of \$100,000 from the United States bonds. The New-Orleans papers intimate that the in-cendiary crimes in Texas have been perpetrated, in revenge, by men who were driven out of the State on the pretext of entertaining opinions unfavorable to slavery. This is the me sonable suggestion that we have seen. The idea of an organized abolition conspiracy scens very absurd. There is nothing to be gained by such conspiracy, and only madmen would enter into

It is said that the drought in Texas is so general and so extreme that the large emigration flowing into that State has been checked, and many families from Alabama and other Southern States are returning to their former homes. In Galveston, it is reported, there has been no rain since April, and water is now selling at three dollars per barrel, brought down to Trinity. A San Antonio letter says that water brought from the Mississippi river is selling in Indianola and Lavacca for twenty-five cents a gallon. The principal hotel and all the busines houses, with one exception, were destroyed by the recent fire at Henderson, Texas. The total loss is estimated at from \$250,000 to \$275,000.

[ADVERTISEMENT.] Worms! Worms!

A great many learned treatises have been writon, explaining the origin of, and classifying the worms generated in the human system. Scarcely any topic of medical science has elicited more acute observation and profound research; and yet physicians are very much divided in opinion on the subject. It must be admitted, however, that, after all, a mode of expelling these worms, and purifying the body from their presence, is of more value than the wisest disquisitions as to the origin. The expelling agent has at length been found-Dr. M'Lane's Vermifuge, prepared by Fleming Bros. is the much sought after specific, and has already superseded all other worm medicines, its efficacy being universally acknowledged by medical practitioners. GREAT BRITAIN. Lord John Russell explained the position of the question for making Spain one of the Great Powers. The movement he stated was first initiated by the French Government. Suggestions, were also under consideration that Sweden, and perhaps Portugal and Sardinia, ought also to be added to the Great Powers. Lord Russell said the concert of the Great Powers on various questions had tended materially to preserve the peace of Europe. The British Government were of the opinion that it was not undesirable to make some addi-

tions to the moral force of Europe. FRANCE. The Emperor, after reviewing the troops destined for Syria, addressed them as follows: "SÖLDIERS: You leave for Syria. France hails with joy an expedition, the sole aim of which is to cause the rights of justice and humanity to triumph. You do not go to make war against a foreign nation, but to assist the Sultan in bringing back to obedience his subjects, who are blinded by the fanaticism of the former century: In that district you have great reminis-cences. Fulfill your duty; show yourselves worthy to be the children of those who once doriously carried into that country the banner of Christ. You do not leave in great numbers, but your courage and prestige are a supply to the deficiency: because whenever the French flag is seen to pass, the nations know that a great cause recedes it, and great people follow it. The Emperor has given 200,000 francs in aid of the fugitives from Syria.

OR. C. M.: Jackson:—Dear Str:—I feel it a pleasure, thus, of my, dyn accord, to bear testimony to the 'excellence' of the "German Bitters." Some years since, being much afficied with dyspersia, I used them with very betterical fresults. I have often recommended, them to persons enfeeled by that formenting disease, and have, heard from them the most flattering testimonials as to their great value. 'In cases' of general debility, I believe, it to be stonic that cannot, be surpassed.

THE SUNDAY SCHOOL TIMES.

This is a Weekly Religious Paper, published by the AMERICAN SUNDAY SCHOOL UNION, at the very low ONE DOLLAR A YEAR It is designed for Parents, Teachers, and all who are engaged or interested in the religious training of the young. It is also an excellent Family Paper.

A portion of the Sanday School Times, is occupied with NARRATIVES and other matter particularly interesting to young persons. Peachers will find in it much that they will like to read to their classes—interesting matter prepared to their thanks and such as they cannot find elsewhere. Por the same reason, members of Bible classes, and the older scholars generally, will be greatly benefitted by the perusal of this paper. papers of the state of the state of the state of the state of the choicest matter selected from the WOON PRAYER MERINGS, which are so interesting to all classes of Christians.

MERTINGS, which are so interesting to all classes of Christians.

