Jackson, Tenn., apparently preparing to move South. Chalmers is reported to have considerable force at Grand Junction and Bolivar. Grierson's cavalry is all out, and will give Forrest some trouble.

A large force of rebels is reported to be concentrating at Pound Gap, under Buckner, for an extensive raid into the heart of Kentucky. Our troops are ready for them. Camp Nelson, twenty miles from Lexington, has been evacuated by the U. S. forces, and the military stores removed to Nashville. Parson Brownlow telegraphs from Knoxville that "the rebels are intending forthwith to make a raid into Kentucky." The Chat, jority. tanooga Gazette states, on rebel authority, that Longstreet will immediately move into Kentucky with 26,000 men, and that the rebel forces at Dal ton, 50,000 strong, will then re-take Chattanooga and East Tennessee. Another report makes the rebel force at Dalton 85,000, and that they will act on the defensive. Five hundred deserter from Johnson's army arrived at Chattancoga in the last ten days of March.

From New Orleans we learn that a reconnois sauce was made up Red River, March 21st-a. rebcl force was outfianked, 800 prisoners, 4 cannon, and a large number of horses and mules were captured. Large quantities of cotton remain on the plantations along the river. Our troops are still pushing forward, and are in fine spirits

About 10,000 effective troops have gone South from Fort Smith. The whole number, in the de-partment under Gen. Steele, now moving South, is from 30,000 to 85,000 : sufficient to overpower any rebel force opposed to them.

Lieut. Gen. Grant returned to the Army of the Potomao, March 28th, and established his headquarters at Culpepper, eight miles in front of Gen. Meade. March Sist, he paid a visit to Gen. Butler, at Fortress Monroe, on business connect ed with the forthcoming campaign, returning to Washington April 4th ; and has now gone to the Army of the Potomac.

A report comes from Cincinnati that General Grant will order South for effective duty 150,000 troops now in the North doing guard and post duties, which tasks will hereafter be assigned to the State militia. This immense force, with oth-ers on the way East, will swell the Army of the Potomac to the enormous figure of 275,000 men, and, simultaneously approaching the rebel capital by various routes, will insure the certain capture of that important point.

Congressional .- In the Senate, Mr. Wilson's West Point Academy bill proposes to increase the number of cadets to 400. The House bills were reported favorably from the Senate Territorial Committee, organizing Montana Territory and ennabling Nebraska to form a State Constitution. In the clause defining the qualifications of voters, and the eligibility to office in the territory of Montana, Mr. Wilkinson moved to strike out the words "white male inhabitants," and insert "male citizens." The amendment was adopted, and the bill was then passed by a vote of 28 to 8 The House subsequently disagreed to this amend-ment. Much time has been spent in discussing the proposed amendment to the Constitution, to abolish slavery. A resolution was adopted diabolish slavery. A resolution was adopted al-recting the Secretary of War to report to the Senate upon the subject of the military occupa-tion or disposition of ohurches. A bill to increase the pay of soldiers, an act to purchase a new Executive mansion, and a bill incorporating the Newcastle and Franklin R. R. Co., passed. The latter will open the shortest route from Pittsburgh to the oil region. In the Senate, the death of Capt. Brady, Librarian, was announced.

General .- From January 1st to March 21st 1864, 18,000 emigrants have arrived at the port of New-York, against 8,000 for the same time last year.

Parkersburg, Va., is becoming the commercial centre for the immense cil-field of West Vir-ginia. Contracts have been made for the erec-tion of three hundred houses the coming Summer. Rich discoveries are constantly being made in the adjacent cil district. A few days since a well was struck on Bull Creek, that yields from 600 to 1,000 barrels per day. It will soon make the owners millionaires.

The export of crude petroleum to Europe from January 1st to Marsh 11th, 1864, was 4,805,062 gallons; and yet the oil product and business are but in their infancy.

The condition of the cattle and sheep in England has seriously engaged the attention of the British Parliament. In six years the losses by disease have amounted to \$180,000,000. Nor is this the worst. Many more diseased animals than are lost, are killed, sold, and eaten. There are 8,000,000 head of cattle in the United Kingdom, and 40,000,000 sheep.

A serious affray occurred. March 28th, at the court-house in Charleston, Coles County, Illinois, between some citizens of the county and certain soldiers of the 54th Illinois. The commence-ment of the affair has not been reported; but a general fight occurred, in which the county sheriff sprang from the judges' stand and fired a pistol at the Union men, who, being outnumbered at the court-house, ran to the houses and stores for arms, and were fired upon from the windows. Sexexal soldiers and Union citizens were severely wounded, and one was killed. The man who fired the first shot in the morning was instantly killed.

In the afternoon the 54th Regiment arrived and formed on the square, and some thirty per-sons implicated in the affair were arrested, and tsken to Mattoon. The friends of the rioters immediately collected in large numbers from the adjoining counties, and threatened to rescue the prisoners. The 4th lilincis Regiment from Camp Yates, and 500 wen from Indianapolis, were promptly ordered to the scene of threatened conliot; and at the latest accounts, the rioters had spersed, and quiet was again restored.

Terms. DIED-March 6th, near Edinburgh, O., Mrs. Per Session of Five Months, beginning May or November Boarding. Light, &c..... Tuition..... SUSANNAH JOHNSON, in the 38th year of her

Mrs. Johnson was a member of Apple Creek Presbyterian church. She had been long and severely afflicted, yet she was not only patient and resigned, but even cheerful. under her sore trials. Although a loving wife and kind mother, yet she was ready to depart withal, whenever it pleased God to take her to himself. She was endowed with a kind and mild disposition. Be-sides, in her life were seen the fruits of the Holy Spirit. She left a large circle of friends to mourn her loss. How comforting to reflect that they do not mourn as those without hope! Thes. iv : 13, 14-"But I would not have you

to be ignorant, brethren, concerning them which are asleep, that ye sorrow not even as others which have no hope. For if we believe that Jesus died and rose again, even so them also which sleep in Jesus, will God bring with him." A. V.

