THE FEDERAL FORCES under General Grant have gone into Winter quarters. The Congratulatory Order recently issued by this distinguished General cannot fail to interest our readers. It reminds one of the sententious and stirring addresses of Bonaparte to his enthusiastic and victorious soldiers, while it is characterized by a spirit of disinterested patriotism which never animated the breast of the great French commander. The order is as follows:

HEADQUARTERS MILITARY DIVISION OF THE MISSISSIPPI. IN THE FIELD,

GENERAL ORDERS NO. 9.—The General

commanding takes this opportunity of returning his sincere thanks and congratulations to the brave Armies of the Cumberland, the Ohio, the Tennessee, and their comrades from the Potomac, for the recent splendid and decisive successes achieved over the enemy. In a short time you have recovered from him the control of the Tennessee River from Bridgeport to Knoxville You dislodged him from his great stronghold upon Lookout Mountain, drove him from Chattanooga Valley, wrested from his determined grasp the possession of Missionary Ridge, repelled with heavy loss to him his repeated assaults upon Knoxville, forcing him to raise the siege there, He is the author of the Conscription Bill: vidually. By order of Maj. Gen. U. S. GRANT. T. S. Bowers, Ass't. Aj't.-General.

CONSIDERABLE movements are reported as in progress in the Department under Gen. Banks, though they are said to be of a character which does not permit their being at present made known to the public. News brought last week of an expedition having left New-Orleans for Mobile, has not been confirmed. Preparations are being made to meet the threatened movements of the enemy in Central Texas.

Exchange of Prisoners. Gen. Butler succeeded in getting 500 North Sewickley, Beaver P'by.... prisoners exchanged. The rebels then refused to make any more exchanges, except on terms unreasonable. They also refused to hold any intercourse with Gen. Butler, he being an outlaw, by the proclamation of their President. The General has since been at Washington, conferring with the President and Secretary of War. The result is said to be, that his powers are enlarged; that all the prisoners we hold are entrusted to him, and to be exchanged only by him. It is also said that there is to be a call for 100,000 volunteers for a shor term of service, with which force Genera Butler is to take Richmond. This last report needs confirmation. We do not know that Gen. Butler is the man to lead such a army. Such an army, however, should be raised, and greater still, and put under competent military commander who woul be well sustained. Gen. Butler is well qualified to manage the exchange of prisoners; and if the Government will carry out

Governor's Message.

The Message of Governor Curtin, to the Legislature of Pennsylvania, is a business document of much value. Its recommendations touching the interests of the State, show much thought of the public welfare, and are likely to meet with general approbation. Washington.

Jan. 11 .- The Treasury Department has made arrangements for supplying the destitute inhabitants in the country along the lines occupied or traversed by the Army of the Potomac, the in-habitants to pay for the goods before they are shipped by the authorized traders. If they are then destroyed by guerrillas, the inhabitants, of course, bear the loss. This, it is believed, will tend to curtail the operations of the guerrillas. The Senate has confirmed the promotions to Major-Generalship of Gens. Buford, Strong, and Whipple, all of whom received their commissions

Sneaker Colfax has issued an order forbidding the sale of liquor in the House wing of the Capitol, and his order is being strictly enforced. The President has ordered a court martial to assemble to try Surgeon Gen. Hammond on charges of mal-administration in office.

Jan. 12th.—The proposition to revive the grade of Lieut. General with a view of giving it to General Grant, still hangs fire in the House Military Committee. It is understood that when it is reported back to the House it will be opposed from some unexpected quarter. The present delay arises, however, from technical questions as to law, and from fears that its passage would be apt to take Gen. Grant out of the field. Others favor it on the ground that it would be all the better if it did this, and put him in Halleck's

The Senate administration members had a ong caucus this afternoon. The time was mostly taken up in discussing two special committees, one on Emancipation, the other on the Conduct of the War. It was finally determined to create both into that on Emancipation, and will have referred to it all questions relating to the condition of freedmen and the like. It is understood that Sumner is to be chairman. A long debate ensued on the proposition that in reviving Wade's Committee it should be made to embrace the expenditures as well as the military conduct of the war. The proposition finally prevailed. Ben. Wade will of course be chairman again, and through this enlargement of duties will have even a more important and responsible position

The Excitement in West Virginia.

