ought to be sufficient to convince the understanding of a man. A greater than an archangel, Jesus Christ himself, finds rest in this last and highest of all reasons, " Even so, Father, for so it seemeth good in thy sight," so is thy good pleasure. The whole argument of the Apostle may be summed up thus:-There are persons chosen. Who are they? All Christians. the elect.

There was a certain definite end to which they were chosen. What was it? To be holy and blameless in love. There was a certain period at which the election took place. When was it? Before the foundation of the world.

There was one qualified Elector, and but one. Who was it? God the Father. There were certain reasons that influenced the infinite mind of the Father in this election. What were they? Such was the good pleasure of his will. "Having predestinated us to the adoption of children by Jesus Christ to himself according to the good pleasure of his will." JOHN SMITH.

Cost of Living in a Country Parsonage. The following simple statement from the New-York Evangelist tells a tale of rigid economy and careful saving. What lawyer of equal ability, or what physician of ordinary practice, would think himself

well paid by a salary of \$550. April, 1, 1859, the writer began to keep an accurate account of the expenses of living in the parsonage he occupies. Let me premise by saying that my family consists of a wife and three children; that I am living in a parish in South-Western New-York, among a very kind and thoughtful people; that my salary is \$550 per annum, which is cheerfully and promptly paid; and that not one dollar of unnecessary expense has been incurred during the year. The account foots up as follows:

Provisions used in the house exclusive f what a good garden furnished \$148.57 Fuel and lights..... Travelling and incidentals .. Books, papers, and postage.

Cows and horse-keeping.

To-Day!

Reader, you hope very likely to be a real Christian some time, and fit to go to heaven. You hope to repent and believe in Christ and have a good hope before you

die. But Why not to-day?

What is to prevent you? Why should you wait any longer? Why not this day awake and call upon your God, and resolve that you will sleep no longer? I set before you Jesus Christ the Saviour, who died to make atonement for sinners; Jesus, who is able to save to the uttermost; Jesus, willing to receive. The hand that was is in New Jersey, as appears by the following: nailed to the cross is held out to you in mercy. The eye that wept over Jerusalem is looking on you with pity. The voice that has said to many a wanderer, "Thy sins are forgiven," is saying to you, "Come unto me." Go to Jesus first and foremost, if you would know what step to take. Think not to wait for repentance and faith, and a new heart, but go to him just as you are. O! awake thou that sleep; est, and Christ shall give thee light. Why not to-day? Sun, moon, and stars are all witnessing against you.; they continue according to God's ordinances, and you are ever transgressing them. The grass, the birds, the very worms of the earth, are all witnessing against you; they fill their place in the creation, and you do not. Sabbaths and ordinances are continually witnessing against you; they are ever proclaiming that there is a God and a judgment, and you are living as if there were none. The tears and prayers of godly relations are witnessing against you; others are sorrowfully thinking you have a soul, though you seem to forget it. The very gravestones that you see weekly are witnessing against you; they are silently witnessing, "Life is uncertain, time is short the resurrection is yet to come, the Lord is at hand." All, all are saying, Awake. awake, awake! O reader! the time past may surely suffice you to have slept. Awake to be wise. Awake to be safe. Awake to be happy. And why not to-day? -Rev. J. C. Split in the Illinois Luthern Synod.

At the recent Lutheran Synod of North ern Illinois, the entire Scandinavian portion of that body, consisting of some twenty-four Swedish and Norwegian pastors, representing about sixty churches, withdrew on account of certain decided doctrinal differences which have for several years past been a source of strife and contention. Prof. Esbjorn, of the Springfield University, has resigned his position in that institution, and nearly all the Scandinavian students have returned to their homes. Measures have since been taken to organize a distinct Scandinavian Synod, and a Convention is called for that purpose, to assemble in Rock County, Wisconsin, 24.58 on the 5th of June. A Lutheran paper commenting upon these proceedings, gives the opinion that all the difficulties here referred to are attributed to Prof. Esbiorn's suspicions, and his want of acquaintance with the manner of conducting literary in-50.00 stitutions in America.

Preach Christ.

A young man had been preaching in the 1857 and 58 about Fraser River. The picture, however, according to the following from the New York Express, has been greatly overdrawn: "We have conversed with a number of miners, who returned in the steamer on Saturday night, and all concur in saying that the richness of the Washoe Valley, and other localities in Utah, has been vastly overrated. One gentleman told us that he had carefully inspected the whole locality, and that he did not believe there was a single claim that would pay for the working, with the excep-tion of the Virginia silver mine. Many of the 'claims' in this region, which have been sold in California the last Winter at such enormous prices, were, on the 20th of April, full eight feet inder the snow, and not one out of twenty were 'prospective.'

