The Presbytery of Richland met at Ches terville, Morrow County, Ohio, on the 10th inst., and during its sessions, besides attending to the usual business of the stated Spring meeting, adopted the following resolutions, viz.:

All of these young brethren, both those ordained, and those licensed, received their theological training in the West-ern Theological Seminary, and the last four are graduates of Washington College, Pa. The other is an alumnus of Jefferson. The voice of the Presbytery was given in op-

Atlantic Monthly, for May.

While this is not equal to either of the two preceding numbers, it is still quite readable. The editorial review of Lord Vernon's new edition of Dante is one of the best articles. Another paper that will attract attention just now, is Webster and Worcester, in which the preference is decidedly given to the latter. The "Profesor's Story" is pretty dull. Miss Maria Mitchell, of the Nantucket Observatory, contributes a well-written paper on the late Mrs. Somerville. Miss Prescott has a powerful story called "Circumstance." And Mr. E. P. Whipple gives a fine intellectual portrait of Hawthorne. The other articles are of average merit. For sale in Naples was crushed. The May number of this popular and instructive monthly is on our table. The contents are varied and valuable, as will be seen by reference to the advertisement in another column. The illustrated articles are unusually interesting. They are :-- "Loungings in the Footprints of the-Pioneers," descriptive of Sir Walter Raleigh and the city that bears his honored name in North' Carolina, together with other places in its vicinity; "Ancient Monuments in the United States," by E. G. Squier; "The Silk-Worm," containing a full account of its progress, from its beginning to its maturity. There is an article by the Rev. Dr. Plumer, of the Western Theological Seminary, entitled "Mary Reynolds; A Case of Double Consciousness," that will be carefully from this Presbytery to join the Presbytery of South Alabama, and that the usual testimonials be forwarded to him.

Bronchial Troches.

We occasionally come across a chance and unsolicited notice of some well established medical remedy which conveys more than the most elaborate notice. A case in point occurs in the following extract from N. P. Willis's description of a visit to Washington Irving, at Sunny Side.

"The honored invalid complaining a little of hoarseness in his voice, I mentioned to him an alleviate I had lately chanced upon myself for a similar trouble—asking accidently for some help to my hoarseness in an apothecary's shop and getting a lozenge with a most mysterious name, which I had since found an invariable throat deepener for three notes in the gamut. I contrived to call to memory the Ossawatamytic inscription on the box, ('Brown's Bronchial Troches,') and I was amused with the affectionate playfulness with which Mr. Irving called on one of his nieces, (explaining aside, this is my doctor,) to remember the name of the medi-

Another Case of Fever and Ague Cured.

A few days ago we recorded an astonishing cure of Fever and Ague by the use of Dr. M'-Lane's Liver Pills, prepared by Fleming Bros., Pittsburgh, Pa. We have now another to mention, viz.: that of Mr. James Sharpe, of Madisonburg, who states that he had labored under a very severe attack of Ague and Fever, and was soon restored by the use of these Pills. Mr. Sharpe also expresses an opinion, founded on observation, that the Liver Pills are the best for bilious complaints ever offered in his section of country.

Although long known as a sovereign remedy for chronic cases of Hepatic derangement, of liseases of the Liver, the proprietors, Fleming Bros., of Dr. M'Lane's Pills, were not prepared for the frequent but gratifying evidences of its The Presbytery of Washington met at Wellsburg, Va., on the 17th inst., and countined in session over two days. Here is a wonderful change in affairs. The people are allowed to vote. Parma, Modena, Tuscany, and the Romagna, by a popular vote, choose to be attached to Sardinia. The present Number completes the Twentern Volume of Harper's New Monthly Magazine. When, ten years ago, the Publishers proposed to issue a Magazine which "should place within the roach of the great mass of the American People the unbounded treasures of the Periodical Literature of the day," they did not dare to hope that within fire years a circle of American writers would be gathered, whose contributions, as far as the Magazine is concerned, should maintage the productions of their European Contemporations of their European Contemporations of their European Contemporations. a circle of American writers, would be gathered, whose contributions, as far as the Magazine is concerned, should mainly supersede the productions of their European Contemporaties. But with each successive year the number and value of the Original Papers has increased, and for five years the Magazine has been principally filled with contributions, written expressly for its pages, by American Authors. There is no section, and hardly a State in the Union, which has not been represented in its pages. The Publishers believe that the Twenty Volumes of the Magazine contain a more copious exhibition of American Life, Character, and Thought than is embodied in any or all other publications of the kind.