Baltimore, Jan. 9 .- Reliable information from umberland, Maryland, this morning, says that ere are no rebels in the vicinity of Cumberland. They have retreated from the vicinity of Peters-burg, and have gone in the direction of Staun-ton. All is quiet along the whole line of the Baltimore and Ohio Railroad, and the trains are running regularly.

WASHINGTON, Jan. 9 .- Since the receipt of the newspaper telegram early this morning, announ l column, threatening Petersburg and Cumberland, Md., the Star says a dispatch has reached the headquarters of the army in this city, lirectly from Gen. Kelly, stating that the rebel nave retreated from these vicinities.

A Rebel Admission .- The rebel Secretary of th Navy, Mr. Mallory, gives full confirmation of the statements heretofore published, concerning the plot to release the rebel prisoners on Johnson's Island. He says in his official report: "During the months of July and August, I sent twenty-seven commissioned officers and forty trustworthy petty officers to the British Provinces. with orders to immediately organize an expedition and cooperate with army officers in an attempt to reson's Island, in Lake Erie. From time to time I learned that the arrangements made were such as to warrant the most complete success. A large amount of money had been expended, and just on this expedition, the English authorities gave information to the enemy, and this prevented the execution of one of the best planned enterprises

of the present war." Speed of Vessels in the Navy .- A table of com parative and average speeds now before us shows that the average speed of the old U. S. sailing ships was eleven and a quarter knots an hour; of the older steam navy, built from 1835 to 1858, only eight and four-tenths knots; of the steamers built since the rebellion, eight and three-tenths knots. This last average is lowered by the 44 knots of nine monitors, but contains twelve side—wheel steamers at 10, twenty-three gunboats at under 8, and fourteen others mostly built by private contract, at 10, one being at only 8 knots. The blockade-runners and pirates make from 1 to 16 up to 20 knots an hour. This a sufficiently humiliating story.

The Bible Panorama.

EDITORS GAZETTE :- Permit me to call the at tention of your readers to a painting now on exhibition in our city, with the above title. It i really a meritorious work, and deserving of a liberal patronage. The Panorama begins by representing chaos, and God said "Let there be light, and there was light," and light appears. It carries the spectator on from the creation of man, and his possession of the Garden of Eden, to his being driven out by the Lord God, and a flaming sword to guard the way to the Tree of Life. And thence on, in the development of the life of man, to the selling of Joseph into Egypt, and his wonderful elevation to the throne-coming down to the time of Solomon's Temple. when the Queen of Sheba came to offer him

gifts, spices and frankincense.

The painting, as a work of art, is well exeouted, and the time spent in seeing it will be eassed both pleasantly and profitably. The representation of the Deluge, the thunder and lightning, followed by torrents of roin, the atempted escape of the inhabitants from the encroaching water, are all well portrayed. The Panorama is accompanied with suitable and appropriate remarks by a lecturer, and altogether it is well adapted to excite a new and more lively interest in the study of the Sacred Scriptures; and if the commendation of one who has had the pleasure of seeing, but has no interest to serve in expressing his admiration, will induce others to visit it, he will be amply repaid.

Letter from a Mother in Lowell, Mass.

DEAR SIRS:—I am happy to be able to certify the efficiency of Mrs. Winslow's Soothing Syrup, and to the truth of what it is represented to accomplish. Having a little boy suffering greatly from teething, who could not rest, and at night by his cries would not permit any of the family to do so, I purchased a bottle of the Soothing Syrup in order to test the remedy, and, when given to the boy according to directions, its effect upon him was like magic; he soon went to sleep, and all pain and nervousness disap-peared. We have had no trouble with him since, and the little fellow will pass through with comfort the excruciating process of teeth ing by the sole aid of Mrs. Winslow's Soothing Syrup. Every mother who regards the health and life of her children should possess it. MRS. N. A. ALGER. Lowell, Mass.

DROSPECTUS FOR 1864.

