for boasting, but much for humiliation, "giveth the increase." To his name be SCRIPSI. the praise.

From the New York Times. Abd-El-Rader on the State of Turkey.

capital, contains in one of its latest issues, a letter written at Damascus by the Emir imbecility which the Emir denounces and 72. Total, 1,787. deplores as the sure forerunner of the full of the last great Islamitish empire. Apart from the curious interest which attaches to the appearance of the great Prince of the Desert in the character of a writer for the Press, this letter has a striking value as the sad and deliberate verdict of one of the ablest of living Mohammedans, upon the condition of the faith which he professes, and of its votaries, as contrasted with the state of Christendom. The Emir begins by complimenting the Arabian editor on the wisdom he has shown, in pointing out that the obstinate prejudices, and the slow adaptability to circumstances of the Ottoman functionaries, and two great causes of the impotence of the Sultan's Govern-

ment, and then goes on to say: "Your good advice might be listened to eigns love the courses of honesty and do justice for they should be an example of superiority to the temptations of the world, for their people. But, alas! we are far from all this. The actual state of the Christian and Mohammedan Powers was predicted by Mohammed. He announced the fall of the Cæsars; and there are no Cæsars. He said also that the Christian kings would maintain theinselves to the end of all the ages; and that the kings of his people would be deserted by God on the goods of this life. He said, too, that the world would not end till the majority of mankind had become Christians. And this must come to pass, for according to Mislan, the authorised expounder of Mohammed, the Christians have four qualities which insure their success in the future; clemency in victory, resistance under de feat, energy in renewing the fight, and be nevolence to the poor, the weak and the orphan. I will add, for myself, that to knowing how to shake off, when it is necessary, the injustice and the oppression of their kings. I weep, oh. my God, over the fearful trouble reigns between the Druses and the Maronites. Everywhere the evil has deep roots. They are killing and slaying one another everywhere. God grant s better end to all these things. Yours in poverty, but rich before God. "ABD-EL-KADER."

are in contemplation, and that the exciters of the disturbances in Syria have ramifications with other parts of the Ottoman Empire; that the events in Syria were only a prelude to a formida-ble rising of the Ottoman populace against the Christians, and the sinister projects are stated to have been long since concerted by fanatical conpirators.

NAPLES AND SICILY. Sanguinary combats are reported to have taken place near Messina, between the Neapolitans, under Col. Bosco, and the advance guard of the Sicilian army.

The British Admiral, Munday, had quitted Palermo for Naples, and there were scarcely any out Sardinian vessels in the roads. Garibaldi had expelled Farine and two others from Sicily for conspiring against order. Farine is said to have had full power from Sardinia to assume the title of Royal Commissioner as soon as annexation was declared.

A new Sicilian Missian had been founded.

A new Sicilian Ministry had been formed. Senor Introndato Argi, the historian, and Senor Emeranti are among the members, and Lagoth, Laporia and Orsini continue in the Cabinet. A Naples telegram says that a strong and compact Ministry would be immediately formed, to carry out, to their full extent, the principles of the constitution and government, and to watch The latest news from Naples reports the dis missal of the Ministry. Commodore D. Marteno only would remain in the new Cabinet. CHINA.

Latest by Telegraph to Londonderry .- A private telegram has been received in anticipation of the mail, the date to which is believed to be Hong Kong 7th, which states the shipment of tea to be £1,000,000 since the departure of the previ-ous mails. The Ellen Rodgers had sailed with some new tea on board and some thirty thousand chests had arrived at the port. Another telegram says that the exports of tea show no increase. The exports of silk were six thousand seven hundred bales. Trade at Shanghai was suspended, and the rebels are investing Sonchow.

As regards the war with England and France, it is added that the Chinese are resolved to fight.

SYRIA. BEIROUT, 11th.—The attack of the Druses on the Christians of Damascus commenced on the evening of the 9th. Several men were killed, and many women carried off. The French, Russian and Greek Consuls took refuge in the house of Abd-El-Kader. The attitude of the Turkish authorities was undecisive, and rather injurious than useful to the Christians. Three thousand Turkish soldiers arrrived to

The fears of the Christians are redoubled, and mmissioners Derby and Norwick are expected with impatience. Details to the first of July say that it was then ascertained that the Druses had burned and pillaged one hundred and one villages since the 29th of May, while from seven thousand five hundred to eight thousand Christian; inhabitants of Lebanon, many of whom were wealthy men, and all strangers to anything like poverty, are homeless beggars, depending on charity for their daily bread. Over and above the number of Christians shot in actual warfare it is believed seven or eight thousand have been butchered in cold blood. The massacre at Damascus was not known at this date. The most sickening details are given of the barbarity inflicted on all ages and sexes.

