Eleventh Volume.—One number more will close the eleventh volume of the Presbyterian Banner. A renewal of subscription is respectfully solicited. Send as soon as practicable, and invite your neighbor to cooperate.

The War.

Conjectures relative to the fall of Fort Sumpter and Wagner have been too sanguine. Sumpter is a ruin, but at latest dates received the rebel flag still floated. Wagner was able to fight. There are reports that the fleet would pass the forts named, leaving Gilmore to press the siege still, while Dahlgren would try to make his way up to Charleston. The thing may be possible.

The information of the bombardment of Charleston from the battery five miles distant comes from rebel sources. It proves not to be very injurious. Two guns so far away could accomplish but little. It is, however, a feat in gunnery exceeding all past attempts, and proves the possibility of serious effects, if the number of such long range guns were increased to hundreds. Charleston, as we truly believe, must fall. We said, weeks ago, that if it would be in our hands by November 1st, two months hence, Gen. Gilmore and Admiral Dahlgren, and their brave men, would deserve great credit. Let us hope.

OBATTANOOGA was, at last accounts, being bombarded by Gen. Rosecrans; but no particulars of decisive results are given. GEN. BANKS, it is said, has received reinforcements, and is fitting out a very important expedition. These wise conjectures we value but very little. Not one of them turns out to be of any value.

THE NAVIGATION of the Mississippi is kept open, and trade is reviving. THE ARMY OF THE POTOMAC lies mainly along the railroad, from Manassas to the Rappahannock. There are no indications of a speedy movement. Portions of it have been sent to Morris Island, to aid in the siege, and several regiments have been withdrawn, to enforce the draft in New-York.

GEN. BURNSIDE is moving toward Knoxville, Tenn., though very slowly. He has not force enough to penetrate the enemy's country so deeply. Want of troops in the field prevents efficient operations. We have not enough to advance on all important points, and not enough even to concentrate on two or three points, without leaving other important places exposed to invasion, or to serious loss.

THERE is a large force, portions of the veteran army, now in New-York; a force far beyond any need which could be contemplated as against rioters. It may be intended for some distant enterprise on the coast. The Herald suggests Mexico. More likely it is Texas.

In Memoriam.

Extract from the Minutes of the Union Literary Society of Washington College, Washington, Pa. WHEREAS, In the wise dispensations of God's providence, our beloved friend and late fellow-member, Lieut. R. R. Reed, has been called from time to eternity; and Whereas, It is proper that we should render some tribute to his memory, on account of the noble qualities of soul which he ever exhibited; therefore, Resolved, That while we humbly submit to the workings of Him "who doeth all things well," we deeply mourn the loss of our warm-hearted, generous, and honored friend.

Resolved, That by his death this Society has lost a member, just entering upon the prime of life, and distinguished by his social qualities, brilliant mental endowments, and nobleness of character, of honoring, as he was honored by her; and one, a fit exemplar for all whom she proudly ranks among her members.

Resolved, That in this sad bereavement, his parents are called to mourn the loss of a noble and heroic son; and his companions in arms, a brave soldier and an able commander.

Resolved, That in the firm belief that our loss is his gain, we beg leave to sympathize with his parents and friends, and with them to mingle our tears over the grave of the youthful, self-denying, and zealous patriot.

Resolved, That in his death we have another tie, binding us more closely, and urging us to be more faithful to that "sacred cause" for which he sacrificed the joys of home, the society of loved friends, and even life itself.

Resolved, That a copy of these resolutions be sent to the parents of the deceased, to the Reporter and Tribune, and to the Presbyterian Banner, for publication; and also to Headquarters, 140th Reg't Penna. Vols. J. M. CARRELL, J. D. FORRESTER, R. H. CUNNINGHAM, Com.

Government of several countries have already adopted the principles settled there as the basis for future postal conventions. Others will follow. At the request of this Government, the United States delegate, the Hon. John A. Kasson, concluded some treaties before his return, giving practical effect to the liberal movements indicated at the International Congress.

It was confidently expected that, as soon as the arrangements already in progress are perfected, there will be a general reduction in the rates of postage to all parts of Europe, with a uniform rate to most countries. The rates will realize great convenience from the pending propositions, by the essential reduction of rates on journals and printed matter which will soon be effected. In addition to the public convenience, the Government will realize an important saving in money by a change in the system of accounting between it and foreign countries.

The last act of the Conference was to give unanimously a vote of thanks to the United States Government for its institution of so beneficial an enterprise.

Death of John B. Floyd. The Richmond Dispatch, of the 27th ult., says Maj. Gen. John B. Floyd, died yesterday at six o'clock, at his residence at Abingdon.

Mrs. Winslow's Soothing Syrup. Rev. Sylvanus Cobb thus writes in the Boston Herald: "We would by no means recommend any kind of medicine which did not know to be good—particularly for infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing, by giving an infant troubled with colic, quiet sleep, and his parents unbroken rest. More than 25,000 persons can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep of the child is not disturbed, and the little cherub awakes as 'bright as a button.' And during the process of teething, its pain is insupportable. We have frequently used it, and they could not be without it from the birth of the child till it had finished with the teething stage, on any consideration whatever."
