

Jake Sherk's project

Jake Sherk

photo: Corky Flick

Jacob Sherk, a senior, was named Grand Champion of the Donegal Science Fair.

His entry, "Flame Emission Photometry," consisted of a device to measure the sodium content of any solution.

By spraying a mist of the solution into a flame, certain wavelengths of light are given off in a degree equal to the amount of sodium. His apparatus measures this light and prints out the results.

Jacob is the son of Mr. and Mrs. Jacob Sherk, 207 S. Barbara St., Mount Joy. He previously won the Science Fair prize in 1976, in chemistry.

Karen Roberts & Pat Eno to address students

Karen Roberts and Patricia Eno from the Marietta Office of Farmers First Bank will speak with three classes of students at Donegal High School March 22, 1977 on the topic of Money Management.

Many times a student graduates from high school and college with the skills to generate an income but unskilled in the area of handling that income. The Farmers First Bank representatives will cover how to operate a checking account as well as other money management techniques in preparation for their future needs.

Grandmother clock on display

You can build a grandmother clock from a kit, or you can start with a tree. Jay Behling and wood shop teacher Mr. McFarland started with a black walnut tree. When they cut into the trunk, they found a bullet that dates from before 1850.

Jay's clock was one of the most impressive pieces of craftsmanship on display in the shops and home ec. classes at DHS last week. The craftsmen displayed their work in connection with the science fair and art show at the high school.

Keith Smith to perform

Keith Smith of Mount Joy, will be heard in a short recital by a student piano duo with Miss Barbara Bobb of Beavertown.
