engage in drilling exercises, and preparations for any emergency that may arise, demanding their services in a military capacity.

The Richmond Examiner advises the secessionists to let Washington go, and direct their attention to Cincinnati, which it declares the most valuable on the borders. By occupying the Kentucky hills opposite Cincinnati, the Examiner says the city could be laid in ashes. It advises the Southern troops to form their plans secretly, and improve the rich opportunity.

We have received from the publisher, King & Baird, Philadelphia, the "Handy-Book for the U. S. Soldier," which should be in the hands of every Volunteer, as it contains all the information needed for the new recruit, in a form so convenient as not to incommode the possessor. Price 20 cents.

A proposition has been introduced in the Legislature of Massachusetts to aid in erecting a monument over the remains of Whitney and Ladd, who were killed by the Baltimore mob.

John B. Gough, the famous temperance lecturer, is to devote his earnings for six months, to help Northern troops.

NEWS IN BRIEF.

An offer from Canada of ten regiments of a thousand men each, composed of runaway negroes, is understood to have been recently made to the Government here, and promptly declined. They are said to have been urged upon the Government upon the ground that the disunionists have for months past had thousands of negroes practically in the field against the United States, engaged in doing the soldiers work of building fortifications, &c.

The following orders have been issued to volunteers of Washington: "Several instances of the exercise of petty tyranny on the part of subordinate officers and non-commissioned officers have been brought to the notice of the commanding officer. In all cases attempts to exercise illegal authority over civilians or military persons will be severely punished."

The Secretary of War has filled nearly all the First Lieutenant vacancies in the army, and most of the Second Lieutenants. Most of the First are graded from the army; the Second taken from civil life. The Paymasters are all appointed, which nearly completes the army list, so badly broken up by secession resignations and dismissals.

Somebody, says Prentice, sends us an anonymous letter from Tennessee, threatening to assassinate us for what we have said of John Bell. We hope he won't. We want the use of the whole remnant of our three-score and ten to repent properly of our vote for Bell last August.

It is stated that Messrs. Ira Gould & Son, of Montreal, have offered (through Joshua R. Giddings) to Secretary Chase to take one million of dollars in United States Treasury Sixes, payable in drafts at three days' sight on Messrs. Baring, of London.

A negro panic has seized the people of New Orleans. The negro churches have been closed by order of the Mayor, and all assemblages of negroes, slave or free, have been forbidden.

A man was taken and hung a few days ago by a citizen of Bloomington, Illinois, for placing obstructions on the track of the Illinois Central Railroad, to throw off the train bringing troops South.

A board of medical officers will convene at the Naval Hospital, New York, on the 1st of June, for the examination of candidates for admission to the medical corps for the Navy.

Maj. Anderson has been promoted to be Colonel, but declined taking command of the Kentucky Volunteers, as it would require him to leave the Regular Army.

Senator Douglas has been ill some two weeks at Chicago, of typhoid fever. Dispatches on Saturday represented his case as very critical, but the last dispatch says he is somewhat better.

A difficulty is apprehended at Louisville on the landing of Col. Anderson.—The idea of Breckinridge taking command under him is ridiculed.

Dean Richmond, Esq., has given to the volunteers' fund in Buffalo \$500, and to that in Batavia, N. Y., \$500 more. Mr. R. is very wealthy.

The Kansas Legislature has appropriated \$20,000 to be used to repel invasions and place the State on a war footing.

Four Hundred Cavalry recently went from Carlisle, through the county district of Maryland, to Washington, without molestation.

Simon Snyder, grandson of the Gov. of Penn. of the same name, is appointed a Lieutenant in the 5th Reg't U. S. Army.

Gen. James Irvin of Philadelphia, (formerly of Bellefonte) is appointed Naval Store-keeper, vice Maj. John Cummings.

The farmers of Ohio are putting in seed of the Chinese sugar cane, for the purpose of having a supply of molasses and sugar independent of the South.

The family of the veteran Scott have gone to Elizabeth, New Jersey, and are about to occupy the mansion known as "General Scott's house."

The Scotch merchants of New York, propose to furnish ten regiments of Scotchmen, to be equipped by the Government, and to serve during the war.

The mail cars on the Southern railroads are now lettered "C. S. Mail," instead of "U. S. Mail," as heretofore.

