The Turkish Government must and will be required to protect all the "Christian populations" in their religious as well as their civil rights. But what is to become of Turkey? We know not. We are, nevertheless, confident that nothing but the diffusion of the Gospel, both among the down-trodden and superstitious Christians, and among the Turks themselves, can save that empire from utter dissolution.

Should the Turkish Government go down, we must fear that Russia will further aggrandize herself by greatly extending her boundary Southward; Austria may get a portion, and France will be likely to re-

ceive Syria and Egypt.

But whilst the Ottoman empire endures, and the door remains open to the Gospel, be done that can be, to disseminate widely the reading and the hearing of the Gospel that can save men; and it is only by the influence of true Christianity that such nations as the Turks can be civilized, and saved from destruction .- The World.

Presbyterianism.

The cause of Presbyterianism is beginning to revive in many different countries. This revival is proportional to the increase of vitality in different churches.

The present awakening in Sweeden i marked by a desire for the requiring of Synodical power. The King of Prussia, who, notwithstanding many unwarranted calumnies, has long been a steadfast and carnest Christian, was anxious, for many years to establish a Presbyterian government, based chiefly on the Scottish model, but was deterred by the dead state of the community, who, he feared, would appoint rationalistic elders and representatives. The Prince of Prussia has, within the last few weeks, taken the bold step of proclaiming a Presbyterian organization for the Church of the Eastern provinces, where no such organization before existed. In the Rhine provinces, Presbyteries and Synods have long been held.

In Hungary, the Church is struggling for the action of her Synods, and the maintenance of her old Scriptural forms of government. In France, the desire for independent Presbyterial and Synodical action is strong. The more earnest ministers of the National Church wait impatiently for

Mormon Emigration. The matter of emigrating, en masse, by the Mormons, to some unoccupied territory in the wrong reading of the Greek text. The manuscript is believed to be older than any acquainted in the region contemplated, leads the enterprise. Brigham Young is said to have given his consent; and the main difficulty in the way seems to be the sale, to Government, of their improvements in Utah. This they are yet unable to accomplish. It would be well to get rid of such a people; and to buy them out at a reasonable rate would be wise, provided we could secure ourselves against the origin or coming, of others like them.

The Weather.

The Summer in this region, thus far, has been most delightful—cool, with a due mingling of sunshine and showers. Our Southern exchanges speak of unusual heat. The Montgomery (Ala.) Mail, of the 6th, says:

We learn that the thermometer marked 103° in several open houses in the city yesterday. One of our citizens who has kept a diary of the weather for thirty old years, says that the present is the hottest Summer since 1828. We have not known the mercury to range as high as 98° but once before in Montgomery, and that was, we believe, in 1856.

There had been several popular outbreaks, in which the police were severely handled; but at latest dates tranquility had been temporarily restored. Letters from Rome assert that a crisis there was also imminent. Garibaldi does not care to conceal his belief that the liberation of Rome and Naples, as well as the liberation of Sicily, form part of his mission. In Sicily, the liberal concessions of the Nea politan Government, far from checking the enterprise of the Dictator, have, on the contrary, determined him to precipitate the annexatio which he had previously been disposed to delay.

The universal suffrage of the people and army would be taken on the question of annexation of Sicily to Piedmont.

Lancaster C. H., S. C., May 12, 1856.

Dr. C. M. Jackson:—Dear Sir :—After my return from Mexico, I was seriously afflicted with that terrible disease, which has carried to the grave so many of my fellow-soldiers, Chronic Diarrhea, accompanied with Neuralgia, brought on by the climate of Mexico, and the mode of living while engaged in the war. The relief I obtained from the use of Hoofland's German Bitters, is astonishing; and I most cheerfully have, and still continue to recommend the Bitters to all who are similarly affected, believing that the benefit that will result from their use will be incalculable.

AMERICAN WATCHES. MADE BY THE AMERICAN WATCH COMPANY,

At Waltham, Mass.

