

Tomorrow's firefighting hero, Jimmy Smith, tries on some of Pioneer Co.'s protective gear. Jimmy was one of the kids at Zion Lutheran Nursery School who got a look at the pumper and its gear last week.

Zion Nursery Activities

The children of Zion Lutheran Nursery School of Marietta have been kept quite busy since school began in September. The three day class took a field trip to Docktor's Pet Center at Park City, where they saw many different kinds of pets. The man who showed them around also explained how to feed and care for pets.

Both the two day and three day class visited Herr's Fruit Farm in Mountville. While there the children were taken on a hayride through the orchards and it was explained to them how the fruit trees are planted and cared for. They were shown how the apples are sorted according to weight and where they are kept in cold storage. They were also shown the cider presses and told how cider is made. Before they left the orchards each child was allowed to pick an apple

from the trees to take along home. After the hayride the children were shown the store where the fruits are sold and treated to a glass of cider. They were then told they could pick a pumpkin to take along back to school.

The children carved their pumpkin into a Jack O'lantern with their teacher's help, then roasted the pumpkin seeds and ate them.

In observance of fire prevention week the Pioneer Fire Company of Marietta brought their engine and squad truck to school and explained the workings of the truck and its equipment to the children.

Future plans are for the children to visit Harrisburg International Airport, where they will board a C-130 cargo plane, and the Carvel Ice Cream store in the Manor Shopping Center.

Welding causes fire

Repairs being made to a corn picker in the field resulted in extensive fire damage to both farm equipment and crops on the Tom Rich farm on Ore Mine Road near Marietta last Saturday.

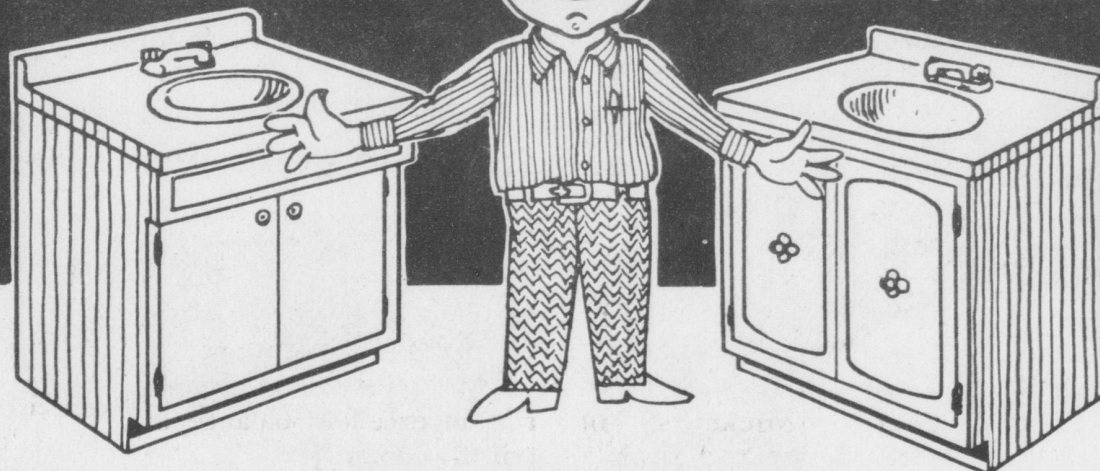

Sparks from an electric welder being used to repair a wheel on a large piece of farm equipment ignited dry

materials inside the mechanism, a corn picker owned by Robert Mowrer. The picker was seriously damaged.

The fire also burned down a quarter of an acre of standing corn, according to Charles Shaffner, assistant chief of the Maytown Fire Company, which put out both fires.
