How much does social security owe you?

Every week you put more money into that Social Security system, and every other week you read or hear that none of it will be there by the time you retire and want to collect it. Ever wonder how much you've put in?

You can find out by going to a Social Security office and filling out form OAR-7004. If you write "and quarters of coverage" on the card, they will also tell you how much you will get after you retire.

Assuming they don't run out of money, that is.