The World: An Independent Democratic Daily, Semi-Weekly and Weekly Newspaper.

UNION OF THE WORLD AND ARGUS.

UNION OF THE WORLD AND ARGUS.

THE WORLD, to which the New-York Weekly Argus has been united, has to-day five times the aggregate circulation of any Democratic or conservative newspaper. It addresses weekly alone more than 100,000 subscribers and constant purchasers, and reaches at least half a million readers. With the steady increase in circulation which it now enjoys, these numbers will soon be doubled. Nothing less than this should satisfy those who believe that the only hope of restoring the Union and the authority of the Constitution over a new distracted and divided country, lies in we sting power from the hands of those whose fanaticism has helped to provoke, invite, and prolong the war; and that to accomplish this end, no means is so effective as the diffusion, through able and enterprising newspapers, of sound political knawledge among the working men, the thinking men, and the voting men of the North.

Enterprise, industry and money will be liberally expended to make The World the BEST NEWSTAPER IN AMERICA. Its news from every part of the world will be early and anthentic. Wherever the telegraph extends, or railroads run, or steamboats ply, if will gather the latest intelligence. It has a large staff of accomplished correspondents with all the Federal armies, who will telegraph and write to us the latest news from the various seats of war. It has correspondents and reporters in every political and commercial centre in America and Europe, whose letters and dispatches will leave nothing worthy of note unknown to its readers.

The Markey Reports of the World are more complete than those of any other newspaper. The Elitors invite comparison in this respect and point to the reports of the The Marker Reports of the World are more complete than those of any other newspaper. The Editors invite comparison in this respect and point to the reports of the Cattle Markets, the general and country Produce Markets, and the Money Market in its columns, as proof of its excellence in this respect. The World has also a special department devoted to Agriculture, filled with editorial articles, communications from practical farmers, and selected matter, making a valuable and useful paper for the Farmers and Mechanics of the country.

making a valuable and useful paper for the Farmers and Mechanics of the country.

The war in which the nation is engaged against armed and infatuated Rebels, and the radical policy of the administration which prolongs it, have conspired to bring together upon one platform all conservative, Union-loving and Constitution loving men. of whatever former name and creed. Many of those who, within the limits of the Constitution, fought the battles of the ballot-box under the leadership of those parti-tic statemen of other and better days, Henry Clay and Daniel Webster, together with the masses whose principles were those of such partiots as Andrew Jackson and William L. Marcy, Silas Wright and Stephen A. Douglas, now stand shoulder to shoulder upon the same platform and unforce the Laus. Whatever makes for this end, the exercise of force or the policy of conciliation, The World will advocate; whatever makes against it, The World will oppose.

will oppose.

It will oppose every enemy to THE UNION, whether armed in rebellion at the South or insidiously planting the seeds of disunion and essential disloyality at the North.

It will oppose every violation of THE CONSTITUTION, which is the only hope and bond of Union, and our only authority for exhorting or compelling the allegiance of the South.

thority for exhorting or compelling the allegiance of the South.

It will oppose every infraction of THE LAW, in high places or in low, by reckless and misguided partisans, or by the administration which has been their example.

It will fearlessly exercise the Freedom of the Press; it will constantly upbold and defend Freedom of the Press; it will constantly upbold and defend Freedom of speech and Freedom af the Ballot.

To the lawless acts of the Administration, its arbitrary and unjust arrests and expatriations, its despotic accumulations of the writ of habeas corpus, its illegal proclamations, its abrogation of State and Federal laws, its despotic accumulations of ungranted power, and its subversions of the safeguards of civil and personal liberty, it will constantly oppose the letter and the spirit of our surreme law and the advoc up of sound doctrine, until American freemen shall be roused to the recovery of their rights, their liberties, their laws, and their limited and well-balanced government, by the resistless decision of the ballot.

Profoundly impressed with the desire to contribute all that it may to the great work of this generation—namely, to restore our national unity, and to place the United States again foremost among the natious of the earth, and first in the peace, prosperity, and jappiness of its people—The Worlds seeks from those who desire such things, their sympathy and support, and, above all, the favor of Him who
