Karen Albright receives Rensselaer Medal

Karen Albright, daughter of Mr. and Mrs. Marvin Albright, R.D. #1, Marietta, has been awarded the Rensselaer Medal from Rensselaer Polytechnic Institute. The Medal is an honor given the 11th grade student for outstanding achievement in the study of mathematics and science during the junior year at Donegal High School.

One junior from each of approximately 1,300 high schools is selected annually to receive this award. Each school, chosen on the basis of its superior academic standards, determines the selection procedure with the suggestion that the medal be awarded to the junior with the highest combined average in

mathematics and science. Each recipient is then eligible to compete for Rensselaer Medal Scholarships.

Established by RPI in 1916, the Rensselaer Medal has been awarded to more than 57,000 students in the interest of motivating them toward higher education and courses in scientifically oriented fields.
