On Tuesday, October 12th Donegal High School 10th grade students are scheduled to take the National Educational Development Tests. The tests will not affect academic grades but will provide parents, teachers and students a truly objective view of a student's educational strength and weaknesses.

N.E.D.T. includes two kinds of tests. The first, the test of Learning Ability, measures the ability to learn new information. The second, the test of Educational Development measures the ability to interpret, evaluate, and understand the basic school subjects. The latter test includes English Usage, Mathematics Usage, Social Studies Reading, Natural Science Reading, and Word Usage.

The data received from the test results assists the student in planning his remaining high school years realistically. The NEDT may reveal strengths the student may not have been aware of as well as show up weakness that can be corrected with appropriate programming.

Parents, please take note, your 10th grade son or daughter will be given a booklet with pertinent information. It also contains sample questions from each of the test categories. Studying and answering the sample questions should assist the student in doing his best work on the final examinations. If there are any questions parents are encouraged to contact either Mrs. Paden or Mr. Day in the guidance office.
