

**United Way  
of Lancaster County**

# Together we will....

....meet our community's goal. This year's United Way Campaign goal for Lancaster County is \$2,407,500. That's a lot of money.

But this money is desperately needed to meet increased demands for services. With our population growing, human problems have multiplied. Divorces have tripled. Alcoholism and drug abuse are on the rise. Juvenile delinquency has skyrocketed.

Every 52 seconds someone in Lancaster County turns to the United Way for help. It's tough for agencies to keep up with the increased need, without the increased funding. So please give your fair share. Together we will meet our goal!