Some of the friends of Mr. Douglas, in Chicago, have presented him with a fine span of horses, valued at \$1,000.

The Legislature of Kentucky has passed resolutions declaring that Kentucky should maintain a strict neutrality.

There are 16,000 Ohio troops, and three companies U. S. artillery at camp Dennison, on the Ohio river.

Colonel Ellsworth, of the New York Zouaves, has had a present of a \$1,000 horse, from Saratoga, New York.

The city of Chicago has contributed three and a half millions of dollars for the war.

The city of Chicago alone furnished 3,420 men for the war.

WAR ITEMS.

Gov. Curtin has appointed Dr. Henry H. Smith, Professor of Surgery in the University of Pennsylvania, Surgeon General of the Army in Pennsylvania. This is a most excellent appointment.—Dr. Smith occupies a foremost rank in his profession; and, besides surgical skill of the very highest order, has all the necessary administrative qualities for the organization and control of a most important department.

The Washington correspondent of the New York Times states that the Secretary of War has contracted with North, Chase and North, of Philadelphia, for all shot or shell that may be required during the war. The terms of the contract have not yet been made public.

The expenses which have been incurred by the Commonwealth for transportation of troops, clothing, provisions and munitions of war, are less than \$200,000, and have been settled. Gov. Andrews accepted of the loans proffered to the State, \$200,000, for this purpose.

General Williams has gone to Harrisburg to get a couple of field batteries and squadron of cavalry, to meet the forward movements of the Virginia troops.

Colonel O'Fallen, one of the oldest and wealthiest citizens of St. Louis, has been elected colonel of the last new regiment of U. S. volunteers at St. Louis.

George A. McCall, of Chester county, has been appointed Major General, to command all the Pennsylvania troops.

The Postmaster General at Montgomery has issued a proclamation announcing that he assumes control of all the mails on the 1st of June.

The Massachusetts Legislature has passed a bill appropriating three million of dollars for war purposes; and also one to loan seven millions to the national government.

Hyde Park, in the northern part of St. Louis has been leased by the U. S. government, and a regiment of troops will be quartered there.

"LADY DAVIS."—The statement that the wife of Jeff. Davis is the daughter of the late President Zachary Taylor is untrue. The first wife of Davis was Taylor's daughter—a right noble woman—but she has been dead many years.—The present Mrs. Davis is the daughter of a prominent citizen of New Orleans, but originally from Philadelphia. Several of Mrs. Davis' relatives in Philadelphia belong to the volunteer force of that city.

SMALL NOTES.—The Legislature of last winter previous to its adjournment last month, passed a supplement to the General Banking Law, which, among other provisions permits to Banks of the Commonwealth, the issue of notes of the denomination of \$1. A number of banks intend to avail themselves of this privilege, and we may expect to see the State shortly flooded with this shinplaster currency.

MAJOR GENERAL WOOL.—It seems to be understood that the veteran Wool has been ordered to assume the command of Fortress Monroe. Upon the strength of this impression it is believed around us that active military operations in that quarter will soon be instituted by the Government.

Francis F. Blair, Sr., of Maryland, received notice from the Secessionists about Silver Springs, that his house would be set on fire if he did not leave the vicinity. The plucky old gentleman immediately notified them in return that there would be two parties to that bargain, removed his family to New York, and prepared for a vigorous defence by arming his servants to the teeth.

When governments hesitate in great trials, they are lost. The people and the world respect those who have the power and disposition to respect themselves. "The God of battles is with the heaviest ordnance," said Napoleon. The thought was not impious; it showed the deep knowledge of human nature possessed by the Corsican. God helps those who help themselves.

The Secretary of War has rescinded the beef contract with George M. Lauman, that has been creating so much sensation among the speculators of the country. It was alleged that by this contract, Lauman was to have made a very large amount of money, but when the contract came properly before the Secretary of War, he at once restricted it to the amount called for by the advertisement for the bid, which was only two thousand head of cattle.

We are happy to state that John A. Washington, who shaved our patriotic ladies so abominably in the sale of the bones of the great Washington, is an officer in the traitors' army. If they ever catch a man in the patriot army stealing the gruel of the wounded, or picking cents off the eyes of the dead, he will match John A. Washington.