A French vessel had been sent to Lataka, and

was obliged to take up a position within firing distance of the town, in order to restrain the anatical portion of the inhabitants from comitting further outrages. Great agitation prevails at Aleppo and Killer

From the Levant Herald, July 4. We have received a telegram from Smyrna dated 2d July, announcing the arrival of the Syrian steamer, and giving the following in advance of her arrival here: The steamer left Beirut on the 23d of June, and reports that at that time the panic among the Christian popula-tion had become general. Nearly the whole of the Frank inhabitants, and as many of the native Christians as could, had taken refuge on board the English, French, and Russian men-of-war in the roads. Her Majesty's steamer Ex mouth had embarked the cash, books and personne of the Ottoman Bank, and as many of the other English residents as possible. In addition to this, parties of marines from the British, French If I wan free and Russian ships had landed to assist in maintaining order in that town. At Damascus the Christians were also in a state of panic, and Abd-el-Kader had come forward to use his influence for their protection. From the Paris Patric.

We receive intelligence of great importance rom Beirut, dated June 24. Ismail Pacha had just arrived from Constantinople, with two thousand five hundred men, to put a stop to the mas-sacre of the Christians. Ismail Pacha is the general who, during the Crimean war made himself illustrious by the defence of Kars. His arrival, in a great measure, restored confidence.

SUMMER, late of Columbus DIED—On the 19th of July, in Columbus, Ohio, WILLIAM HOWARD, son of Rev. J. D. Smith, D.D., aged 17 years and DIED—July 20th, at the residence of her husband, North Huntingdon Township, Westmoreland County. Pa., after a protracted illness, Mrs. VIOLET, wife of Mr., Wm., Nichols, aged 73 years. Mrs. N. was given to God in her infancy, and under the

ministry of Rev. Mr. Le Saline, in early life, she ratified by her own act what was signified in her baptism. Removing with her husband into the bounds of the Long Run Presby terian church, she united with it, and thus, in connexion with two of our churches, lived a consistent, exemplary, and Christian life for upwards of half a century. Her illness navelysis,) which confined her principally to her home for ive years, and deprived her of the privileges of the house of od, which she loved so well, she endured with patience and esignation. Her sick chamber was to her "the house of od-the gate of heaven." The Saviour was her "all and in all," as she expressed it in her dving moments; "the builder nd maker of her spiritual temple, and the provider of ber neavenly home." "Her and was peace." She "sleeps in Jesus," leaving a husband alone to mourn her loss; " not to sorrow as those who have no hope," but rather rejoice "that blessed are the dead which die in the Lord; they rest from heir labors, and their works do follow them."

THIS WEEK'S ADVERTISEMENTS.

PHILADELPHIA, June 5, 1858.

DR. C. M. JACKSON:—Dear Str:—I am very old, and for years have been miserable. Last Winter, one of my grandsons presented me with half a dozen bottles of your Bitters, and induced me to try them. I did do so, and I now feel as if I was thirty years younger; for I can digest my food, and am free from the water-byash—my constant companion for the last forty years. My grandson, when he saw the good effects of the litters, advised me to send you this certificate. Yours, &c.,

Mrs. Ann Pattison,

Cherry, below Ninth Street.

Liver Complaint, Dyspensia, Nervous Debility, &c.

For sale by Druggists and Dealers everywhere. Price 70 ents per bottle. aug 11t W.E. BRAMAN & CO.'S Double Thread FAMILY SEWING MACHINE

These unrivalled Machines will hereafter be sold at the following prices: Small Machines (plain).... Large "...." We claim for this Machine superiority over any other Machine ever made, for the following reasons:

1st. Both the upper and under threads are used directly from the original spool, thus doing away with the trouble of re-winding, against which so many complaints are made.