Destructive Tornado. We have heard of and seen numerous tornadoes in the West Indies as well as in this country, but we have never known of any other by which so much damage was done over so small an area as by one which devastated a portion of Jefferson County, on Wednesday. The village of Hess-ville, fourteen miles below Brookville, on Red Bank, was entirely overthrown, including some twenty houses with out-buildings. Hesse's grist and saw-mill, and a bridge over Red Bank creek, were carried away. Four persons were killed, and members of all the families were more or less injured. About a mile from Maysville, the upper story of a house and barn were struck by lightning and burned. A large por-tion of the forest in the vicinity was broken down and torn up. The course of the tornado was about a fourth of a mile wide, and over twenty miles long. Maysville is seventeen miles East of the Allegheny River. On the 12th they came upon the Indians at a bend of the Quickie river, sixty-five miles Northward toward Pyramid Lake, from Virginia City. The Indians were in ambush at Narrow Pass, through which Major Ormsby's party were proceeding, and numbered about five hundred, having plenty of fire-arms, ammunition, and five hundred horses within convenient distance. They opened fire upon the troops from their safe hiding-place.

Major Ormsby ordered a charge, but the Indians continued to skull, firing from behind the rocks and bushes, doing much damage, but suffering much in return.

This condition of things continued for two days, when the ammunition of Major Ormsby's

party gave out. The Indians seeing this closed upon them, pouring in volley after volley, killing many on the spot. The balance retreated, scattering in all directions. The Indians pursued them for twenty-five or thirty miles, cutting off many detached parties. 🤝

The stragglers came into Virginia City during the two subsequent days. The exact number of killed has not been ascertained, but it probably exceeds fifty. Among the slain are Major Ormsby, Harry Meredith, a distinguished California lawyer, William L. Speer, Richard Snowder, William Arrington, Charles McLeod, John F. Coning, S. The Crops. The season has advanced sufficiently to enable us to arrive at a tolerably reliable conclusion as to the prospects of the growing wheat crop. In the South, where the season is considerably ear-lier than in this latitude, the harvest will unquestionably prove unfavorable. Things are now too far advanced to admit of the hope of any change for clusion and separation of all that have been in contact with a diseased animal, and a proper compensation to the owners.

RUSSIA AND TURKEY. VIENNA May 19.—An impression prevails here that there will be very serious disturbances in European Turkey in the course of the Summer: but I learn from Bosna-Serai and Belgrade that there is for the moment no great danger of an insurrection on the part of the Christians. About three months ago the Russian Prince Dol-gorowki went to the Herzegovine and Bosnia, in order to see whether the Turks continued to op press and ill-treat the Christians, and he speedily cquired the conviction that the Hat-Houmayoum of 1856 was a dead letter in both provinces. The Prince expressed his sympathy for the unfortunate Rayahs, and strongly advised them to ask for the protection of the Czar. The advice was taken, and the petitions of the Bosnian Christians were forwarded by way of Belgrade to St. Petersburg. On the receipt of the documents Prince Gortschakoff showed them to the representatives of the Powers which were parties to the treaty of 1856. The English, Austrian, and Prussian Ministers were reserved, but the Duke of Montebello declared that the powers were bound to insist on the fulfillment of the promises made by the Sultan to his Christian subjects.

Obituary.

CENTS A LINE, NINE WORDS, BEING A LINE.] DIED—Near Newville. Cumberland, County, Pa., on the 22d of April, 1860, Miss REBECCA S., daughter of Mr. Hugh 3. and Mrs. I. J. M'Cune.

DIED—On the 19th of May, 1860, Mr. WILLIAM CRAW-FORD, Ruling Elder of New Providence church, Greene County, Pa. DIED—On Thursday morning, April 28th, at her home, Miss JOSEPHINE BIGHAM, daughter of Mr. and Mrs. Wm. Bigham, of New Gumberland, Va. The deceased had been in attendance at Mt. Vernon Fe ale Seminary, but had recently returned to spend the Sum mer at home, buoyant with the hopes of lite, and expecting,

after a recreation of a few months, to resume her studies.

After an illness of a few hours, she bade adicu to the society. of earth. She retired at night, weary with the actions of the day; at early morn her spirit waked where the "weary are Of gentle disposition, amiable manners, and winning tenderness, she gained the affection of all her fellow pupils, and the love of all her teachers. As a beloved pupil, her virtues are high in their admiration, and her name and place are yet fresh in their memories. By her parents she was more than daughter. She was reared with more than wonted tenderness, and therefore loved with the tenderest parental affection. She was in her eighteenth year—that interesting age when all the memories of childhood and the hopes of useful woman-hood blend together in the vision of fond parents. Her death has therefore made a breach which affection will remember, but earth can never heal. They are left childless lonely, and bereaved; but they "mourn not as those who have no hope." Taught by them the way of life, and influenced by their pious example, she early confessed Christ as her Saviour. For more than two years she had been a prayerful and consistent member of the church of New Cumberland. Even in their sorrows, then, these parents rejoice in the assurance that their "loss is her gain."

