Narrative of the State of Religion in Council

And whilst the larger portions of the accessions to our churches have been from immigration, we Sultan some three years ago, has have reason to bless God that he has made his Word effectual in the salvation of precious souls. Surely no land promises to yield a richer harvest to the labor of the faithful missionary of the Cross, than Western Iowa; and whilst our feeble and destitute churches raise the cry, "Give us the bread of life for ourselves and for our children,' we too, as members of Presbytery, would lift up our voices, first to our Father in heaven, and then to our Board of Missions and to: the ministers who are unemployed, and say, "Come over into Macedonia and help us."

M., on the 24th ult. Rev. Mr. Foresman preached the opening sermon. Rev. Prof. Cattell, was chosen Moderator, and Mr. J. S. Labar, Tempor-

arv Clerk. The pastoral relations existing between Rev. Valley, and between Rev. H. M. Hunt and the churches of Pleasant Grove and Mansfield Second, were dissolved, and supplies appointed until the next meeting of Presbytery.
Rev. Messrs. T. B. Condit and W. R. Glen were chosen clerical Commissioners to the Genoral Assembly, with Elders Dr. W. P. Vail and

James Stewart. A requirement was made of all candidates unthe the care of this Presbytery, to furnish at
every Spring meeting some satisfactory report as
to their standing, diligence, and character, from
their teachers or Professors.

The evenings were spent entirely in devotional

exercises.
The Statistical Reports show an addition to MISCULLIANEOUS.—James H. Wilson, Earlville, the churches of one hundred and ninety-four ll., \$2.00; A Friend, Wheeling, Va., 100.00; during the year, and a total of three thousand eight hundred and twenty-six./.

The next meeting was appointed at Bloomsburg, on the first Tuesday of October.

For the Presbyterian Banner. An Interesting Field for Christian Effort. MESSRS. EDITORS :- While earnest and active followers of the Lord Jesus are doing much for the spiritual welfare of the destitute of our community, there is one class who seem to have been greatly overlooked. Nothing, so far as I am aware, has been done, specially for them. I refer to the operatives on our railroads. The number of these in and about our two cities. must amount to hundreds, and while it is a source of gratification, that some of these are included within the household of faith, it is a mournful truth that a great majority are "without God in the world," and withto bring men to a knowledge of the truth ifications required by the service is high, and it is probable that no other class of artisans or employees in the community comprises as much integrity, sobriety, and fidelity. Mostly young men, in the prime of life, they form a portion of society for whose spiritual well-being those who are

animated by the love of souls, ought to be actively and prayerfully engaged. It has come to my knowledge, that at the different Round Houses on every Sabbath, there are congregated large numbers of burgh, Fort Wayne and Chicago Railroad, there are men enough to furnish a respectour Young Men's Associations, perhapsmay be induced to consider the suggestion and act upon it. And I can, knowingly, give the assurance, that any earnest and proper-ly conducted effort in this direction, will meet with a hearty and grateful cooperation ed here at half-past nine o'clock making the trip on the part of railroad men themselves. in seven days and four hours. The Pony Ex-Many of them would rejoice to have such an press wh enterprise begun, and I have not a doubt

will not the reader pray for railroad men? This body failed to agree upon either a platform or a candidate. After the adoption of the majority platform, and the secession of a large portion if the representatives of the Cotton States, efforts were made to nominate a candidate for the Presidency. The old rule of a two-third vote was agreed to, and it was also agreed that the nominee must have two-thirds of the whole number. This gave the Secessionists the same power, when absent, as though they had been present. Some fifty-six ballotings were had. Judge Douglas received a bare majority, but came immensely short of two-thirds. Finding a nomination impossible, the Convention adjourned to meet in Baltimore, June 18th. The Secessionists had several meetings, but

made no nominations. This is the most serious split which has occurred in the history of the Democratic party. It out the enjoyment of the means necessary is also the strongest sectional manifestation which has occurred. Some Northerners opposed Douas it in Jesus. As a general rule, they are glas, and a few Southerners supported him; but a noble set of men. The standard of qualthe contest was mainly on the Slavery question. This seems to be now the question, not only between Republicans and Democrats, but between Democrats North and Democrats South. Much wisdom and great firmness are needed to guide the ship amidst the breakers.

The Galway, at St. Johns, N. F., had foreign news to April 29th 11/2 1011114 11116 (11) The proceedings in Parliament were unimportant. The Reform bill has been debated, but no action taken. The English and French Ambassadors had sailed for China. The Chinese were reported to be making great preparations for the expected war. ... It is stated that Austria, Russia, and Prussia have agreed to the European Confer-

ence at Paris, on the Swiss question. FRANCE. The Emperor has decided on two military expeditions, which are to set out, one from Algeria, and another from Sengal, to proceed to Timbuctoo, where they are to unite. A large sum has been placed to the credit of the Minister of War

and points out that the surest means of warding them off is to accept the propositions contained in the letter of King Victor Emmanuel. The voting on the question of annexation to France took place on the 22d. The French accounts show almost unanimity for the annexation.

Preparations have commenced at Hong Kong and Shanghai in good earnest. The four vessels from Shanghai, which were announced as having sailed under sealed orders, comprise H. M. ships Samson, Acticon, Dove, and gunboat Algerine; two of these vessels are well-known surveying vessels, and it is given on good authority that this small expedition is intended to reconnoitre in the Gulf of Pecheli and the mouth of the

Peiho, and to take possession of some convenient slip, of land, which will be serviceable to our troops. A statement is also current that they were dispatched to capture some trading junks which had left Shanghai for the Peiho, and supposed to be leaded with agree and amountains.