2d. It can be worked backwards, as well as forwards with the same facility, can be started with the foot alone, and is always regist. dways right.

3d. It uses a perpendicular needle-bar, and straight needle, and never breaks needles.

4th. It is so simple that it can be very easily learned and operated, by a child twelve years of age.

5th. It is almost noiseless.

By the combination of these features, so important in a Sewing Machine, we are enabled to offer to the public a Machine which suits the understanding as well as the purse of all.

fachine which suits the understanding of all.

Every Machine is fully warranted.

Tools and full printed directions accompany each Machine.

SEWING

NEWERLA IN

MACHINES: During the last fourteen years, some four hundred patents have been granted on inventions designed to lighten the drudgery of family sewing, and at the same time to produce a machine that could be profitably used for manufacturing purposes; but strange to say, out of this large number, of Sewing Machines, only some half dozen have been proven to be of, practical value; and of this small number, not one has in it combined the advantages of a family and manufacturing machine. There are alarge, heavy, noisy, cumbrous, and complicated machine, designed for heavy work, that answer the purpose very well; while there are others of light mechanism and delicate adjustments, which perform on light work to advantage; and while the former are exclusively confined to heavy work, the latter are of little value, except on light fabrics. Therefore I take great pleasure in stating the important fact that Mr. Howe, the original inventor of S wing Machines, has recently perfected his Shuttle Machine so as to combine, in a much smaller space and, with ar less machinery, the strength and durability of the manufacturing machines, and at the same time possessing that delicacy of movement and ease of operation peculiar to the family machine, and which renders this the only machine in market capable of working equally, well the lightest and heaviest fabrics, and we therefore designed for

ALL KINDS OF WORK! For Shirt-makers, Vest-makers, Tailors. Shoe binders Gaiter itters: Harness, makers, Carriage-trimmers, as well as for all rarieties of FAMILY SEWING, THE HOWE MACHINE If HE HOWE MACHINE.

Is the only one that can give satisfaction, and they will be sold for one-half the money charged for any other machine capable of doing as heavy work in as good a manner. They machines cannot be got out of order by any fair means and they will be fully warranted for one or more years. They will stich, hom. tuck, cord, bind, gather, and fell, without lost-sing-making the lock-stich scam (alike on both sides) of great beauty strength, and elasticity, and which cannot be ripped or raveled.

The public are cordially invited to call at my rooms. NO. 20 FIFTH STREET, up stairs, and thoroughly test these machines on all kinds of work; don't be satisfied by merely seeing a Machine sew on a rag, but bring along your lightest and heaviest work, and put the Machine to the most rigid tests.

tests.

Active and responsible Agents are wanted for the sale of these Machines, upon liberal terms. Please send for samples of work and particulars of agency. Address.

W. B. LASSCELL, Agent, NEW AND VALUABLE BOOKS

SHELDON & CO., 115 NASSAU STREET, NEW-YORK: GERMANY'S FAVORITE POET. THE LIFE OF FRIEDRICH SCHILLER. WITH AN EXAMINATION OF HIS WORKS. By Thomas Carlyle: Author of "French Revolution," etc. I vol., 12mo. Price \$1.00.

From the Philadelphia North American. "It certainly presents the best view ever given of the life exacter and genius of the noble Schiller." From the New York Tribunc. "In spite of new information in regard to Schiller, and the able treatment of the subject by fresh hands, this volume must long remain a singularly fascinating and instructive piece of biography."

The Wife's Trials and Triumphs. One volume. 12mo. Printed on Rose-tinted Paper, handsomely bound. Price \$1.00. From the Philadelphia North American. "The characters are distinct and well-sustained—the incidents natural and varied—the style unambitious, but graceful. There is no display of learning, but ample knowledge and high culture are everywhere unconsciously visible. The book is handsomely 'got up' in its externals, and ladies especially will find it good reading."

"Dr. Prime never knew how to write a dull sentence, and prompted by such natural beauty as abounds in the path of the Ewiss tourist, he has here presented an account of his journeyings worthy of himself and his them. The publishers increase the attractive appearance of the book by incorporating with the text some well executed illustrations of prominent scenes." Boston Post.

BUSINESS NOTICES.

A MERICAN WATCHES. MADE BY THE AMERICAN WATCH COMPANY At Waltham, Mass.

