NEWS IN BRIEF.

Our latest advices from St. Domingo are to the 10th inst. The papers received from there contain nothing but manifestoes and declarations from the people of all parts of the ex-republic, breathing loyalty, gratitude, and devotion to the Spanish crown.

We observe by the Memphis journals that the committee of safety have forbidden the circulation in that community of Brownlow's Whig and the Louisville Journal.

It is the belief of the Union men in Kentucky that Guthrie is playing a deep game into the hands of the South, that while talking Union he is at heart for Secession.

The American Protestant Association, and the Menonite body of Christians, have taken open and decided ground in favor of sustaining the U.S. Government.

The farmers of Ohio are putting in the seed of the Chinese sugar cane, for the purpose of having a supply of molasses and sugar independent of the South.

The details of the new levy of 100,000 men will soon be made public, and it is probable that regiments now under way will be hastened into the field.

PAYING IN KIND.—A French paper says, "an American company of strolling singers, called the Alleghanies, gave in December last, in the Island of Hewey, one of Cook's Archipelago, a grand concert, which was attended by the King of the island, Makea. More than 2000 tickets were sold, and the receipts were 78 pigs, 98 turkeys, 116 fowls, 16,000 coconuts, 5700 pineapples, 418 oranges. It required a day and a half to embark these articles. The concert was of a vocal nature, and of several morceaux executed by means of bells of different sizes—from the diminutions of a bucket to those of a tumbler. The savages who composed the auditory listened open-mouthed, and remained motionless from admiration when the march from Norma was performed. At the end of the sitting, one of the principal personages present rose and gravely complimented the performers by saying, "We shall never forget you!"

General Harney was displaced from the command of the troops in Missouri, in consequence of entering into a sort of agreement with the commander of the State troops. This was much disapproved of by the Government, as it was a sort of quasi recognition of the State military as a separate entity. Also his refusal to protect the Union men in various parts of the State, from the cruelties of the secession fends, or of allowing them to form Home Guards for their own protection. The Government has not removed Harney from the command of Western Military Department; but simply detached Missouri from that department, and connected it with the command of Gen. McClellan.

Governor Hicks publishes, in the Baltimore American a letter relating to Mayor Brown's and Marshal Kane's agency in the burning of the bridges on the Philadelphia and North Central Railroad on the night of the brutal massacre of the Massachusetts and Pennsylvania troops in the streets of Baltimore. The Governor demonstrates that the bridge burning was but the execution of a deliberate and long existing plot. He fixes the guilt of both the Mayor and the Marshal. The latter is fairly gibbeted by means of one of his own traitorous telegraphic despatches. To let him go at large after the publication of that despatch will be offering a premium to treason, mob-law and murder.

The Baltimore Patriot has been reduced in size, in consequence of a dearth of advertising, the result of a suspension of business, which is itself the effect of secessionism in Baltimore. Baltimore has receded more than fifty years, by her mob influence and partisan zeal for disunion. Fifty years will not again restore her to the position she occupied one year ago, and the people of that city have themselves to blame.

The big gun, Union, which lately arrived at Baltimore from Pittsburg, weighing 56,000 lbs., 16 feet long and carrying a 600 lb. ball—went overboard, last Friday, in attempting at Locust Point to roll it upon board a schooner for transportation to Fortress Monroe. The weight was so great the schooner careened, and the gun rolled off into 12 feet water. It will take some time to raise it.

Gen. Butler has issued an order sternly forbidding the destruction of private property, and he also has refunded the amount of damage suffered by some in such attacks on their property. At Fort Monroe, the headquarters of Gen. Butler, there are over three hundred slaves registered as contraband property.

The Rhode Island boys are in clover. A letter from Washington mentions that Governor Sprague occasionally distributes several dollars to each of his men, and it is said that \$100,000 was set aside by his mother to supply any want of the regiment.

