

Robert Weiss will represent PA in national conference

Fifty-two students and eight advisors from the three Lancaster County Area Vo-Tech Schools participated in the State VICA Conference held in Seven Springs, April 27, 28, and 29. The ten top students in the state, in each event, selected by local and then by district competition, tested their leadership skills as well as their trade

skill abilities against one another.

Twenty-three students represented the Mount Joy Vo-Tech School as delegates and in seven areas of competition. Three of these students won outstanding awards. Robert Weiss, of Hempfield, won a first place gold medal in Machine Shop. Robert will represent the state of PA in

the National VICA Conference to be held in Cincinnati, OH on June 20-25.

Mike Carroll, a Donegal student who attends the Mount Joy Vo-Tech performed his final official duties as State VICA President at this Conference. Lancaster County can be proud of the outstanding leadership displayed by all of these students.

The boy and girl first place winners will be crowned during the all day activities planned for Saturday, June 11, at the park. All contestants will receive prizes.

Old films to be shown at Hobby and Craft Show

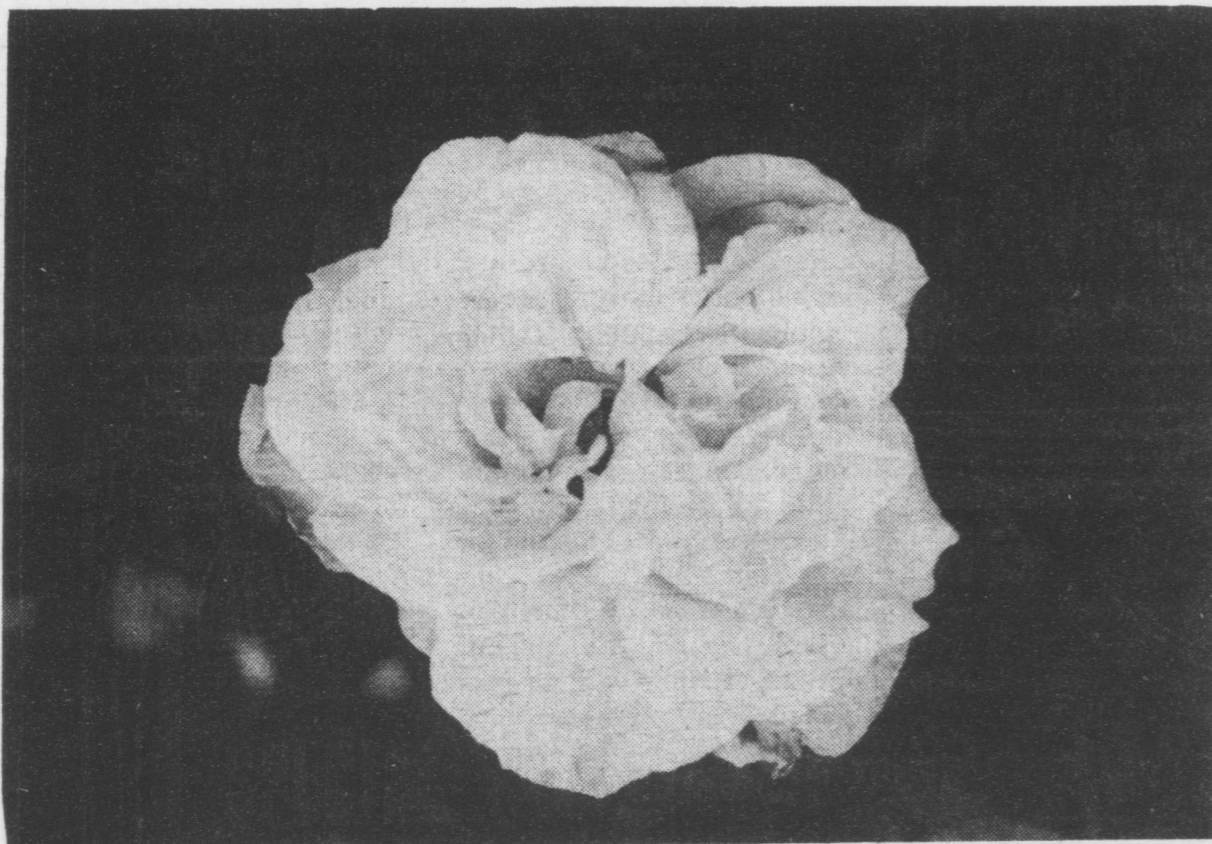

Plans are nearing completion for Mount Joy's Hobby and Craft Show to be held two days this month. Sponsored by the Mount Joy Area Historical Society, the show is scheduled for Saturday and Sunday, May 21 and 22 at the W. I. Beahm Junior High School, Poplar Street,

Mount Joy.

Some exhibitor space is available and may be reserved by calling Mrs. Warren Heisey or Mrs. William Barto.

In addition to the hobby and craft exhibitions, two special features will be sponsored. One will be the

showing of a reel of forty-year-old local movies. The films had been used in the 1930's for an annual program of hometown movies. The film will be shown every ninety minutes throughout both days. Another special corner will feature Mount Joy antiques and collectibles.

This unusual double rose is "the first sport (mutation) of this type I've ever seen growing in a pot, and I've been around roses all my life," according to Earl Marley of Columbia Hardware in Marietta. The rose was on display outside Earl's store last week when the Times got this photo. Earl explained that this variety of rose is one of three 1977 All American varieties, the top of the line. Roses of this high quality (ordinarily not doubled) take up to ten years and cost thousands of dollars to develop. Once bred, the strains are patented. Incidentally, the name of the strain pictured above is "Double Delight!"
