model 6832

All the common features you'd expect to find in a quality transceiver plus a few uncommon features you'll appreciate, such as:

- Phase Lock Loop Circuitry — provides for dependable stability and eliminates frequency drift.
- Adjustable RF Gain Control — to prevent reception overload for loud and clear communication
- Switchable ANL and Noise Blanker — eliminate background noise
- Delta Tune
- Full 3" Round Ceramic Magnet Speaker with Angled Enclosure — for communication quality sound
- Illuminated Indicators — large size channel indicator for visibility, LED transmit indicator light lets you know at a glance that you're "on the air"
- Anti-Theft Alarm — switch built into mounting bracket connects to horn for equipment protection
- Full Range PA Volume Control — lets you adjust PA volume
