Kindergarten registration soon

If your child will be at least five years old by September 6th, 1978, you can enroll him or her in kindergarten classes in one of the four Donegal School District elementary schools.

Take your child to the school nearest you on one of the following dates:
April 11 to Grandview
April 12 to Maytown School

April 13 to Riverview
April 14 to Seiler School

Registration hours will be 8:30 AM to 3:30 PM. It is not necessary to bring your child to the school with you. What you should bring are a birth certificate and medical records of immunizations your child has received. These are

legally required before the school can enroll your child.

Your child must have had the following immunization shots: **Diphtheria**, 3 shots of toxoid; **Tetanus**, 3 shots of toxoid; **Polio**, 3 doses of trivalent oral vaccine; **Measles**, one shot of vaccine or a doctor's

record of your child having had it; and **Rubella [German Measles]**, one shot of vaccine.

If you want to enroll a child (who has never been to kindergarten) into the 1st grade, contact Gene Newcomer at the registration at the school nearest you. Any question you have will be answered there.

A message about your telephone service.

We're all for competition, but not if it lowers the quality of telephone service.

Before you buy telephone equipment from a catalog, store, or salesman — BE SURE YOU KNOW ALL THE FACTS.

Congress and the Federal Communications Commission are making changes in national telecommunications policy. One such change has given telephone customers the option of buying and maintaining their own telephone instruments. This creates a highly competitive environment for the telephone company and other suppliers of telephone instruments.

Bear in mind, however, that today telephone companies have an obligation to maintain, repair or replace — promptly and at no charge — telephone instruments we have provided. We do not have the same obligation to maintain, repair or replace telephone instruments provided by others.

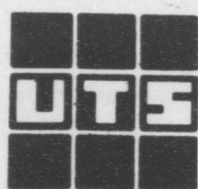

It is also important that your telephone instruments keep pace with new communications technology. Telephone companies have the obligation to provide instruments that will work with any new communications technology introduced in the future.

For these reasons, we believe the government should require telephone companies to install and maintain at least one working telephone for each residential and small business customer. In this way, you could be assured of always having one telephone instrument in your home or business which would be maintained in working condition by the telephone company.

We believe our customers will be served best, at the lowest overall cost, when the telephone company has complete responsibility for end-to-end telephone service. It's a national policy which has served our customers and the country well for years.

We're all for competition, but not if it lowers the quality of telephone service.

Another thing. If you are interested in any type of telephone equipment — do yourself a favor . . . call us. Chances are we have what you need. After all, who is better qualified to provide and maintain phone equipment than the phone company?

THE UNITED TELEPHONE COMPANY OF PENNSYLVANIA
 A Company of United Telecommunications, Inc.

Welcome Wagon

The Mount Joy Welcome Wagon will celebrate the tenth anniversary of the club's founding with a covered dish social at St. Luke's Church on April 26th. Mayor James Gingrich will be attending the affair.

"Whispering?"

The **Times** erred last week in calling the swans who settled in Mr. Hess's field "whispering" swans. Actually, they are "Whistling" swans.

Sherry Bromer informed the editor of his error this way: "If you had been kept awake all night by them, you'd know they don't whisper!"

We stand corrected.
