Flying saucer sightings finally explained

The following is a press release recently sent to the Times by the people at ECKANKAR in Menlo Park, CA. We don't know how we got on their list, but they send us releases about once a week. -ed.

"Although some unidentified Flying Objects are real, not all UFO's are what they seem," stated Sri Darwin Gross, spiritual leader of ECKANKAR, the Path of Total Awareness.

The world renown Living ECK Master recently shed light on the origin of UFO's, and why some people see them and others do not.

"ECKANKAR," he says, "teaches that there are other worlds and dimensions BEYOND this physical universe, the first of which is the astral plane of existence. Some beings dwelling in this world can project astral images into

our physical universe. Those that can project astral images of UFO's from the astral worlds are not very spiritually advanced. If they were, they would be aware of and interested in reaching the God plane where Total Awareness or God Consciousness can be found."

The leader of the worldwide movement claims that those who do see UFO's generally have a high I.Q. and possess some clairvoyance which gives them an insight that others do not have. "Flaming engines roar," he pointed out, "red and green lights flash, and they move with incredible speed, but only in the minds of those who project and receive the images."

Note: If you want more information on this topic, write to ECKANKAR, PO box 3100, Menlo Park, CA, 94025. -ed.
