RESTORATIVE PILLS OF IRON.

every conceivable case.
Innoxious in all maladies in which it has been tried, it has proved absolutely curative in

need the following complaints, viz:

In Debility, Nervous Affections, Emaciation,

In cases of General Debility, whether the icsult of acute disease, or of the continued dim-inution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female Sufferers, emaciated victims of annarent marsayus sance. emaciated victims of apparent marasmus, sand guineous exhaustion, crittical changes, and that complication of nervous and dyspeptiaversion to air and exercise for which the phy-

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most obstinate cases of costiveness without ever being a gustric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms the forms them.

In Dispepsia, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendent Costiveness.

In unchecked Diarrhæa, even when advanced to Dysentary, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astociclism.
