

The Mystery Photo

Clues to Mystery Photo contest

First, the bad news: No one guessed the Mystery Photo. Everyone caught on quickly that the object is metallic and shiny, but no one has got close yet.

Here are some of the guesses:

"A basketball hoop or binocular ring" — Catherine Zink, Blair, PA;

"Glass or pyrex dish or pewter plate with handle" — Mary Gilbert (Mrs. Bill);

"An armatelle plate" —

Mr. and Mrs. Thomas Brennan, Marietta;

"A headlight on a car" — Jeane M. Herr, Mount Joy;

"Bicycle tire and rim" — Darrel Risberg, Mount Joy;

"A car headlight" — Mrs. Mildred Gramm Lawton, Marietta;

"A tire on an automobile or truck" — F.G. Burris, Marietta.

These responses are

good guesses, given the obscurity of the image, together with the fact that we deliberately overprinted it, making it appear much darker than it really is.

The good news is this: We are about to give you a clue. Without more fanfare, here it is: **The object in the Mystery Photo is made of a dense material, is shaped in an exponentially expanding manner, and it occasionally emits either a loud**

bronz cheer or a sound like a water buffalo wounded in a rutting battle during the mating season.

Remember, only postcard replies are accepted, and only one guess per card is allowed. The correct card with the earliest post mark wins a one year subscription to the *Susquehanna Magazine*.
