

Use the telephone to . . .
COMBINE ECONOMY AND STYLE.

Here's an unbeatable combination of economy and style . . . the desk style telephone. A familiar "standard" model you say. But think of them in exciting colors like burnt orange, cherry red, aqua blue or cocoa brown. Or tone down your thoughts to moss green, beige or black. (There is a one time \$2 color charge on all colors other than black.)

Just don't think of the desk style telephones as "standard". Think of them as the perfect decorator touch. Then let your imagination run wild.

Of course the desk style telephone represents only one of the many phone styles available from your local United Telephone business office. Combine economy and style call us today.

** U-TOUCH® push button service may not be available in all areas.*
