

The Weekly Mariettian

None shall with impunity soil these sacred symbols of our Country's life, liberty and power.

Marietta, Pa.

SATURDAY, JUNE 29, 1861.

DR. RUSSELL AND HIS LETTERS.—Dr. Russell, L. L. D. Barrister at Law, and Correspondent of the London Times, seems to be quite a lion in his way...

Having obtained some celebrity as a descriptive writer, from his graphic accounts of the great battle scenes he had witnessed in the Crimean War and the Rebellion in India, he has been detailed, as it seems, to this land to perform a similar service for his employer...

It was natural to suppose that his principles, sympathies, and predilections would have been manifest on the side of justice, law, and liberty. It is with regret that we have been compelled by facts to believe that the very opposite of all this is the case.

It is rather a serious charge to bring against any man that he is untruthful, and yet that this special correspondent of the London Times is so, would appear from the following extract from a letter to the Editor of the Mobile Register, dated Mobile May 13, 1861.

"Sir: My attention has been called to a statement in Harper's Weekly couched in the following words: 'The proprietors have despatched an artist to the South in company with Mr. Russell, correspondent of the London Times.'"

"We think that the appointment of O. H. Browning, Esq., of Quincy, Illinois, to succeed Mr. Douglas, in the United States Senate is a very excellent one. We have enjoyed Mr. B.'s elegant hospitality, and we think we know him well."

"Hon. H. B. Wright has been nominated by both the Democratic and Republican conventions of the twelfth (Pa.) district as a Union candidate for Congress, to succeed the late Hon. Geo. W. Scranton, and has accepted both, repudiating all other issues than the support of the war and the crushing of the rebellion."

"Friday last (21st) was the recurrence of the Summer solstice, and consequently the longest day of the year has passed. The Sun will now continue to approach the equator until the 21st day of September, when it will cross the line, and as it recedes northwardly the cold weather will set in."

respondent W. H. Russell, L. L. D. Barrister at Law, as he delights to sign himself: This magnum Apollo of the press, this Doctor of Laws and Barrister at Law, it appears has been gulled down South into a belief of the idea that the South Carolinians and other ancient, gentlemanly, chivalrous, patriotic, soi-disant lordslings of that ilk, have long been burning with the laudable desire of returning to the good old golden glorious days of monarchical institutions...

At the fight at Big Bethel, one of the Massachusetts men ran up on the entrenchments, and seized a Sharpe's rifle out of the hands of one of the rebels, escaping unharmed.

An exchange says: "A lady who has just reached Memphis from Cincinnati, writes to her sister that she carried through, upon her person, forty pounds of powder, 10,000 percussion caps, and eight revolvers."

On Wednesday the 12th instant, the Newport Mercury completed its one hundred and third year of publication, having been established June 12, 1758, by James Franklin, brother of Benjamin.

At Navajas, Cuba, considerable blood was demanded and obtained for the revenge of an outraged husband. Juan Marcelo murdered his wife and child, and also the former's paramour, and then cut his own throat from ear to ear.

Hon. Joseph Holt, of Kentucky, (late Postmaster General) has published a long, eloquent, sterling, unconditional Union letter—a bright contrast to the old granny mouthings of the Crittenden Borderers.

The National Intelligencer quotes from President Jefferson's message to Congress arguing that no additional legislative action is necessary to suspend the writ of habeas corpus under circumstances like these under which the Government now exists.

We see it stated that the payment of the Volunteers by the Government will commence as soon as the pay-rolls can be made out. Now look for complaints of depreciated currency—another of the ways in which unprincipled men attempt to speculate in time of war.

The Confederates shot a man named Wilt, on Tuesday, because he would not enlist. His death has aroused a wonderful feeling of indignation in Beckley county, Virginia.

John S. McCalumot, President Judge of the Clarion Judicial District, has been appointed to a Colonelcy by Gov. Curtin. Col. McCalumot is a regular graduate of West Point.

E. Joy Morris, Philadelphia, having been appointed Minister to Turkey, has resigned his seat in Congress, and a special election has been ordered by the Governor, to fill the vacancy, on the 4 day of July next.

Mrs. Stephen A. Douglas arrived from Chicago on Wednesday, and is stopping at her late residence, Minnesota row. She was accompanied by the sons of the late Judge Douglas.

The next Congress.—On Thursday next the extra session of Congress will convene. The contest for Speaker of the House will probably be between Galusha A. Grow, of Penn., and Frank P. Blair, of Missouri—good and true men, for both of whom many would like to vote.

OLD GENERAL MARBLE.—A few days since, when the Home Guard at West Newton, Pa., wished to hurry up to Morgantown, Va., to drive away the rebels reported to be there, they sent to their Captain, old General Marble, for their arms.

THE ERIE RAILROAD.—We learn from the Harrisburg Telegraph, that an arrangement has been effected by which the Pennsylvania Central Railroad takes a permanent lease of the Erie.

