

## Riverview kids to see science show

The Traveling Science Show of the Franklin Institute Science Museum in Philadelphia will be presented to Riverview Elementary School students on January 22nd.

The 45-minute show, entitled "Hot and Cold," uses a variety of scientific instruments and demonstrations to dramatize science concepts.

In addition to the show itself, the program will

include a question and answer session, an opportunity for the teacher to discuss the show with the museum's instructor, and special discount coupons to encourage students to follow up on the show with

a visit to the museum.

Kindergarten through grade 3 students will see the show at 8:45; grades 4 through 6 will watch it at 9:45.

**FOR YOUR WALL,  
FOR YOUR DEN,  
FOR YOUR HALL.**

**You'll find . . .  
TRENDLINE fits them ALL.**

Corny but true. The stylish and compact TRENDLINE® is designed to fit most anywhere you need it. Put a TRENDLINE in that tight nook in the kitchen or on that already too small night stand in the bedroom. A TRENDLINE would look just right under that over crowded counter or even on the wall between ma and pa's picture. And what about color? Yes, we have a great choice of colors. And not just any colors, but decorator colors like:

- Aqua Blue
- Burnt Orange
- Harvest Gold
- Beige
- Cherry Red
- Moss Green
- Black
- Cocoa Brown
- White

Call or stop-by your local business office of United Telephone today and order your favorite TRENDLINE.