No. 23 North-Sixth Street. Philadelphia: posed to be loaded with arms and ammunition. It is also stated that the Chibese Government are casting heavy guns, and using large quantities of American anthracite coal for this purpose. Guns of the largest calibre have also been im ported from the United States.

Her Majesty's ship Imperiouse, fifty-one guns, bearing the flug of Rear Admiral Jones, C. B., second in command, left Hong Kong for Shangliai, on the 22d of February. She took up six boats, each capable of landing one hundred men, a large number, of tents, and a bridge or men, a large number of tents, and a bridge or pier, which could be made available for landing troops over the mud. She also had on board field carriages, for mounting her thirty-two pounders, and a large quantity of ammunition and war stores. The British and French naval commanders are engaged at Hong Kong in charter ing vessels and steamers, organizing a Chinese Coolie corps, and other necessary measures. General Montauban, the French military com-mander-in-Chief, has also arrived in France, and he Quartermaster-General of the British army. From these active operations it may be argued that it is intended to push the expedition to the North during the present month, in perfect read-iners for the decision of Lord Elgin and his French colleague, Baron Gros. The delay in their departure will consequently be a source great disappointment and anxiety. Nothing of a reliable nature has been heard of the action or itentions of the Court of Pekin, nor of our Ambassador, Mr. Bruce. It is rumored that the Taku forts have been dismantled, in order to strengthen those at Tientsin: There have been no further reinforcements from India. The Ringdove, Magictenne, Hooghty: and Fury, were engaged in towing vessels from the Straits of Malacca up to Singapore.

THE COURT OF DEATH. The subscriber is now issuing one hundred thousand plendid Colored Engravings of REMBRANDT PEALE'S elebrated Original Painting of the

COURT OF DEATH, the unprecedented low price of ONLY ONE DOLLAR EACH.

Size, 23 BY 31 INCHES. SIZE, ZZ SY 31 INCHES.

The lowest regular price for engrayings of the size, and quality of this is \$5.—and in answer to the question, "How can they be sold for One Dollar?" the subscriber would state that instead of issuing 5,000 copies at \$5, he issues 100,000 copies at \$1. The main expense of such a work is not in the paper and printing, but in getting up the plates. If 5,000 only are sold, \$5 is but a fair price. But if 100,000 are sold at \$1, the aggregate profits are larger than on the 5,000.

The Original Pulping, of which the Engravings are a PAC-SIMLE copy, was painted by Rembrant Peals in the city of Baltimore, in 1320, and has been the study and admiration of tens of thousands of our citizens. It has long been valued at 25.000 Dollars.

Death is personified as a King or Monarch, and there is not a skeleton or anything repulsive in the picture.

There are TWENTY-HIRE FULL-SIZED FIGURES in the engraving, and arranged into five groups, presenting living representations of Death, War, Sensual Pleasure, Intemperance, and the Triumphs of Christian Faith over the Terrors of Death. ance, and the Triumphs of Christian Faith over the Terrors of Death.

It is a work to delight the eye and improve the heart. It can be studied and understood by a child, while its sublime conception affords scope to the strongest imagination.

It has been made the subject of special discourse by Rev. Dr. Sprague, Rev. Dr. Welch, Rev. Dr. Bacon, Rev. Dr. Cleveland, Rev. Dr. Wayland, and others.

A more impressive, instructive, or beautiful Parlor Ornament could not be purchased.

The subscriber was advised to have the drapery of the figures brilliant and showy, to graftly (the tiste of the "country people," but he determined to imitate exactly the rich mellow tints of the original painting in this respect. The wisdom of this decision is verified not only by the Artists in this city, but by the venerable Rembrandt Peale himself, as will be seen by the following unqualified certificate:

Sewing MACHINES: During the last fourteen years, some four hundred patents have been granted on inventions designed to lighten the drudgery of family sewing, and at the same time to produce a machine that could be profitably used for manufacturing purposes; but, strange to say, out of this large number of Sewing-Machines, only some half dozen have been proven to be of practical value; and of this small number, not one has in it combined the advantages of a family and manufacturing machine. There are large, heavy, nolsy, cumbrous, and complicated machines; designed for heavy work, that answer the purpose very well; while there are others of light mechanism and delicate adjustments, which perform on light work to advantage; and while the former are exclusively confined to heavy work, the latter are of little value, except on light fabrics. Therefore I take great pleasure in stating the important fact that Mr. Howz, the original inventor of Sewing Machines, has recently perfected his Shuttle Machine so as to combine, in a much smaller space and with far less machinery, the strength and durability of the manufacturing machines, and at the same time possessing that idelicacy of movement and ease of operation peculiar to the family machine, and which renders this the only machine in incarket capable of working equally well the kightest and

market capable of working equally well the lightest and services fabrics, and is therefore designed for ALL KINDS OF WORK ! r Shirt-makers, Vest-makers, Tailors, Shoc-binders, Gaiter-ters, Harness-makers, Carriage-trimmers, as well as for all tricties of FAMILY SEWING, THE HOWE MACHINE THE HOWE MACHINE

Is the only one that can give satisfaction; and they will be sold for one-half the money charged for any other machine capable of doing as heavy work in as good a manner. These machines cannot be got out of order by any fair means, and they will be fully warranted for one or more years. They will stitch, hem, tuck, cord, bind, gather, and fell, without basting—making the lock-stich seam (alike on both sides) of great beauty, strength, and elasticity, and which cannot be ripped or raveled.

The public are cordially invited to call at my rooms, NO. 26 FIFTH STREET, up stairs, and thoroughly test these machines on all kinds of work; don't be satisfied by merely seeing a Machine sew on a rag, but bring along your lightest.

Active and responsible Agents are wanted for the sale of these Machines, upon liberal terms. Please send for samples of work and particulars of agency. Address
