## Seventh day of the seventh month of the seventy-seventh year

### MEANS BIG SAVINGS IN E-TOWN

Once-in-a-century values will be offered in Elizabethtown this weekend, starting on the seventh day of the seventh month of the seventy-seventh year of this century (Thursday)—July 7. The stores won't be opening at seven in the morning, but when they do open around 9 a.m. you will see the bargains, as local merchants clear out their summer merchandise with tempting prices both inside and outside their stores.

Dudded the "Lucky Seven Sidewalk Sale," the event is the first sidewalk sale of the year, according to Richards Hartman, general manager of the Gladell Shops and current chairman of the Merchants' Committee of the Chamber of Commerce. He noted that participating mer-

chants will be displaying the symbol in their respective ads which indicates that they are official participants in this event. Shoppers should look for the identifying symbol in the advertisements in this paper.

Most stores will be open Thursday and Friday until 9 p.m.; Saturday hours will be 9 a.m. to 5 p.m. Naturally, the best bargains will be reaped by the early birds, although there will be an ample supply of merchandise right through Saturday night, in most cases. Sidewalk sales are always a lot of fun for the shopping public, and "Lucky Seven Sale" should prove to be no exception, judging by previous sidewalk events in downtown Elizabethtown.

## Free films -want one?

The United Telephone System Free Film Library is now accepting bookings for its 1977-78 season according to Dave Ditenhafer, commercial manager. A very busy season is expected after a record year in 1976, when the library reported 2,000 showings and 112,000 viewers.

Since the library's 40 films are scheduled on a first come—first serve basis, interested schools, groups and clubs should make bookings promptly. A complete catalog with ord-

ering information is available at the local United Telephone business office.

Movies produced by such prestigious film makers as the National Geographic Society and Walt Disney Productions are among the many new titles purchased for the coming season. The Library's 40 titles offer something for every age group and cover a wide range of subjects including biology, science, energy, economics, metrics, drugs and alcohol, safety and general information subjects.