Attention is invited to the following statement and accompanying letters of recommendation and testimonials, in favor of these colebrated Watches. A rold medal was awarded to the Company by the Amerian Institute, at New York, in 1857. The Company also received the first premium—a gold medal—from the Franklin Institute, Philadelphia, in 1858. These Watches have now been in the market for nearly ten cars, during which time they have been tested as to accuracy, durability, and reliability in every conceivable manner and have proved themselves to be the most satisfactory time-

pieces ever offered to the public.
This result has been brought about by a strict application of mechanical science to the construction of the Watch from its very inception, rendering it when finished, mathematically prect in all its proportions, and necessarily as perfect'a ime-keeper as it is possible to make. The Company have tested their Watches in many instances y actual daily noting, and the result of this test has been nat they have exhibited a rate equal in regularity to the N. B. Purchasers may therefore feel assured that they are buying a first-class Machine.

The points of Superiority, peculiarly its own, in this Ms-chine may be briefly stated:

FIRST. The remarkable simplicity and accuracy of its mechanism, manifested in the fact, that it is capable of making, unerringly, four thousand stitches a minute.

SECOND. It will not drop stitches, and is noiseless in its operation. SECOND. If will not drop stitches, and is noiseless in its operation.

THIRD. The facility with which the learner may become expert in operating it, inasmuch as no mistake can be made in setting the needle, or in regulating the tension.

FOURTH. A patented device of great utility to learners has recently been applied, which prevents the possibility of the Machine being run in the wrong direction, or the balance wheel wearing a lady's dress.

FIFTH. Being made interchangeable in all its parts, any of them can readily be replaced in case of accident.

The Dreamer's Blind Daughter. TALE OF RELIGIOUS PERSECUTION. BY MRS. S. ROCHESTER FORD, of Louisville. volume. 12mo. 488 pages. Illustrated. Price \$1.00. The great popularity of "Grace Truman," (of which thirty thousand copies have been sold,) will secure, for this book, thousands of readers.

MARY BUNYAN,

From the New-York Examiner.

The numerous readers of "Grace Truman" have here another work on a topic of deep and thrilling interest, from the author of that highly popular book. Mary Bunyan, the blind daughter of the immortal dreamer, is referred to repeatedly in his autoblography and other works. She was about twelve years of age when Bunyan was imprisoned in Bedford jail, and his anxiety on her behalf was one of his principal causes of distress in his long imprisonment.

As drawn by Mrs. Ford, her character seems to have been one of great modesty and loveliness, and the story of her love for William Dormer, and of his death for the cause of civil and religious freedom, has much of the pathetic element in it. Mrs. Ford is evidently thoroughly as fut in the incidents of Bunyan's family history, and in the topography of Bedford and Elstow. 'We can easily predict for the work an extensive sale. From the New-York Examiner.

From the New-York Evangelist. From the New-York Evangelist.

The simple incidents of Bunyan's life, his protracted imprisonment, his heroic endurance and long faith, are of themselves full of the deepest and most thrilling interest. It needed only the picture of his blind daughter Mary, in her gentleness and patience under sore misfortune, to give completeness to the tragic yet noble scenes in which Bunyan figures, so modestly yet grandly conspicuous. The author of the volume before us has carefully gathered up such historical facts, and they are fortunately numerous and well authenticated as could'throw light upon the subject, and has employed them with great sagneity and effect in the construction of her story.

From the American Bantist, N. Y.

From the American Baptist, N. Y. The announcement of a new work from the pen of the accomplished authoress of "Grace Truman," will send a thrill of delight through thousands of hearts. The book will be read with an enthusiasm rarely equalled. There will be many a moletened eye over the heautiful pages of touching scenes in the history of one whom all know only to love. Before it was out of the press, five thousand copies had been ordered, and we doubt not it will have an immense sale.

From the Pittsburgh Chronicle. From the Pittsburga Unionicae.

This is the last product from the pen of a lady whose writings are rapidly becoming popular. Her last work, "Grace Truman," had a sale of over thirty theusand copies, and this one is said to be a better and a more interesting book. It is a very pleasing tale of fiction, the scene of which is in "Merrie England," and the clief character, the immortal and never-to-be-forgotton John Bunyan, writer of