We see it stated that including the Home Guards, there are not less than five hundred thousand men enrolled in the free States, ready for service at a moment's warning from the government.—This is an army more numerous than there are free white men between the ages of eighteen and forty-five in all the seceded slave States.

A KISS GIVEN UNDER DIFFICULTIES.—As the Eighth Ohio regiment was going from Cleveland to Camp Dennison, Capt. Buckingham supposed the train would stop at Crestline, and notified his wife. Unfortunately, the orders were to pass through Crestline without stopping.—The train, slack up a little, but the rate of speed was still high. The gallant captain saw his wife on the platform, made a desperate spring, clasped her in his arms, kissed her quickly, and under tremendous applause from his comrades on board, sprang back on the flying train, having barely time to catch the rear car.

GEN. CASS: The first Michigan Regiment arrived at Washington on the 16th inst., it was the first regiment from the Great Northwest. It is said to be a stalwart body of men, warmly clad, well provisioned, armed, and ready for any danger. Gen. Cass contributed out of his private fortune \$25,000 to the equipment of the Michigan volunteers, and \$10,000 to the support of their families during their absence. He, it is said, is resolved, even in his old age, to die with harness on his back, and has mounted his old uniform, and reviews his troops, now congregated in Detroit, every morning.

COLORED REGIMENTS.—I am able to verify the statement concerning the tender of colored Canadian regiments, says the Washington correspondent of the N. Y. Tribune; the offer was made by a person formerly in the diplomatic service of the United States, who was willing to take command of a brigade composed of ten companies, the majority of whom are runaway negroes. As the proposition was seriously made, it was necessary to return a serious answer, which was that, under no circumstances whatever, would the government listen to any such proposition.

Ten years ago, Henry Clay, standing upon the spot in Louisville, from which Mr. Crittenden has just made his latest appeal for the Union, spoke these memorable words: "I have been asked when would I consent to give up this Union? I answer never! never! never! and I warn you, my countrymen, now if, as things seem to tend, this country should be divided into a Union and Disunion party, I here now, no matter who compose that party, declare myself a member of the Union party.—Whether it be a Whig or a Democrat that belongs to the party of the Union, here I subscribe my name—there I unite my heart and hand with that party."

The London pickpockets have trained dogs to such accurate operation that they jump up at a gold watch, seize it, snap the chain, and bolt off where there master is waiting.—Exchange.

When Governor Floyd was Secretary of the Treasury, he kept a set of trained dogs about him to render him a very similar sort of service.—Louisville Journal.

A lady enlisted with her husband in one of the regiments that went to Washington from Philadelphia, and they entered their names upon the roll as brothers. The lady is the exact size of her husband, and wears a suit of his clothes. She is determined to go with him through the war, and to die with her husband if need be. They have no children.

Why doesn't our old friend John Bull come out with his corrected reports of his speech in Nashville? Has he partially forgotten what he did say?—And is he prudently waiting to have his imperfect memory refreshed or jogged by the progress of political events?—Prentice.

Wm. Weaver, of Newport, Perry county, Pa., (but formerly of Harford county, Md.) convicted some time ago for poisoning his wife, has been convicted of murder and on Thursday of last week was sentenced to be hung. He is said to have received the sentence with perfect indifference.

GEN. SCOTT is in excellent health, notwithstanding the reports to the contrary. The old hero is the life and soul of the army, and in good time will crush secession by a series of well directed blows, so that it will never be able to recover itself.

One day last week a flag was raised at a house in Newburyport, Mass., by a lady ninety-six years of age. It was made by herself and her three daughters, the youngest of whom is sixty-two years of age.

A Bill to provide stationary, postage stamps, &c., for the soldiers of this State drafted into the service of the United States, has finally passed both Houses of the Pennsylvania Legislature.

Ex-Governor A. H. Reeder, of Pennsylvania, well known in connection with the early history of Kansas has been appointed a brigadier general by the President.

Mr. Herbert, the superintendent of Mount Vernon, says there is no foundation for the report that the remains of Washington have been removed from their resting place.

A list of interesting publications by J. B. Peterson & Brothers, 306 Chestnut st., Philadelphia, will be found in our advertising columns this week.

