FLAX STRAW WANTED The prevailing high price for all fabrics of Cotton, grow The prevailing high price for all fabrics of Cotton, grow-ing out of the difficulty of procuring the acoustomice sup-plies of the raw material, has induced the undersigned to resume the business commenced by them everal years since, of manufacturing what is known as "FLAX COTTON." If the farmers of this neighborhood can be induced to lend their coöperation, by furnishing the requisite amount of Flax Straw, it is believed the enterprise will be crowned with success, and the interests of the whole people greatly promoted thereby. In many sections of the West, Flax has been for several years extensively cultivated atmost entirely for the seed, at a time, too, when the current value of seed ranged from \$1 to \$1.60. At the present time, when

Induced by the extensive sale and universal popularity of Hoofiand's German Bitters, (purely vegetable,) hosts of ig-norant quacks and unscrupulous adventurers, have opened upon suffering humanity the flood-gates of Nostrums in the shape of poor whistened Tonics, Stomachica, and Fitters. Beware of the innumerable array of Alcoholic prepara-tions in plethoric bottles, and big bellod kegs, under the modest apt slation of llitters; which instead of curing, only aggregate disease, and leave the disappointed sufferer in despair.

It is estimated that one acre of fair average land will, noder proper cultivation, produce from 1: to 18 bushels of Seed, and about 2 tons of Straw. The undersigned, there-fors, desire to invite the attention of Farmers to the subject, and to say they will be prepared to purchase, the present season, not issue than ONE THOUSAND TONS of Flax Straw,

Although not disposed to favor or recommend Patent of Religious Knowledge. Although not disposed to favor or recommend Patent Medicines in general, through distrust of their ingredients and effects ; I yet know of no sufficient reason why a man may not testify to the benefit the believes himself to have received from any simple preparation, in the hope that he may thus contribute to the bonefit of othors. I do this the more readily in regard to Hoofland's German Bitters, prepared by Dr. C. M. Jackson, of this city, because I was prejudiced against them for many years, under the impression that they were chiefly an alcoholic mixture. I am indebted to my friend Robert Shoemaker, Esq. for the removal of this prejudice by proper tests, and for oncourage-ment to try them, when suffering from great and long con-tineed debility. The use of three bottles of these Bitters, at the beginning of the present year, was followed by evident relief, and restorstion to a degree of bodily and mental vigor which I had not felt for six months before, and had almost despaired of regaining. I therefore thank God and my friend for directing me to the use of tham. J. NEWTON BROWN. PHILADELERIA, JUNE 23, 1861.
