Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances in a distant land. Some very signal instances of this kind are attested of female Sufferers, emaciated victims of apparent marasmus, sanc guineous exhaustion, crittical changes, and that complication of nervous and dyspeptiaversion to air and exercise for which the phy-

sician has no name.
In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and over-heating; and gently, regularly aperient, even in the most obstinate cases of costiveness with-

out ever being a gastric purgative, or inflicting a disagreeable sensation. It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms they

In Dispersia, innumerable as are its causes, a single box of these Chalybeate Pilis has often sufficed for the most habitual cases, including the attendent Costiveness. In unchecked Diarrhær, even when advanced to Dysentary, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debiliteit equals.

In the local pains, loss of flesh and strength, debilitating cough, and remitten, hectic, which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

The attention of females cannot be too con fidently invited to this remedy and restorative, in the cases peculiarly affecting them. In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In Intermittent Fevers it must necessarily be a great remoty and engretic restoration. a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and use-

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects.—Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.