Com. PERRY'S JAPAN EXPEDI-D. APPLETON & CO., Nos. 443 and 445 Broadway. PUBLISH

A Narrative of the American Expedistation to Japan; COMPILED FROM THE ORIGINAL NOTES AND JOUR-NALS OF COMMODORE PERRY,

BY FRANCIS L. HAWKS, D. D. One volume, 8vo., with numerous Steel Plates, Wood Engravings. Cloth, \$5.00., Half calf, \$6.00., Full calf, \$7.00. gravings. Cloth, \$5.00. Half calf, \$6.00. Full calf, \$7.00. The Expedition to Japan was a splendid national enterprise, admirably planned in all its parts, and carried out with the most brilliant success. Similar expeditions had been sent to Japan by the most powerful nations of Europe, which had utterly failed to accomplish their object. But the ability, firmness, and address of Commodore Perry overcame every obstacle thrown in his way by the Government of Japan, and he obtained the desired treaty. The detailed account of every movement of the squadron, and, all the observations made in the different countries visited, form one of the most interesting volumes of travels ever published, They work is profusely illustrated with engravings from drawings made by the artists attached to the squadron. At Waltham, Mass. Attention is invited to the following statement and accompanying letters of recommendation and testimonials, in favor of these colebrated Watches. A gold medal was awarded to the Company by the Ameri-

an Institute, at New York, in 1857. The Company also received the first premium—a goluedal—from the Franklin Institute, Philadelphia, in 1858. These Watches have now been in the market for nearly ten ears, during which time they have been tested as to accuracy, durability, and reliability in every conceivable manner, and have proved themselves to be the most satisfactory timepieces ever offered to the public. This result has been brought about by a strict applica of mechanical science to the construction of the Watch from its very inception, rendering it when finished, mathematically orrect in all its proportions, and necessarily as perfect me-keeper as it is possible to make. The Company have tested their Watches in many instances

y actual daily noting, and the result of this test has been that they have exhibited a rate equal in regularity to the est marine chronometer. N. B .- We have just introduced a new style of Watch elaborately finished, and thinner than any, we have hitherto produced, with several improvements calculated to insure the greatest accuracy of performance, and to prevent the usual accidents and derangements to which foreign watches

The following is from Mr. PORTER, the well-known Marine ronomeer and Watch Maker: Mr. R. E. Robbins, Treasurer, &c. Dear Sir :- Since my note to you of September, 1859, I have sold a number of your Company's watches, and hear good reports from them without exception. They give me no trouble and my customers every satisfaction. Recently a ship-master to whom I sold one last year, called to say that nometer having broken down at sea, he navigated his vossel safely home by his Waltham Watch. Yours, truly,

Gro. E. POERRON

MERICAN WATCH COMPANY, Waltham :... Gentlemen :- Having carried one of your Watches for the ast eighteen months, I can say confidently that they will do, and may be bought with assurance that they will keep time. I believe the watch unsurpassed. HORACE GREELEY. Book Room, No. 200 Mulberry St., New York, February 6, 1860.

anufactory of the American Watch Company, and that it as given perfect satisfaction as a time-keeper. Judging from the one I have, I do not hesitate to predict that the day s not far distant when watches made in the United State will supersede all others. JAMES FLOY, D.D. WILTON BLUFF, S. C., October, 20, 1859. R. E. Robbins, Esq.: Dear Sir:-The three watches of your manufacture which I purchased to be used on my plantation, have proved to be the most correct time-keepers I have ever known. I gave my head servant, my head carpenter, and my head engineer, each one of them; and since they have been in their respectsion, every thing on the plantation has moved like

ive possession, every thing on the plantation has moved like clock-work, in consequence of the extreme accuracy and reg-ularity with which these watches perform. Yours, truly, Lewis Morris.

CHICAGO, Ill., March, 1860.

American Watch Company, Waltham, Mass. I have tested with extreme care the running of the watch bought of you, now nearly a year since, and so accurate and equable has been its performances that I have thought it would interest you, and all others familiar with horology, to see a record of its variations. It was finally set to true time

after it had been regulating in my possession for three months. Since which time its average monthly variations has not xcooded six seconds. Norman Wiard. CAUTION .- As our watch is now extensively counterfeited by foreign manufacturors, we have to inform the public that no watch is of our production which is unaccompanied by a certificate of gonuineness, bearing the number of the watch, and signed by our Treasurer, R. E. Robbins, or by our predecessors, Appleton, Tracy & Co.

As these watches are for sale by jewelers generally

throughout the Union, the American Watch Company do not solicit orders for single watches. ROBBINS & APPLETON. Wholesale Agents, my26-3meowt No. 182 Broadway, New York. TEETH.
