

Photo shows, from left to right, United Way officials John Hoffman, Don Betty, and Ernest Tobin. They are standing in front of Mr. Betty's Model A Ford roadster, which he drives to work.

United Way starts fund drive; serves local area in many ways

The United Way of Lancaster County is beginning this year's fund drive in our area. Local officials of the service organization visited the Susquehanna Times offices last week to explain how the United Way benefits the community.

The officials were: Don Betty, chairman of United Way's loaned executive program and plant mana-

ger of the Armstrong Cork and Ceiling Plant in Marietta; John Hoffman, account executive for United Way and president of the Union National Bank in Mount Joy; and Ernest Tobin, executive director of United Way in Lancaster.

United Way helps fund the following organizations in this area: the Donegal Visiting Nurse Association (which provides help to

housekeeping disabled and aged people); the Marietta Salvation Army extension unit; Boy and Girl Scouts; and the Mount Joy Helping Service.

Last year the United Way spent a total of \$3,144 in the area covered by the *Susquehanna Times*. \$2,174 was spent for youth and community groups, \$729 was spent on health services, and \$241 was spent on family and child care.

Celebrating our Nation's 200th Year and the Telephone's 100th Birthday!

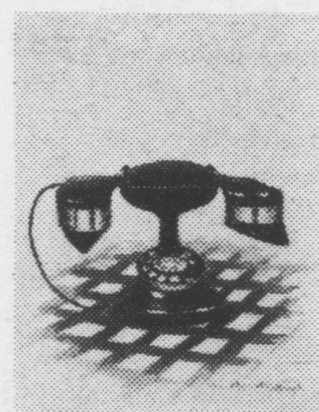

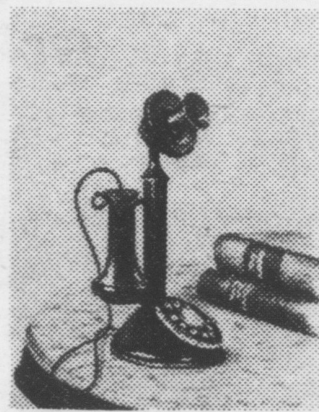

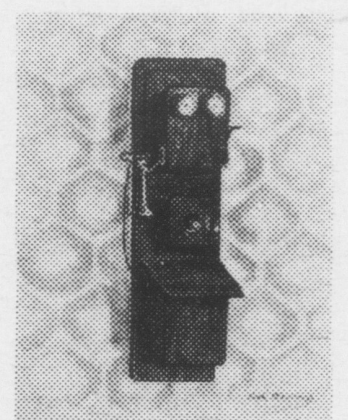

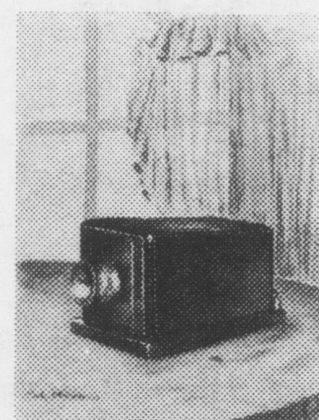

For thousands of years man and his messages could travel no faster than he himself . . . or his horse could run.

Through all the centuries of history, man has made some imaginative attempts to hasten his messages . . . tom toms . . . horns . . . smoke signals . . . pigeons. But most proved unreliable and susceptible to the weather.

Then in the 19th century all this changes with dramatic suddenness. On March 10, 1876 and in the third story laboratory at 5 Exeter Place, Boston, Thomas Watson hears the first complete sentence transmitted by a variable resistance transmitter. Alexander Graham Bell's "Mr. Watson, come here, I want you!" comes clearly over the wire.

During the exciting 100 years since, new communications inventions and discoveries have followed one another with breath taking rapidity.

We at United Telephone salute the courage of our founding fathers and the imagination of our inventors not to be satisfied with ancient "well-documented impossibilities". People experimenting with new thoughts and new ideas. We pledge our continuing support to making America the greatest nation, yesterday, today and tomorrow.

Watch your newspapers for more information concerning these telephones.
