

Donegal School District plans census

The Donegal School District conducts a census survey each year of all residents living within the school district. Each home will be visited starting April 1, 1977.

The census has no direct influence on property assessments or rate of personal taxes, but is needed

to secure an accurate count of residents within the school district. The information will be data processed and files maintained will be utilized by the schools to best serve the total population.

It is requested that all individuals cooperate with the census takers so the

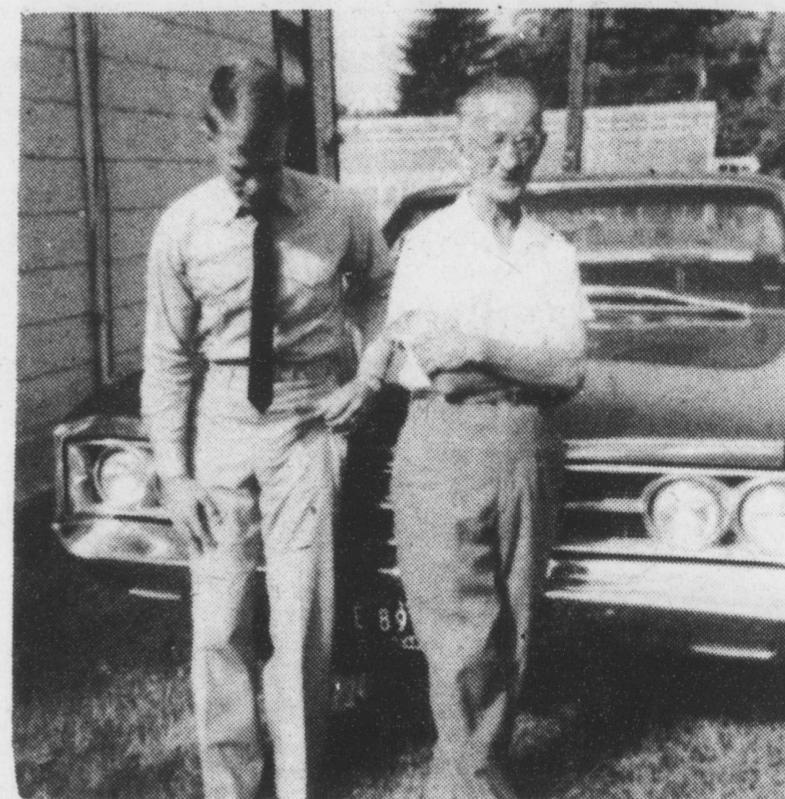

project may be completed with minimum cost prior to May 1, 1977. The census takers for the school district are:

East Donegal Township—Benjamin Gainer; Marietta Borough—Jay M. Kaylor; Mount Joy Borough—Ruth Newcomer and Donald D. Drenner; and

Mount Joy Township—Lois Milbee.

It would be of considerable assistance to the census taker if you would have available the following information for each person living in your home:

Name, age, birthdate, as well as grade and school, if attending school.