The Cape May (N. J.) Wave represents the prospects of the fruit crop as remarkably good. Peach trees look finer than for many years; apples, pears, and cherries uncommonly prosperous, and strawberries abundant.

The Richmond Whig, conceding the possibility that the rebellion will be subdued by the Government, declares that a British protectorate would be preferable to a return to the Union.

The last on dit is to the effect that Hon. Emerson Etheridge, of Tennessee, will be appointed resident minister to Portugal, in place of James E. Harvey, recalled.

The health of Henry A. Wise, of Virginia, is reported by the Richmond papers to be very precarious.

Costly.—The expenditure for rations and pay of a regiment, for a month, is about \$20,000.

The Boston Athenaeum contains the largest military library in the United States.

Nathan Sargent, Esq., of Washington City, has been appointed commissioner of customs.

The only colored nation in the world that coins its own specie is Hayti.

COL. JOHN A. WASHINGTON.—This creature, who dishonors the noble name and memory of the Father of his country, and who, when he saw the loyal citizens were determined to purchase Mount Vernon to present it to the country, like an avaricious speculator, charged an enormous price for it, has been prowling around with his band of traitors to steal what he so lately sold. His slaves, however, are not the faithful servants that he would try to make believe they are, for on Saturday one of them ran away and came within the lines of the Grand Army. The overseer, mounted upon a superb horse, had the mortification, on applying for the fugitive, to lose his horse, and to be sent home with tidings of his discomfiture to his master, the Colonel.

MICE POWER.—Some time ago we heard of a gentleman in Kirkaldy, who trained a couple of mice to spin cotton. The work is so constructed that the common mouse is enabled to make atonement to society for past offenses, by twisting twice, and weeling from 100 to 126 threads per day. To complete this, the little pedestrian has to run 10 1/2 miles. A half-penny worth of oatmeal, at 1s. 3d. per week, serves one of these treadmill culprits for the long period of five weeks. In that time it makes 110 threads per day. At this rate, a mouse earns 7s. 6d. per annum. Take off 5d. for food, and 1s. for machinery, there will arise 6s. clear for every mouse, per annum.

THE SECESSION CONSPIRACY.—Edward Everett, in a private letter, recently published, declares his knowledge of the fact that for thirty years leading Southern politicians had been resolved to break up the Union, and that the slavery question was but a pretext for keeping up agitation and holding the South together. The New York World is informed, from a trustworthy source, that one of the latest occupations of the now deceased Senator Douglas, was the partial preparation of a pamphlet exposing, from a personal knowledge similar to that from which Mr. Everett speaks, the secret machination and public plans of this great Southern conspiracy.

Postmaster General Blair, it is said, will require persons receiving letters from the Confederate States to pay the postage, notwithstanding they bear prepaid stamps, which are regarded as having been stolen by the seceded States from the Government of the United States, and, therefore, are not entitled to credit, no equivalent having been received for them.

Caleb Cushing (says the correspondent of the Springfield Republican,) has failed in business. Years ago he was concerned with Robert Rantoul in extensive speculations at the West, and it is on account of these, as I understand, that he is at last obliged to succumb.

Gen'l Huger, according to the New Orleans Crescent, is now in command at Norfolk. He was for a long time chief of the ordnance department at Fortress Monroe, and was with General Scott in Mexico.

HOLLOWAY'S PILLS AND OINTMENT.—The greatest plague of life. Piles and Fistula.—Though thousands are afflicted with these terrible scourges, few if any are acquainted with their cause or nature and resign themselves to the belief that they are incurable—but an explanation of their character will satisfy any man of common sense that they are remediable. Piles and their kindred diseases arise from costiveness, overstraining or neglected appeals of nature; by removing these we extinguish the exciting causes. Holloway's Pills renovate the stomach and invigorate the action of the bowels, and a few applications of the ointment to the seat of the disease will eradicate the piles forever—try them and be convinced.

PROF. DE GRATH'S ELECTRIC OIL has performed some miraculous cures in our city, at the Union Hall.