The quantity of provisions and other stores at present consumed daily by the army at Washington, is as follows: Seventy-six barrels of pork, alternately with twenty-five thousand pounds of fresh beef; one hundred and fifteen barrels of flour; fifty bushels of beans; two thousand pounds of rice; coffee twelve hundred pounds; sugar twenty-four hundred pounds; whisky six hundred and twenty-five gallons; vinegar, two hundred gallons; candles, three hundred pounds; soap, eight hundred pounds; salt, thirteen bushels.

The May number of that excellent monthly, "The Household Journal" has just been received; it should be in every house; price \$2 a year. Alexander Harthill & Co., publishers, New York. Advertisement next week.

We have received a letter from a son of the late Henry D. Machen, formerly of this borough, now of Pontiac, Ill., which will appear in our next.

Prentice says John C. Breckinridge wore a mask during the Presidential canvass. He has now thrown it off, but the face is worse than the mask.

MARK THESE FACTS!

HOLLOWAY'S OINTMENT. Bad Legs, Bad Breasts, Sores and Ulcers.

All descriptions of sores are remediable by the proper and diligent use of this inestimable preparation. To attempt to cure bad legs by plastering the edges of the wound together is a folly; for should the skin unite, a boggy, diseased condition results in a few days. The only rational and successful treatment, as indicated by nature, is to reduce the inflammation in and about the wound and to soothe the neighboring parts by rubbing in plenty of the Ointment as salts forced into the meat.

Any of the above diseases may be cured by well rubbing the Ointment three times a day into the chest, throat and neck of the patient; it will soon penetrate, and give immediate relief. Medicine taken by the mouth must operate upon the whole system ere its influence can be felt in any local part, whereas the Ointment will do its work at once. Whoever tries the unguent in the above manner for the diseases named, or any similar disorders affecting the chest and throat, will find themselves relieved as by a charm.

Piles, Strictures, Scirrhus. The above class of complaints will be removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in the Ointment. Persons suffering from these distressing complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the Ointment on the affected parts, but it must be well rubbed in for some considerable time two or three times a day, that it may be taken into the system, whence it will remove any hidden sore or wound as effectually as though palpable to the eye. There again bread and water poultices, after the rubbing in of the Ointment, will do great service. It is the only sure treatment for female cases of cancer in the stomach, or where there may be a general bearing down.

Indiscretions of Youth; Sores and Ulcers. Blisters, as also swellings, can, with certainty, be radically cured if the Ointment be used freely, and the Pills be taken night and morning as recommended in the printed instructions. When treated in any other way they only dry up in one place to break out in another; whereas this Ointment will remove the humor from the system, and leave the patient vigorous and healthy being. It will require time with the use of the Pills to ensure a lasting cure.

Dropical Swellings, Paralysis and Stiff Joints. Although the above complaints differ widely in their origin and nature, yet they all require local treatment. Many of the worst cases, of such diseases, will yield in a comparatively short space of time when this Ointment is diligently rubbed into the parts affected, even after every other means have failed to afford relief. The Pills should be taken according to the printed directions accompanying each box.

Both the Ointment and Pills should be used in the following cases: Bad Legs, Chiefo-toot, Fistulas, Bad Breasts, Chilblains, Gout, Burns, Chapped hands, Gonorrhea, Corns (Soft) Swellings, Bite of Mosquitoes, Contracted and Pitted, Sand-Flies, Stiff Joints, Rheumatism, Cuts by, Elephantiasis, Scalds, Skin Diseases, Scurvy, Sore Nipples, Tumors, Ulcers, Sore-throats, Wounds, Yaws, Sore-heads.

CAUTION.—None are genuine unless the words "HOLLOWAY'S NEW METHOD AND REGISTERED" are discernible as a Water-mark in every leaf of the book of directions, around each pot or box; the same may be plainly seen by holding the leaf to the light. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines of vending the same, knowing them to be spurious.

Sold at the Manufactory of Professor Holloway, 50 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine throughout the civilized world, in pots, at 20c, 62c, and \$1 each.

There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients, in every disorder, are affixed to each box.

DAVID ROTH, Dealer in Hardware, Cedarware, Paints, Oils, Glass, Parlor, Cook, Hall and other Stoves, &c., MARKET-ST., MARIETTA.