NO STATE FAIR.—The officers of the State Agricultural Society have determined not to hold a fair this season. In many counties the usual local exhibitions will also be dispensed with.

FLINT LOCKS.—We are glad to hear that the Adjutant General is about to collect all the arms in the State, and those with flint locks will be immediately altered and approved.

ANOTHER REGIMENT.—Colonel J. W. Geary, who commanded the Second Regiment of Pennsylvania Volunteers in Mexico, has received from President Lincoln an order to raise a regiment of volunteers for the war.

DESSERTERS.—The Court Martial, convened at Carlisle Barracks lately, sentenced three captured deserters to be flogged, branded and drummed out of service. The fellows were tied up to the gun carriages, received thirty lashes each, and then escorted out of the garrison, in presence of the entire command.

MISSOURI.—Gov. Jackson has at last thrown off his disguise and called for 50,000 men to oppose the U. S., but has fled from Jefferson City, his Capital, it is reported. Gen. Lyon is in command of the U. S. forces, and it was said at St. Louis would soon form a junction at Jefferson City with Col. Curtis of Iowa and a Union battalion from Quincy.

CURE FOR BURNS.—A medical journal states that by lying a piece of cold charcoal upon a burn, the pain subsides immediately. By leaving the charcoal on one hour, the wound is healed, as has been demonstrated on several occasions.

BE PATIENT.—Many people are growing impatient because the Administration is not more rapid in its movements against the rebels. Such people should learn to exercise more patience.

A NEW FEATURE.—Dr. Holmes of New York, the celebrated Embalmist, has received a commission as surgeon in the United States army. His duty will be to embalm all those killed in battle whose bodies it may be desirable to preserve.

The Pennsylvania Regiments now arriving in Washington city, are pronounced on all sides to be the most substantially if not ornamentally uniformed of any of the volunteers from any section of the country that have yet reached the federal capital.

Leesburg, to which it is supposed the Confederate forces from Harper's Ferry have gone, is the capital of Loudoun county, Va., and lies within three miles of the Potomac and 150 miles north of Richmond, and about 37 miles from Washington.

The Republicans of the Second Congressional District, have brought out the Hon. William M. Meredith as an independent candidate for Congress. Mr. Meredith has only recently been appointed Attorney General of Pennsylvania, in which position he can serve his country in this crisis equally as well as if he were in Congress.

The case of John Merryman, now confined at Fort Mifflin, will soon come up before the U. S. District Court, as we see by a paragraph in the Towson (Md.) Advocate, that the Deputy U. S. Marshal has been summoning witnesses in the county to appear before the grand jury.

John Ross, principal chief of the Cherokees, has issued a sensible proclamation, urging his people to be true to their treaties with the Union and to take no part in the war.

Newspapers generally seem to be suffering severely. The New York Courier and Enquirer is to be merged into the World, and the Times and the Journal of Commerce have reduced their size.

General N. P. Banks had Marshal Kane of Baltimore, arrested on the charge of secretly aiding the secession party there. He was taken to Fort Mifflin on Thursday last.

Gen'l McClellan contradicts the report of having made any terms with Gen. Buckner of Kentucky.

HEALTH AND ITS PLEASURES! OR, DISEASE AND ITS AGONIES! CHOOSE BETWEEN THEM.

HOLLOWAY'S PILLS. NERVOUS DISORDERS. What is more fearful than the breaking down of the nervous system? To be excited or nervous in a small degree is most distressing, for where can a person be found?

DISORDERS OF THE KIDNEYS. In all diseases affecting these organs, whether they secrete too much or too little water; or whether they be afflicted with stone or gravel; or with aches and pains settled in the loins; or over the regions of the kidneys, these Pills should be taken according to the directions, and the Ointment should be well rubbed into the small of the back at bed time.

FOR STOMACHS OUT OF ORDER. No medicine will so effectually improve the tone of the stomach as these Pills: they remove all acidity, occasioned either by intemperance or improper diet. They reach the liver and reduce it to a healthy action; they are wonderfully efficacious in case of spasms, in fact they never fail in curing all disorders of the liver and stomach.

THE WORDS OF THE WATER-CURE are such, that if they were generally known, the healers of drugs might throw their physic to the dogs, for the people—except a certain portion of them—would have none of it.

READ THE FOLLOWING! Professor J. M. Smith, M. D., of the New-York College of Physicians and Surgeons, says: "All medicines which enter the circulation poison the blood."

JOHN CAMERO, M. D., corner of Front and Gay streets, Marietta, practices the Hygienic Water-Cure system exclusively, and confidently submits that it is perfectly and generally applicable in every curable disease.

DAVID ROTH, Dealer in Hardware, Cedarware, Paints, Oils, Glass, Parlor, Cook, Hall and other Stoves, &c., MARKET-ST., MARIETTA.
