Energy-Efficient Homes Offer More

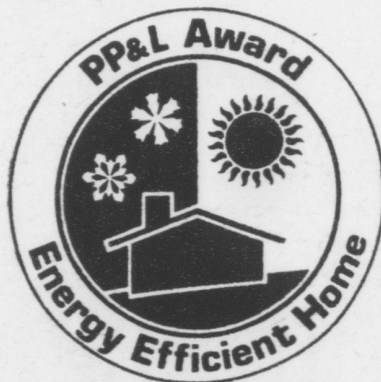

PP&L realizes that purchasing a new home is probably the biggest investment you'll ever make. We also recognize that the energy needed to run your home is too costly and valuable to waste. That's why, in cooperation with area builders, we're sponsoring the Energy Efficient Home program.

To earn an Energy Efficient Home Award your builder must construct a home that will meet or exceed PP&L's standards for:

- | | | |
|--|---|---|
| <input checked="" type="checkbox"/> Insulation and sheathing | <input checked="" type="checkbox"/> Ventilation | <input checked="" type="checkbox"/> Air duct system |
| <input checked="" type="checkbox"/> Windows and doors | <input checked="" type="checkbox"/> Fireplace (if used) | <input checked="" type="checkbox"/> Water heating |
| | <input checked="" type="checkbox"/> Heating and cooling | |

When your home is completed, PP&L will inspect it to see that it qualifies for the Energy Efficient Home Award. An Award Certificate is then completed by the builder and presented to you.

This symbol is your introduction to a new concept in home building. It's your assurance that your new home is designed and constructed to save energy. And, with today's high energy costs, that means big dollar savings. Makes sense doesn't it? Savings for today and tomorrow... for the life of your home!

In the event your builder is not familiar with the building requirements of an Energy Efficient home, call PP&L.

Ask for the residential consultant who can supply you with materials and equipment specifications and builder information.
