Missionaries of Art and Science -About twenty years ago, John H. Chandler went from the United States to Siam, as a scientific mechanic, employed by a missionary she holds a very insecure position. uses. The King of Siam sent for Mr. Chandler, who soon established a machineshop for the King, and sent for encyclopædias, and mide models and plates, and gave instituction in the art. A young nobleman of Siam, who is now the King's factotum in all these matters, used to come to Mr. C. by night, and get Mr. C. to illustrate and demonstrate. The son of the Prime Minister of Siam has also largely enjoyed the coffee-houses to be opened shortly afterinstruction of Mr. Chandler, more espeits machinery, and is now doing much for were visited periodically by the excise offihis country in introducing the use of steam. Such has been the effect of the labors of one real Yankee in Siam, besides the good that he has done in casting "fonts of type" for the printing of the New Testament.

India.-Quite a temperance movement has recently been inaugurated in India, and largely through the energy of a Hindoo Professor in the Presidency College, the ber, at 2 o'clock P. M Society has already a membership of over two thousand. A deeply interesting meeting for the furtherance of the object was held in Calcutta on the celebration of the Queen's birthday; the speaking being divided between Europeans and natives. Among those on the business committee, a Bengal paper mentions the names of the Mussulman Syud Azumadeen Hoosein, the Brahmin preacher Keshub Chunder Sen. the Pundit Bidyasagor, the able Secretary Peary Churn Sircar, and Baboo Greesh Chunder Ghose. It looks rather formidable to have those names "rise up in the judgment" against us here for any delinquency of ours in the good cause.

TESTIMONIALS

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable

three y ars from August 15, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annumprincipal and interest both to be paid in lawfol money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable ot less than five nor more than twenty years from their late, as the Government may elect. They will be issued in lenominations of fifty, one hundred, five hundred, one housand, and five thousand dollars, and all subscriptions nust be for fifty dollars, or some multiple of fifty dollars. The notes will be transmitted to the owners free of trans-

portation charges as soon after the receipt of the original lettificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a comuission of one-quarter of one per cont., which will be paid by the Treasury Department upon the receipt of a bill for the mount, certified to by the officer with whom the denosit vas made. No deductions for commissions must be made rom the deposits.

SPECIAL ADVANTAGES OF THIS LOAN.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and the best security. Any savings ank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it cannot pay in anything better, for its own assets are either in government securities or in notes or bonds ayable in government paper.

It is equally convenient as a temporary or permanent inestment. The notes can always be sold for within a tracion of their face and accumulated interest, and are the best ecurity with banks as collaterals for discounts.

Convertible into a 6 Per Cent, 5-20 Gold Bond,

In addition to the very liberal intere t on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, for the current rate for 5-20 Bonds is not less than nine per cent. premium. and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal Taxation

But aside from all the advantages we have enumerated, a special Act of Congress exempts all bons and Treasury otes from local taxation. On the average, this elemption s worth about two per cent. per annum, according to the rate of taxation in various parts of the country.

It is believed that no securities offer so great inducements o lenders as those issued by the government. In all other orms of indebtedness, the faith or ability of private partie, or stock companies, or separate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

While the government offers the most liberal terms for its cans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people.

SUBSCRIPTIONS WILL BE RECEIVED

by the Treasurer of the United States, at Washington, the sevral Assistant Treasurers and designated Depositaries, and by the FIRST NATIONAL BANK OF PITTSBURGH, PA., THIRD NATIONAL BANK OF PITTSBURGH, PA., FOURTH NATIONAL BANK OF PITTSBURGH, PA., FIRST NATIONAL BANK OF ALLEGHENY, PA., and by all National Banks which are depositaries of public money, and all RESPECTABLE BANKS AND BANKERS broughout the country will give further information, and APFORD EVERY FACILITY TO SUBSCRIBERS. aug21-2m S. On Sunday morning the rebels advanced in fine style and with the utmost confidence, evidently anticipating an easy victory. To their surprise they discovered a second line of works behind and to the left of our first, glistening with bayonets, with a battery on the left and another on the right, pouring a cross fire into their ranks, every discharge causing large yso incles in their line. The entire command made signs of their willingness to surrender, and