DIED-At the residence of her husband, at Dunningsville, Nottingham Tp., Washington Co., Pa., February 23d, 1864, Mrs. ELIZABETH, vife of Samuel Thomas, aged 40 years, 5 months and 26 days.

The deceased was born in Jefferson County, near Smithfield, Ohio. She was but three weeks old at the time of her mother's death. Later in life she removed to Washington County, Pa., near Canonsburg. She was married on the 12th day of May, 1842, and was dedicated to God in baptism by the Rev. Dr. Sloan, in Sept., 1844. Her Christian life, though brief, was bright and beautiful at all jy22-1y times, as becometh the Gospel. Indeed, few have the same good spirit of meekness and pleasantness, as she was beloved by all that knew her. She had escaped the measles until the present sick-ness set in, January 8th, with complication of diseases, which terminated her life. Her hands were often in the attitude of prayer while on her dying bed, and she often spake of Jesus and salvation for a poor sinner, and of the interest taken in her by her neighbors. Speaking to her some two or three days before her death, in relation to the salvation of her soul, and as to whether she would like to live longer, she replied that she would not, but felt willing to die and be with Christ. About twenty hours before her death, she took each child by the hand, that was at home, (the second daughter being at the Seminary at Steubenville, and a son being cap-tured November 10th, 1862, and not being heard f since,) also some of her neighbors, and gave them her counsel.

She suffered very much pain, and when advised by her physicians not to let many persons in the room, she replied that all persons should ome in and see her. She never was disturbed either in body or mind. She has departed to be with that blessed throng, where there is no pain or sorrow. "Rejoice with me; I am going to a place of everlasting joy. In a short time I shall be with the loved Jesus. 'Tis sweet to me to think of eternity." A FRIEND.

IN USIC IN THE SUNDAY-SCHOUL. Every Superintendent and Teacher knows the value of music in the Sunday-School. It is one of its chief attrac-tions and most profitable exercises. If you would have your Sunday School well attended, MARE ITS MUSICATTRAC-rive. If you would have your Sunday-School efficient as a means of good, MARE ITS MUSIC AFFICIENT. Song has pecu-liar power to raise the heart and arouse the feelings. All this is, in some measure, at least, understood and appre-ciated, and the problem, often a difficult one, is how to make the music what it should be. Mo one means is more important to this end, than a good accompanying instrument. However excellent the leader may be, he needs an instrument to help him; and where the leader has not much confidence in himself, an accompany-ing instrument is of yet more value. Fuch an instrument will attract and interest the children; will induce them to try to sing, and render it much easier for them to do so. It will add vasity to the impressiveness of the music; and, in-deed so greating its value that no Sunday-School which has will add vastly to the impressiveness of the music; and, in-leed, so great is its value that no Sunday-School which has mjoyed the use of a good one, will alterwards be satisfied to

injoyed the use of a good one, will alterwards be satisfied to do without one. A great difficulty in the way of the general introduction a secompanying instruments in Sabbath Schools has been the lack of these. which were both desirable and available. Such an instrument must have good quality of tone, for this is the first dBential; i must have great rolware of power, because it should be sufficient to guide and sustain (though not overpower) a chorus of hundreds of voices; it must occupy little space, because not many Sunday-School rooms have much to spare for such a purpose; it must durable, not liable to get out of order or out of than; and last, (not least, practically,) it must be afforded at a very large sum for an instrument. The melodeon has moderate cost, for new Sinday-Schools can allorg to expend a very large sum for an instrument. The melodeon has failed, chiefly because it lacked power or volume of tone; the various harmoniums, school organs, &c., have had more power, but have been deficient in quality of tone, and in other respects. MASON & HAMLIN, having been long extensively en-

MASON & HAMLIN, having been long extensively en-gaged in the manufacture of melodeons and harmoniums (for which they have invariably taken the first premiums at all industrial isins and exhibitions) have had constant evi-dence of the need of a better instrument, such as has been described, for Sunday-Schools and churches, as well as for private uso. The experience of this want led them to the institution of many experiments, looking to such improve-ments, the first important result of which was the introduc-tion by them of the harmonium several years since. This instrument was an improvement upon the melodeon in sev-renl respects. Aiming at still better results, however, M. & H. continued their experiments, and had the satisfaction, something more than a year since, of introducing the The Summer Session of this Institution will open or nd close WEDNESDAY, OCTOBER 5TH, having a vacation of tree week in the month of July. according to the branches taught; one half to be paid in ad-vance, and the other before the close of the session. an instrument similar in several respects to the melodeon and harmonium, but possessing several very important in-provements over these instruments and all others of its gen-

provements over these instruments and all others of its gen-eral class The CABINET ORGAN is recommended with confidence as admirably suited in all respects to Sunday-Schools and churches, as well as private use. Some of its prominent excellences are its pure, round, organ-like tone; its great volume of tone, adapting it to the accompaniment of large numbers of volces; its carecity for expression, arising chiefly from the AUTOMATIC BELIOWS SWELL, a new invention of much more practical value than any improve meet unade in such instruments for many years; its com-pact form, durability and quality of keeping in tune for years; its quickness of action, adapting it to the perform-ance of very rapid music, and ITS MODERATE COST.
