## Showdown for girls

### Boys, in tie for 1st, face tough contests

Hopes for a section championship for the Donegal girls' basketball team will ride largely on the outcome of a contest with Hempfield slated for Thursday, Feb. 1, at DHS.

At the moment, Hempfield holds a one-game advantage over the Donegal girls. (The Indians have lost twice to Penn Manor,

but they handed the Black Knights' only defeat to Hempfield. Hempfield, in turn, has beaten Penn Manor).

A win on Thursday will restore the Indians to a tie for 1st place.

The boys' team, meanwhile, is facing a tough week. As we go to press, they are facing traditional rival E-town. On Friday,

Lebanon Catholic travels to Donegal, and next Friday, in the last game of the season, a tough Annville-Cleona team will try to spoil Donegal's season in the closing game.

If the Indians survive those games, they will still face a playoff with Garden Spot for the section championship.

## Check that fireplace!

Winter is the perfect time to curl up in front of a cozy fire. But before operating your fireplace or wood burning stove, take time to make sure you don't have a fire hazard.

-Make sure your chimney and flue lining are in good condition and free of blockage.

-Never use your fireplace or stove as an incinerator or garbage disposal. Be careful about throwing papers and other objects into the fire.

-Always keep a screen in front of the fireplace and keep flammable objects and household furnishings away from the fire.

-Do not leave a fire burning unattended, especially through the night.

-If your house is tightly insulated, consider leaving a window open a crack for ventilation.

Wood burning stoves are very popular because of their practicality and charm. They can also cause tragic fires when improperly installed or used. Check with your local fire department if you have any doubts as to proper procedures. Don't take chances.
