Site of the SJH's new Marietta-Maytown Family Health Center to be built in 1977 at the corner of Route 441 and Bank Street in Marietta.

**New health center
contracts are signed**

On Thursday, January 6, St. Joseph Hospital signed the contracts to construct the new Marietta-Maytown Family Health Center, located on the corner of Route 441 and Bank Street in Marietta.

The successful contractor is V.L. Rendina, Inc., of Lancaster.

Estimated completion date is on or before June 30, 1977.

The Marietta-Maytown Center will be an adjunct to a new center opening at St. Joseph Hospital in Lancaster.

January 11 is the first official day services will be offered in the new health care center at St. Joseph Hospital which includes the Emergency Medical Services Department (EMSD), Family Health Center (FHC) and Diagnostic Screening Center (DSC). If an emergency occurs, a new facility stands ready to serve promptly, efficiently, and capably.

Located within the hospital complex, the emergency department will be receiving ambulances from all areas in addition to the St. Joseph Hospital Mobile Intensive Care Unit. The physical layout and personnel maximize opportunities for resuscitation, decisive treatment and major trauma, and efficient diagnostic evaluation.

Minor but urgent illnesses, for which appointments can never seem to be scheduled, will be handled in the convenient Walk-In Office. All ground floor activities will be coordinated from an outpatient control desk at the main entrance, and will be manned by a receptionist and triage officer.

The long awaited Family Health Center will practice primary care at its best, emphasized quality, easy access, continuity and comprehensiveness. Thru the combination of modern technology with compassionate, sensitive personnel, the Family Health Center will be attempting to replace the fictitious Marcus Welby with reality.

The Family Health Center will be used in the way someone would use a private doctor's office. It is primarily for use by people who do not yet have a family doctor or who (for one reason or another) are dissatisfied with their current medical care and want a change.

Finally, Sister M. Augustine, O.S.F., will be supervising the technicians and activity in our Diagnostic Screening Center which will be a major benefit to family health care patients, hospital employees and local industrial employees alike.