One gentleman, deaf for twenty years, has been restored to his hearing. Another, afflicted with Rheumatism, unable to raise his hands to his head, was cured in presence of a large audience. We will, therefore, recommend to all afflicted with Rheumatism, Deafness, Neuralgia, Sores, Pains, Burns, Frosted Hands and Feet, to get a bottle of De Grath's Electric Oil, as we saw his Oil perform cures which the medical faculty has been unable to make.—Hartford (Conn.) Daily Post.

Ask Mr. John A. Perry, of Manchester, what he knows about my Electric Oil. Ask all others present at the City Hall, if not 100 individuals were cured instantly by the application of the Electric Oil. Rheumatism, Neuralgia, in general, every thing sore or painful, has lost its terror.

HEALTH AND ITS PLEASURES! OR, DISEASE AND ITS AGONY!

HOLLOWAY'S PILLS.

NERVOUS DISORDERS. What is more fearful than the breaking down the nervous system? To be excitable or nervous in a small degree is most distressing, for where can a remedy be found? There is one—drink but little wine, beer, or spirits, or far better, none; take no coffee; break tea being preferred; get all the fresh air you can; take tree or four Pills every night; eat plenty of solids, avoiding the use of staps; and if these golden rules are followed, you will be happy in mind and strong in body, and forget you have any nerves.

MOTHERS AND DAUGHTERS. If there is one thing more than another for which these Pills are so famous it is their purifying properties, especially their power of cleansing the blood from all impurities, and removing dangerous and suspended secretions. Universally adopted as the one grand remedy for female complaints, they never fail, never weaken the system, and always bring about what is required.

SICK HEADACHES AND WANT OF APPETITE.

These feelings which so sadden us, most frequently arise from annoyances or troubles, from obstructed perspiration, or from eating and drinking what is unfit for us, thus disordering the liver and stomach. These organs must be regulated if you wish to be well. The Pills, if taken according to the printed instructions, will quickly restore a healthy action to both liver and stomach, whence follow as a natural consequence, a good appetite and a clear head. In the East and West Indies scarcely any other medicine is ever used for these disorders.

DISORDERS OF THE KIDNEYS.

In all diseases affecting these organs, whether they secrete too much or too little water; or whether they be afflicted with stones, gravel, or with aches and pains settled in the loins over the regions of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bed time. This treatment will give almost immediate relief when all other means have failed.

FOR STOMACHS OUT OF ORDER.

No medicine will so effectually improve the tone of the stomach as these Pills; they remove all acidity, occasioned either by intemperance or impure diet. They reach the liver and reduce it to a healthy action; they are wonderfully efficacious in case of spasms, in fact they never fail in curing all disorders of the liver and stomach.

Holloway's Pills are the best remedy known in the world for the following diseases.

- Ague, Dropsy, Inflammation, Asthma, Dysentery, Jaundice, Bilious Complaints, Erysipelas, Liver Complaints on the Female Sex, regularity, Lumbago, Sciatica, Bowel Complaints, Fevers of all Kinds, Colic, various kinds, Rheumatism, Constipation of the Pits, Retention of Urine, Head-ache, Scrophulous Consumption, Indigestion, King's Evil, Stone and Gravel, Tumours, Sore Throat, Secondary Symp-toms, Ulcers, Venereal Affections, Worms of all kinds, Tic-Douloureux, various kinds, Wounds, &c.

CAUTIONS.—None are genuine unless the words "HOLLOWAY, NEW YORK AND LONDON" are discernible as a Water-mark in every leaf of the book of directions around each pot or box; the same may be plainly seen by holding the leaf to the light. A large reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

Sold at the Manufactory of Professor Holloway, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine, throughout the civilized world, in boxes at 25 cents, 50 cents and \$1 each.

There is considerable saving by taking the larger sizes. DIRECTIONS for the guidance of patients in every disorder are affixed to each box. [7-8]