Besides a large amount of general religious intelligence, the Sunday School Times, contains all the most recent Sunday School news. It reports all the important CONYENTIONS of Sunday School teachors. It discusses the questions which most interest and herpite, teachers and parents, respecting the various methods of religious training for the young, the means of graining the attention and affections of children, and especially of securing their conversion and bringing them to Christ. The subject of MISSION SCHOOLS for cities, and of Sunday School missionary work, for the interior, is thoroughly canvassed. Indeed, there is hardly a topic of practical importance to any who are interested in the subject of religious education, which is not here brought under consideration from week to week. No teacher, no parents should be without it. der consideration from week to week. No teacher, no parent, should be without it.

The Sunday School Times has been the direct means, without, any other, agency, of establishing Sunday Schools in neighborhoods where none existed before, and, of giving life to other schools which were languishing. It is the testimony of hundreds of superintendents, that they have found their schools reviving from the time that this paper began to circulate among their teachers and in the families of their congregations.

culate among their teachers and in the families of their congregations.

RELIGIOUS CONTROYELSY is entirely excluded from this paper. The Sanday School Times does not even reply to its own assailants. Its only answer to attacks, is to lubor more industriously to make a paper, which shall be worthy of the patronage of warm-hearted, working Christians, and which shall breathe throughout the spirit of meekness and love.

The conductors of this paper endeavor to remember, that the great end/of/all Christian effort is to bring mien to Christ. They aim, accordingly, to put into every number of the papager something, which shall have for its directioliject the conversion of, souls, Large-hearted Christians, who are seeking the means of doing good, would, it is believed, do an important service, and perhaps be the means of many conversions, by subscribing for copies of this paper for young persons of their acquaintance. AMERICAN WATCHES. MADE BY THE AMERICAN WATCH COMPANY

At Waltham. Mass. Attention is invited to the following statement and accomnanying letters of recommendation and testimonials, in favor of these celebrated Watches, watter as the A gold medal was awarded to the Company by the American Institute, at New York, in 1857.

The Company also received the first premium—a gold medal—from the Franklin Institute, Philadelphia, in 1858. These Watches have now been in the market for nearly ten years, during which time they have been tested as to accuracy, durability, and reliability in every conceivable manner and have proved themselves to be the most satisfactory time pieces ever offered to the public.

This result has been brought about by a strict application f mechanical science to the construction of the Watch from its very inception, rendering it when finished, mathematically correct in all its proportions, and necessarily as perfect s time-keeper as it is possible to make. The Company have tested their Watches in many instances y actual daily noting, and the result of this test has been

that they have exhibited a rate equal in regularity to the best marine chronometer. A part of March, N. B.—We have just introduced a new style of Watch, elaborately finished, and thinner than any we have hitherto produced, with several improvements calculated to insure the greatest accuracy of performance, and to prevent the usual accidents and derangements to which foreign watcher

James Floy, D.D.

WILTON BLUFF, S. C., October, 20, 1859. R. E. ROBBINS, Esq.: Dear Sir :- The three watches of your manufacture which I purchased to be used on my plantation, have proved to be the most correct time-keepers I have ever known. I gave my head servant, my head carpenter, and my head engine each one of them: and since they have been in their respect ive possession, every thing on the plantation has moved like clock-work, in consequence of the extreme accuracy and regularity with which these watches perform. Yours, truly, Lewis Morris.

CHICAGO, Ill., March, 1860. I linve tested with extreme care the running of the watch I bought of you, now nearly a year since, and so accurate and equable has been its performances that I have thought it would interest you, and all others familiar with horology, to ice a record of its variations. It was finally set to true tim June 5. lost 4 sec. October 1 lost 8 sec. Angust 15. lost 8 sec. October 1 lost 8 sec. Since which time its average monthly variations has not CAUTION.—As our watch is now extensively counterfeited by foreign manufacturers, we have to inform the public that no watch is of our production which is unaccompanied by a

ertificate of genuineness, bearing the number of the watch, and signed by our Treasurer, R. E. Robbins, or by our pre-tecessors, Appleton, Tracy & Co. As these watches are for sale by jewelers generally throughout the Union, the American Watch Company de not solicif orders for single watches. ROBBINS & APPLETON.