Attention is invited to the following statement and accompanying letters of recommendation and testimonials, in favo of these celebrated Watches. A gold medal was awarded to the Company by the Ameri in Institute, at New York, in 1857. The Company also received the first premium-a gold iedal—from the Franklin Institute, Philadelphia, in 1858. These Watches have now been in the market for nearly ter years, during which time they have been tested as to accuacv. durability, and reliability in every conceivable manner, and have proved themselves to be the most satisfactory time

pieces ever offered to the public.

This result has been brought about by a strict application f mechanical science to the construction of the Watch from its very inception, rendering it when finished, mathematically correct in all its proportions, and necessarily as perfect me-keoper as it is possible to make. The Company have tested their Watches in many instances by actual daily noting, and the result of this test has been

that they have exhibited a rate equal in regularity to the best marine chronometer.

N. B.—We have just introduced a new style of Watch, aborately finished, and thinner than any we have hitherto produced, with several improvements calculated to insure as greatest accuracy of performance, and to prevent the sual accidents and derangements to which foreign watches are liable. The following is from Mr. PORTER, the well-known Marine er and Watch Maker:

Mr. R. E. Robbins, Treasurer, &c. Boston, April 20, 1860. Dear Sir :- Since my note to you of September, 1869, I have sold a number of your Company's watches, and hear good reports from them without exception. They give me no trouble and my customers every satisfaction. Recently a shin-master to whom I sold one last year, called to say tha his Chronometer having broken down at sea, he navigated his Chronometer having broken nona ... his vessel safely home by his Waltham Watch: ... Vones, truly, Geo, E. Porten, c

Yours, truly, GEO. E. PORTER.

Office of the Tribune,
New York, October 27, 1859.

AMERICAN WATCH COMPANY, Waltham:
Gentlemen:—Having carried one of your Watches, for the last eighteen mouths; I can say confidently that they will do, and may be bought with assurance that they will keep time. believe the watch unsurpassed. Horace Greeker.

Book Room, No. 200 Mulberry St. New York,
February 6, 1800.

R. E. Robbins, Treasurer American Watch Co.:

Dear Sir — I take great pleasure in being able to certify that for the last ten months I have carried a watch from the manufactory of the American Watch Company, and that it has given perfect satisfaction as a time-keeper Judging from the one I have, I do not hesitate to predict that the day is not far distant when watches made in the United State will supersede all others. JAMES FLOT, D.D.

WILTON BLUFF, S. C., October, 20, 1859. R. E. Robbins, Esq.: Dear Sir:—The three watches of your manufacture which I purchased to be used on my plantation; have proved to be the most correct time-keepers I have ever known. I gave my head servant, my head carpenter, and my head engineer, each one of them; and since they have been in their respect ive possession, every thing on the plantation has moved like clock-work, in consequence of the extreme accuracy and regularity with which these watches perform.

Yours, truly, Lewis Morris. AMERICAN WATCH COMPANT, Walthum, Mass.: I have tested with extreme care the running of the watch I bought of you, now nearly a year since, and so accurate and equable has been its performances that I have thought it would interest you, and all others familiar with horology, to see a record of its variations. It was finally set to true time after it had been regulating in my possession for three months.

Since which time its average monthly variations has not NORMAN WIARD. CAUTION .- As our watch is now extensively counterfeited by foreign manufacturers, we have to inform the public that no watch is of our production which is unaccomp certificate of genuineness, bearing the number of the watch, and signed by our Treasurer, R. E. Robbins, or by our predecessors, Appleton, Tracy & Co. As these watches are for sale by jewelers generally

throughout the Union, the American Watch Company do of solicit orders for single wat ROBBINS & APPLETON, Wholesale Agents, No. 182 Broadway, New York.

PRUIT JARS! FRUIT JARS! THE BEST IN THE MARKET. THE BEST IN THE MARKET.

The Keystone and Willoughby Jurs are simple in their arrangement, require no cement, and are perfectly air-tight.

The Keystone Jaw are the only self-testing jars in the market. With this jar, the condition of the fruit can be told at a glauce, and if not properly put up, will always show itself in time to save the fruit. The impossibility of the stopper blowing out, and the case with which they are adjusted, make these jars the most desirable before the public.