The Contributors to the Magazine reside in every part of the Union, and hold their own opinions upon the exciting questions of the day. The Publishers will not inquire what these opinions are, or how they are expressed beyond the pages of the Magazine. No article will be accepted or declined because the writer agrees with or, dissents from their views upon subjects foreign to the article itself. But the Editors will exercise the most watchful care that nothing shall appear in the Magazine which shall render it an unwelcome visitor in any household in any part of the country. In closing the first decade of the Magazine, the Publishers think themselves warranted in assuring their Readers that their command, will enable them tomake it still more worthy of the vory liberal support which it has received. The main features which have given it its distinguishing character will be retained, and such others will be added as their experience has shown to be desirable. In an early Number will be commenced a Novel of American Life and Character, written by an Author whose isolated Tales have been received with marked favor.

PRESBYTERIAN BOARD OF PUBLICATION,
17-8t No. 821 Chestnut Street, Philadelphi

The subscriber is now issuing one hundred thousand Splendid Colored Engravings of REMBRANDT PEALE'S celebrated Original Painting of the COURT OF DEATH,

the unprecedented low price of ONLY ONE DOLLAR EACH. Size, 23 By 31 INCHES. The lowest regular price for engravings of the size and quality of this is \$5—and in answer to the question, "How can they be sold for One Dollar" the subscriber would state that instead of issuing 5,000 copies at \$5, he issues 100,000 copies at \$1. The main expense of such a work is not in the paper and printing, but in getting up the plates. If 5,000 only are sold, \$5 is but a fair price. But if 100,000 are sold at \$1, the aggregate profits are larger than on the 5,000.

The Original Painting, of which the Engravings are a PAC-SINIE copy, was painted by Rembrandt Peale in the city of Baltimore, in 1820, and has been the study and admiration of tens of thousands of our citizens. It has long been valued at

25,000 Dollars. Death is personified as a King or Monarch, and there is not a skeleton or anything repulsive in the picture.

There are TWEXIX-THREE FULL-SIZED FIGURES in the engraving, and arranged into five groups, presenting living representations of Death, War, Sensual Pleasure, Intemperance, and the Triumphs of Christian Faith over the Terrors of Death

ance, and the Triumphs of Christian Faith over the Terrors of Death.

It is a work to delight the eye and improve the heart. It can be studied and understood by a child, while its sublime conception affords scope to the strongest imagination.

It has been made the subject of special discourse by Rev. Dr. Sprague, Rev. Dr. Welch, Rev. Dr. Bacon, Rev. Dr. Cleveland, Rev. Dr. Waland, and others.

A more impressive, instructive, or beautiful Parlor Ornoment could not be purchased.

The subscriber was advised to have the drapery of the figures brilliaht and showy, to gratify the fists of the "country people," but he determined to imitate exactly the rich mellow tints of the original painting in this respect. The wisdom of, this decision is verified not only by the Artists in this city, but by the venerable Rembrandt Pedie himself, as will be seen by the following unqualified certificate:

"I have seen the Chromo-Lithographic Engraving of my Painting of the Court of Death, recently executed for Dr. G. Q. Colton, (the present proprietor) by Sarony, Major & Knapp, of New York, and can certify that it is an accurate and admirable copy of the original Painting.

A NEW ERAIN Sewing

MACHINES: During the last fourteen years, some four hundred patents have been granted on inventions designed to lighten the drudgery of family sewing, and at the same time to produce a machine that could be profitably used for manufacturing purposes; but, strange to say, out of this large nimber of Sewing Machines, only some half dozen have been, proyen to be of practical value; and of this small number, not one has in it combined the advantages of a family and manufacturing machine. There are large, heavy, noisy, cumbrous, and complicated machines, designed for heavy work, that answer the purpose very well; while, there are others of light mechanism and delicate adjustments, which perform on light work to advantage; and while the former are exclusively confined to heavy work, the latter are of little value, except on light fabrics. Therefore it take great pleasure in stating the important fact that Mr. Howy, the original inventor of Sewing Machines; has recently perfected his Simitle Machine, so as to combine, in a much smaller space, and with far less machinery, the strength and durability of the manufacturing machines, and at the same time possessing that delicacy of movement and ease of operation peculiar to the family machine, and which reinders this life only machine in market capable of working equally well the lightest and heavest fabrics, and is therefore designed for

ALL KINDS OF WORK! For Shirt-makers, Vest-makers, Tailors, Shoe-binders, Gaffer-fitters, Harness-makers, Carriage-trimmers, as well as for all varieties of FAMILY SEWING; THE HOWE MACHINE It he only one that can give satisfaction; and they will be sold for one-half the money charged for any other machine capable of doing as heavy work in as good a manner. These machines cannot be got out of order by any fair means, and they will be fully warranted for one or more years. They will stitch, hem, tack, cord, bind, gather, and fell, without basing—making the lock-stick seam faills on both sides of great beauty, strength, and elasticity, and which cannot be ripped or raveled.

The public are cordially invited to call at my rooms, NO. 26 FIFTH STREET, up stairs, and thoroughly test these machines on all kinds of work; don't be satisfied by merely seeing a Machine sew on a rag, but bring along your lightest and heaviest work, and put the Machine to the most rigid tests. set and heaviest work, and put the machine to the sale of thesis.
