Lectroglaz

Nothing is harder on one's "composure" than a rough, stained or chipped bathtub. The revolutionary LECTROGLAZ process transforms worn and faded tubs into gleaming, like-new fixtures. The LECTROGLAZ finish is more resistant to acids and chemicals than the original porcelain. The price is a small fraction of the cost in replacing the old tub. If your tub is ruined or if you just want to change color, save time & money. All work carries the same guarantee as a new tub. Write for our free color brochures or call for a free estimate.
