"How many tons of soil go down the streams? Let's look at the soils of the world and employ the practices our forefathers used. Let's go back to the old ways and avoid the pesticides, herbicides, and all the suicides forced on us today by our government and producers."

These suggestions were presented to the Mount Joy Business and Professional Women's Club of Mount Joy at their March meeting by Jane Alexander, Esquire, of Dillsburg, guest speaker. The meeting was held at Hostetter's dining hall.

Ms. Alexander, who works for the Environmental Protection Agency, stated "We must blow the whistle on some bureaucrats in Washington who ignore the use of chemicals used to fight pests, chemicals which pollute streams, cause skin cancer, and produce grain and vegetables with abnormal minerals."

The program was arranged by the Music and Social Committee, in celebration of the club's 23rd birthday.

THIS IS A BREATHING EXERCISE

All kids need exercise. Children with asthma often fear active play, which can bring on attacks. Blowing styrofoam boats across the floor is a breathing exercise which helps these youngsters learn to control wheezing attacks. Some even learn karate!

The Christmas Seal People are helping children and parents to understand asthma. To use new medicines and techniques which make it possible for kids with asthma to lead normal, active lives.
